# Defining Educational Equity

# Educational Equity

## WHAT IS EDUCATIONAL EQUITY?

Educational Equity is the recognition that the barriers that marginalized students face are due to deliberate actions and biases, and therefore requires us to dedicate a greater amount of resources to remove them.

# Equity vs. Equality: Boxes

Ensuring resources (boxes) are distributed in a manner that allows the same access for all learners (viewing the game)

# Equity vs. Equality: Bikes

Broadening definitions of success (different-sized bikes) to increase access for a wider variance of learners

# Equity vs. Equality: Environment

Equity manifests itself in the system; the water, sunlight, and soil are designed to develop every plant. Equitably designed systems pay particular attention to those students who have been historically underserved.

# Justin: “Tune In To Others, Tune In To Yourself”

Educational equity in LBUSD will progress when we first realize that **our systems** of communication and restoration **no longer fit our community’s needs** (and never worked for some). Focusing on **upgrading those outmoded systems** will allow us to more rapidly improve and innovate towards the equitable future our students deserve.

Maryell:

# Seek Understanding Beyond Ourselves

Educational equity in LBUSD will progress when we recognize advancements while making space for limitations and systemic problems outside of our awareness. This requires being curious about others, discovering and owning our privilege, and holding space for beliefs and experiences that don't mirror our own. Ultimately, we need to see, face, and work to change systems that may be invisible to us.

## MINI DISCUSSION

Which conception of equity speaks to you? Why?

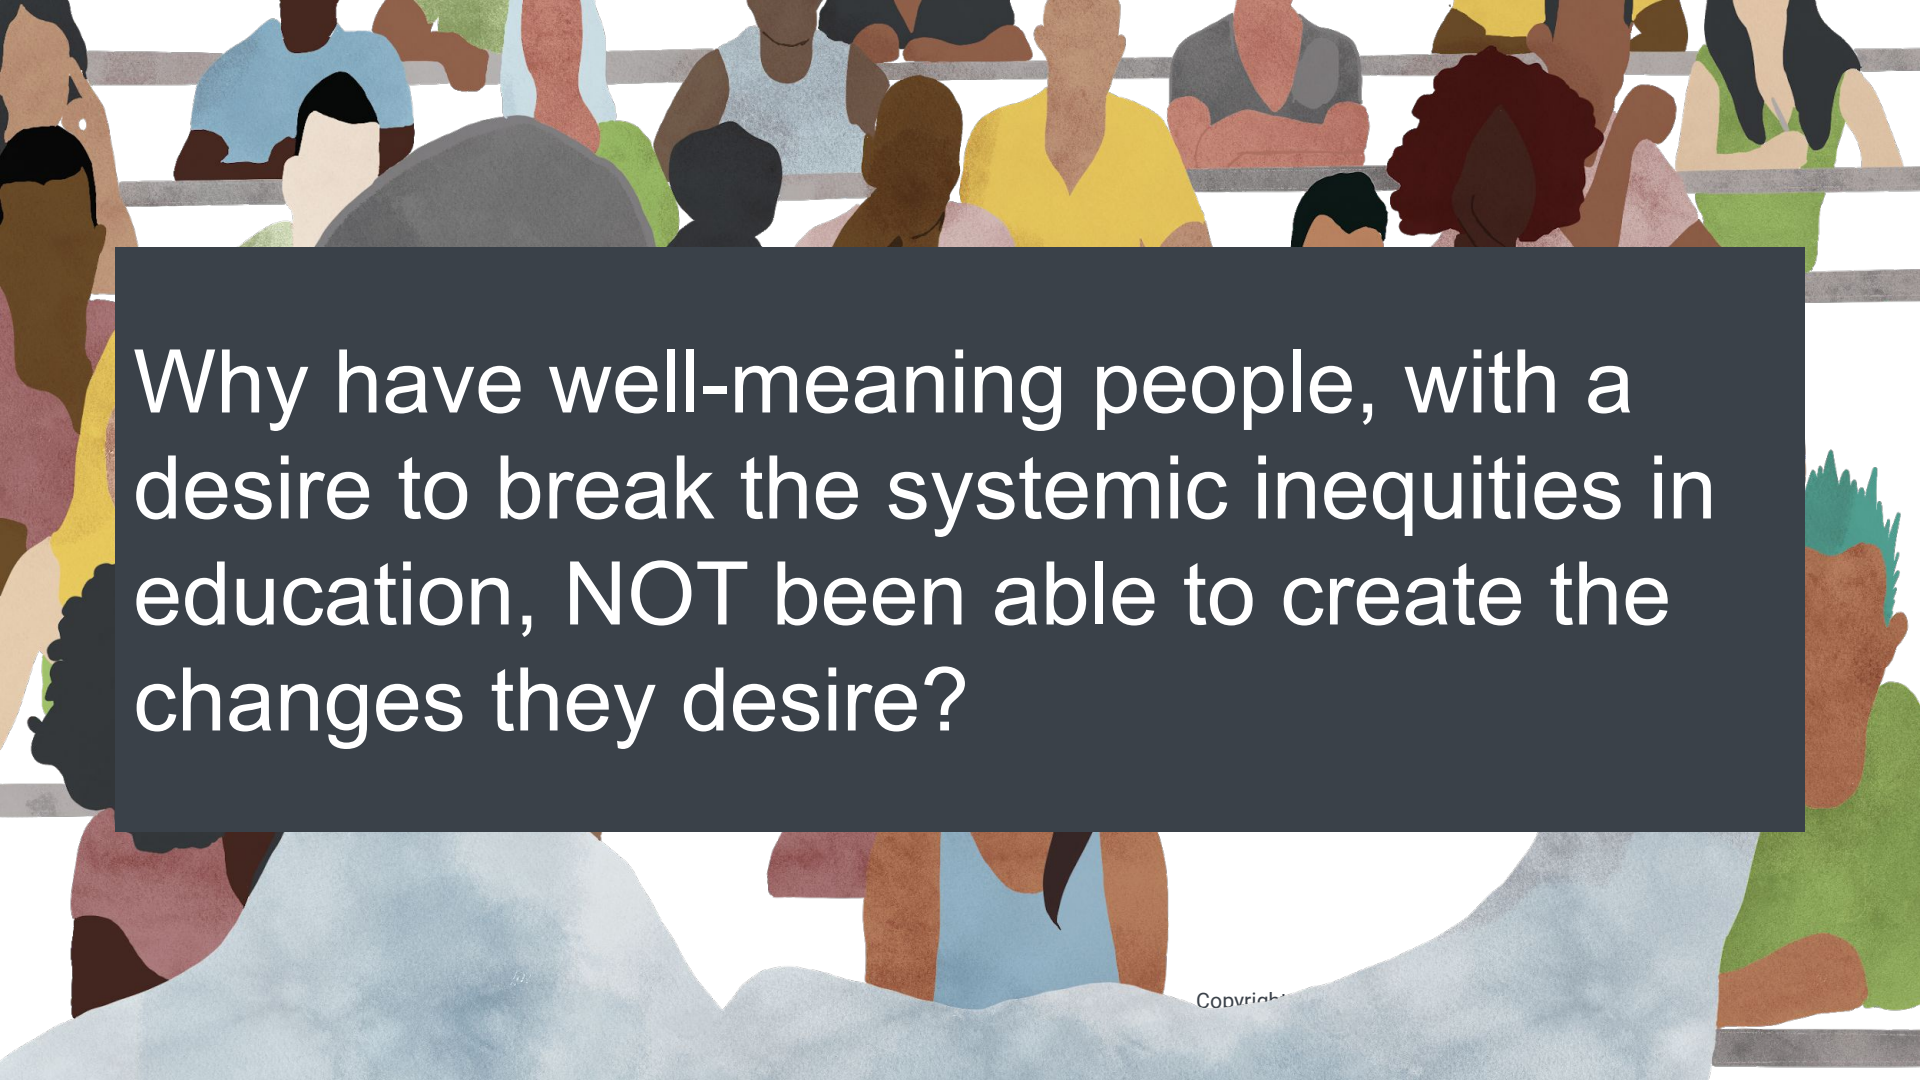

# A Means Towards Equity

**"Diversity** is a fact, **inclusion** is a strategy, **belonging** is a measure, and **equity** is the goal."

-Dereca Blackmon

An illustration of a diverse crowd of people sitting in bleachers. The people are depicted in various colors and styles, representing different ethnicities and ages. They are seated in rows, with some looking towards the camera and others looking away. The background is white, and the bleachers are represented by horizontal lines.

Why have well-meaning people, with a desire to break the systemic inequities in education, NOT been able to create the changes they desire?

An illustration of an iceberg floating in a dark blue sea. The tip of the iceberg is white and jagged, while the submerged part is a darker blue. A horizontal line separates the two parts, labeled 'Engagement Line'.

An illustration of an iceberg floating in a dark blue sea. The tip of the iceberg, which is above the water line, is white and jagged, resembling a snow-capped mountain. The much larger portion of the iceberg is submerged below the water line, appearing as a dark blue, translucent shape that mirrors the jagged peaks of the visible part. The background is a solid dark blue.

**EVERYTHING THAT DRIVES THE  
SYSTEM  
(INVISIBLE CONDITIONS  
PREVENTING CHANGE)**

A stylized, abstract illustration of a diverse group of people sitting in a theater or lecture hall. The figures are rendered in various colors and shapes, representing different ethnicities and ages. They are seated in rows, with some individuals looking towards the center. The background is a solid reddish-pink color. A dark grey rectangular box is overlaid in the center, containing the title text in white.
