Comprehensive Needs Assessment

Revised/Approved: May 18, 2020

Needs Assessment Overview

The Brownsville Independent School District (BISD), encompassing 95 square miles, is the largest employer south of San Antonio, Texas. Approximately 6,800 employees have accepted the challenge of serving a population of about 44,000 students. BISD recognizes and addresses the unique cultural lifestyle of South Texas with a broad selection of academic activities and programs for all students. These programs range from Early College High Schools and P-TECH campuses to support programs for students with special needs. Limited English speaking students are served through the Bilingual or English as a Second Language programs. There is significant pride in the progress BISD has made in recent years with regard to state-mandated testing. Better scores have translated into more seniors fulfilling degree requirements and graduating career-ready and college-connected. Academically, both the Southern Association of Colleges and Schools and the Texas Education Agency have accredited Brownsville public schools.

Brownsville ISD has made continuous overall improvement since the 2012-2013 school year. The number of Public Education Grant identified campuses has decreased from six to none over the past several years and BISD has never had more than one campus per year under the Texas Accountability system rated as Improvement Required since 2013 and this year has none rated overall D or F. The areas of the table below highlighted in green indicate an increase over the 2018 Accountability Ratings. Some of the change in relative performance is due to the revised Economically Disadvantaged calculation that changed the district's percentage from 95.8% down to 88.5%.

For 2019-2020, BISD campuses are rated A, B, or C overall in the new TEA Accountability system. BISD has joined Cohort 2 of the Texas Education Agency System of Great Schools to be able to benefit from the supports offered to accelerate the availability of high quality seats for all BISD students. The following table provides the BISD 2019 Accountability Ratings Overall Summary with the district's letter rating. For more specific student performance information, please refer to the TEA 2019 Accountability information at <https://rptsvr1.tea.texas.gov/perfreport/account/2019/srch.html?srch=C>

Demographics

Demographics Summary

The Brownsville Independent School District (BISD), encompassing 95 square miles, is the largest employer south of San Antonio, Texas. BISD has over 2,900 teachers and over 600 instructional aides providing instruction to our 45,535 students based on 2018-2019 TAPR data. BISD's student population is over 98% Hispanic, 95.8% economically disadvantaged, 32.5% English Learners (almost all Spanish), and has 66.9% of our students identified as At-Risk based on state criteria. BISD serves over 11,000 students through Special Education, Dyslexia, and 504 services based on individual needs. Almost 90% of BISD teachers are Hispanic and 98% have at least a Bachelor's degree and are highly qualified under the Every Student Succeeds Act (ESSA).

BISD is an integral part of the Brownsville community and refuses to allow the status of Brownsville as one of the poorest cities of its size in the United States to have a negative impact on the education of our students. BISD is very aware that we are no longer the only provider of education in Brownsville and continues to strive to ensure that we are still the "Best Choice" for local students. BISD offers universal feeding under Provision 2 for all students that includes breakfast, lunch and dinner as well as a summer feeding program. Our students are provided with health services at every campus that include periodic health screenings by the campus's licensed nurse or registered nurse.

Demographics Strengths

Despite being a high poverty area (one of the poorest cities in the United States), Brownsville and the school district are respected for not "acting" poor. The district and community work diligently to make sure students come first and have a wide range of opportunities to use to advance out of poverty through education. Although the latest available data indicates that less than 25% of area adults have higher education degrees, BISD graduated over 90% of the students in the Class of 2018 within four years and over 95% of those graduated on the regular or advanced plans.

The BISD 2018-2019 ESSA Equity Plan Committee ranked campuses based on poverty levels and minority percentages. The committee examined the following campus data from 2016-2017 and 2017-2018: percentage of teachers with 0-2 years of experience, percentage of teachers teaching out of field based on emergency certifications, T-TESS Evaluations overall ratings, student attendance, all subject/all grade failure rates, all subject/all grade STAAR/EOC passing rates, and other area information. When comparing the top quartiles based on minority and/or poverty percentages, the committee did continue to find some gaps but noted that the district has significantly smaller gaps than the State of Texas.

The pre-kindergarten programs for three- and four-year-old students continues to expand, especially in offering full day programs at almost all BISD elementary campuses. In 2019-2020, the Extended Day Enrichment Program (EDEP) continued to be offered at all elementary campuses providing academic services along with supper to address the need of families to have a safe and educational setting for young children during the week. On average, over 3,400 students participate daily afterschool in this program throughout the school year in addition to the several thousand attending accelerated instruction to provide tutorials for struggling learners. Unfortunately, the program was not able to be continued due to the COVID-19 "Closed--Instructing" situations and will be on hold until it can be offered safely in the 2020-2021 school year.

Student Learning Strengths

In 2018-2019 and most of 2019-2020, a major factor contributing to district strengths continued to be the consistency in professional development opportunities across core areas supported on campus and in classrooms. Walkthroughs and observations showed the implementation of the strategies acquired during the staff developments. Other academic strengths included:

1. Frequent visitation of classrooms, involving modeling, coaching, and providing instructional support ensured constant monitoring of classroom instruction based on the diverse needs of the campus.
2. Collaboration of district and campus staff in analyzing of assessment data was critical to student outcome.

3. Expansion of early childhood programs
4. STEM curriculum required the implementation of project-based learning at all middle schools and introduced 6 cluster STEAM Academies at selected elementary campuses.
5. Co-curricular and extra-curricular activities such as History Fair, Science Fair, Destination Imagination, Brainsville, STEM activities, Coding, Career and Technical CTOs, and Fine Arts were offered to BISD students to help keep them engaged and be able to apply experiences beyond the classroom, campus and district.

District Processes & Programs

District Processes & Programs Summary

The BISD Board of Trustees approved the district and campus early childhood and college/career readiness goals in Spring 2020 to monitor progress over the next five years. All campus and district staff collaborate to insure the students have access to all needed resources and supports to be academically successful and be prepared to graduate and enter college and/or pursue a career. BISD has continued restructuring and relocating of departments over the past few years to strengthen the communication and collaboration between and among related departments and programs. Beginning with the 2016-2017 school year, area administrators started working with strategically chosen campuses instead of clusters; however, with in January 2019, the district reverted to cluster-based leadership at the Assistant Superintendent level. In part this was to ensure that strong campuses within the clusters worked more closely with their peer campuses that were not as strong and also to better support the vertical alignment within the 6 feeder patterns.

In the Curriculum Department, each respective content area developed, implemented, and monitored district frameworks that reflected research-based strategies and best practices. All core content areas conducted grade-level, department, chairperson meetings, content clinics, and on-campus/in-classroom professional development. The Fall and Spring Literacy Conferences focused on raising the district performance on all state assessments by supporting literacy strategies across the curricula. Furthermore, Curriculum and Instruction conducted campus monitoring through meeting with administrators, planning with teachers, classroom observations with feedback, and through district assessments.

English Language Arts

The district compiled an Action Plan for ELA in the summer 2017 that is to continue to be implemented for 2018-2019 through strategies included in the current District Improvement Plan. The ELA Action Plan provides guidelines for the implementation of the ELA Plan created in the summer of 2016 with the key strategies, activities, and monitoring actions that are needed to take place at each level. The documents also identified key personnel for following up on the implementation. Reading initiatives for 2018-2019 again included a Fall and Spring Literacy Conference to support literacy across grade levels and content areas.

Fiction and non-fiction literature was expected to be used as the basis for not only reading but writing throughout the district at all appropriate grade levels. In the area of writing, the major activities for 2018-2019 were the continuation of the “Dr. Kay” strategies for all teachers of core content areas at elementary and secondary levels. The district established the Edgenuity software as the basis for all credit recovery classes at the secondary level as well as supports for retesting for EOCs and TSI preparation.

Mathematics

The main activities for elementary math teachers were focused on professional learning communities with representation from each campus and on-campus/in-campus supports based on specific needs identified by campus leadership. Secondary math teachers were provided sustained professional development through department meetings and co-planning on campus and in-classroom activities.

Science

Teachers from both middle school and high school were also given the opportunity to participate in literacy strategy trainings that were provided by trainers from CPO, Vernier, Coach, Cut Ups, and Summit k12. The purpose of the trainings was to implement literacy strategies during laboratory activities in the classroom.

Social Studies

Social Studies professional development sessions continued to focus on interdisciplinary planning and instruction to sustain and strengthen social studies at the elementary level. At the secondary level, trainings continued to support the integration of primary sources, sheltered instruction, and additional intervention strategies.

Technology

The Technology Services Department provides support to all district wide campuses and offices for computing, networking, web services, and enterprise Technology systems. Our responsibilities include the following areas: Instructional Technology, Technology Training, Network, Voice/Data/Internet Systems, and more. Our technology department team is responsible for the management of the infrastructure throughout our school district.

District Processes & Programs Strengths

Brownsville ISD has been successful in improving its implementation of a wide-range of academic programs and providing supports through a number of programs including Special Education, Bilingual/ESL, Dyslexia, 504, At-Risk, Migrant, Early College High School/Dual Enrollment, and Career and Technical Education (CTE) including P-TECH programs. District departments provide funds and personnel supports to students and campuses. Curriculum area departments have staff that go on to campuses and into classrooms to conduct walkthroughs and observations. Using information from these practices and other available data, staff conduct professional development activities including synchronous and asynchronous trainings, modeling, coaching, and more.

The BISD Guidance and Counseling services include supports for high school students to be strong academically as well as socially and emotionally. BISD has a strong Police and Security Services Department that supports safety around the district with officers as well as planning and, if needed, implementation of Emergency Operation Plans. BISD's Health Services Department staff have been able to return over 90% of students to classes after screening for health concerns as well as provide specific health screenings to all students. The district also implements a very successful Fine Arts program offering Band, Choir, Visual Arts, Dance, and Estudiantina programs at many grade levels. Physical Education and sports are also a major programmatic component providing options for students to improve their health and well-being. Our students continue to excel in a very wide range of co-curricular and extra-curricular programs and competitions. Although the COVID-19 pandemic caused a halt to many competitions, the district believes that these are important opportunities for our students.

The Parent and Community Engagement Department offers supports for parents and other stakeholders including training opportunities, volunteer opportunities, and community engagement sessions. The Migrant program implements the CAMP programs for identified students and conducts all federal required activities. The Migrant Program action plan can be found as an addendum to the district plan.

Federal and State funds are used to address specific needs and provide supplemental resources and supports from pre-kindergarten through Grade 12.

Perceptions

Perceptions Summary

Overall, while the district continues to be considered as the “Best Choice” by many parents and guardians, the continued decreases in enrollment have been interpreted by the BISD Board of Trustees as indicating a need to do more to market the district and highlight the significant recognitions garnered by students, campuses, and programs.

Data sources included in this summary are the BISD District compilations of Parent, Staff, and Student Campus Needs Assessment Surveys for 2018-2019 through 2019-2020. BISD’s Parent Surveys for 2019-2020 had 3,415 respondents for both Elementary and Secondary (about 1,061 less than Spring 2019 participation, some campuses were not completed due to COVID-19) with 62% responding in English and 38% responding in Spanish for Elementary (same percentage as in 2018-2019) and with 58% responding in English and 42% responding in Spanish for Secondary (1% increase in English and 1% decrease in Spanish from last year).

Perceptions Strengths

The BISD Parent Survey indicators showed that parents were slightly less satisfied overall (under 80% for 2019 versus over 80% combining "strongly agree" and "agree" for the prior year) with the special program instruction provided while over 91% were in agreement that the regular education program "does a good job of educating students." Over 98% of parents agree that BISD teachers expect their children to do their very best. For indicators relating to child safety, clean and well maintained schools, and availability of support staff for students, both English and Spanish respondents were overall in agreement (around 96%). About 65% (95% agreed) of all parents strongly agreed that they feel welcomed at their child's school. The Parental Involvement Department has identified the following as areas of strength:

1. Increased District parent participation at all levels
2. Combined strongly agree and agree statements are in the 95% range for parental support of schools and activities.
3. Over 1,800 informational parent meetings/trainings were conducted at the Campus and District level

Student survey data showed over 82% of the 10,205 elementary students who responded agree that they "Look forward to going to school each day." There was an increase from 72% of the 6,217 middle school students agreed with the statement in 2018 to 79% of the 7,569 students in 2019. In 2018, 66% of the 7,102 high school students agreed they looked forward to coming to school but this dropped slightly to 63% for 2019 of the 8,384 respondents. <p>Strategy 2: Identify who the agents of change are at the district and school level. Kotter (1995) suggests that one of the key errors organizations make is not recruiting the right people to lead and facilitate change. Rogers (1983) identifies categories of individuals in terms of their response to innovations, suggesting that those who are both respected by others and open to trying new things should be included in the planning process, as their support is essential to the success of change efforts in an organization. Title I Schoolwide Elements

ELEMENT 1. SWP COMPREHENSIVE NEEDS ASSESSMENT (CNA)

1.1: Comprehensive Needs Assessment

Brownsville ISD follows a continuous improvement cycle. This means that the district is both continuously and periodically reviewing data to assess and re-assess progress towards meeting district goals and performance objectives. Campus staff, parent and student needs assessment perceptual surveys are conducted every Spring and data is aggregated to the district level to be used as part of the comprehensive needs assessment. The DEIC meets monthly and during these meetings, progress reports are made along with a full mid-year progress presentation in January on all performance areas. The membership of the DEIC includes parents, community members, business members and elected teachers and non-teaching professionals from around the entire district. This group reviews quarter 3 progress and a range of data sources (refer to data documentation section) to review existing strengths and needs to determine any changes in these areas. The committee members re-ranked needs and determined priority areas along with BISD Board priorities to complete the CNA process at the April and May DEIC meetings in 2019.

ELEMENT 2. SWP CAMPUS IMPROVEMENT PLAN (CIP)

2.1: Campus Improvement Plan developed with appropriate stakeholders

Campus and program area needs assessments are aggregated to use in determining the needs to be addressed through the district improvement plan (see CNA information). The District Education Improvement Committee is broken into goal area subcommittees that meet with the support of program area staff to review, revise and update the prior year improvement plan. Annually the DEIC approved plan is submitted for BISD Board of Trustees approval of the district goals and performance targets. The major revisions to the 2019-2020 plan were approved by the DEIC on May 13, 2019. A complete list of the DEIC members is included as part of this plan.

2.2: Regular monitoring and revision

The District Improvement Plan strategies are monitored quarterly and revised by the DEIC supported by program area facilitators as needed based on the most current data from multiple sources related to the goals and performance objectives. The plan is also revised to address any changes in Federal or State law and/or guidelines. Title funds, State Compensatory funds and non-salary local funds are included in plans, as appropriate. Updates to the plan are noted by revision dates in the specific strategies or performance objectives during the current year. The initial plan for 2019-2020 was approved by the DEIC membership on May 13, 2019.

2.3: Available to parents and community in an understandable format and language

The District and Campus Improvement Plans are currently written in English and translated to Spanish upon request. The district and campuses are seeking a feasible process for getting all plans completely translated as of the summer of 2019. The plans are currently available via campus websites and in paper at every campus as well as through the District.

2.4: Opportunities for all children to meet State standards

Most of the strategies for meeting State standards are found in Goal 1 which focuses on improving all instruction district-wide. The linked strategies are the major ones addressing

opportunities across the district.

2.5: Increased learning time and well-rounded education

The district directs funding to all campuses to support extended day, week and summer learning time opportunities. In addition, the district has departmental staff supporting special education services, dyslexia and 504 services, Bilingual/ESL services, and Advanced Academic Services. Most of these staff work with the implementation of these programs at the campus level and monitoring compliance with program requirements.

2.6: Address needs of all students, particularly at-risk

The main strategies for struggling students are found in Goal 9. These include extended learning time, additional activities for retention, dropout prevention, etc. Refer to selected strategies for key strategies.

ELEMENT 3. PARENT AND FAMILY ENGAGEMENT (PFE)

3.1: Develop and distribute Parent and Family Engagement Policy

The district Parental and Community Involvement staff provide campuses with support for reviewing and revising their Parent and Family Engagement policies and activities. The district and campus staff support the distribution of the documents and ensuring that meetings are held along with any required activities.

3.2: Offer flexible number of parent involvement meetings

The district staff provide campuses with guidance and support for regular scheduled weekly meetings and for additional meetings to provide opportunities at times outside of the regular school day. This district also hosts a variety of parental involvement meetings during the school year.

Childhood Literacy and Math in Discussion
Grade 3 and CCMR

BACKGROUND:

House Bill 3 (HB3) requires that school boards adopt a five-year plan to meet three outcome goals. One in early childhood literacy aligned to 3rd grade Reading STAAR results, one in early childhood math aligned to 3rd grade Math STAAR results, and one in College, Career, and Military Readiness (CCMR) aligned to graduates that meet readiness requirements. The board will work collaboratively with the superintendent to adopt appropriate board outcome goals with annual targets for aggregate student performance and each appropriate student group under the closing the gaps domain. The 2019-2020 school year serves as year one for plan implementation. District and campus plans should be adopted and posted by the end of the current school year on every campus and the district web site. Aligning the superintendent's evaluation to the board outcome goals, the superintendent's evaluation is aligned to each plan. The recommended board target goals and progress measures are attached for each grade and campus.

FISCAL IMPLICATIONS:

Priority for Service (PFS) Action Plan for Migrant Students

As part of the Every Student Succeeds Act (ESSA), the Priority for Service (PFS) Action Plan is a required program activity for the Migrant Education Program. In providing services with funds received under this part, each recipient of such funds shall give priority to migratory children who have made a qualifying move within the previous 1-year period and who are failing, or most at risk of failing, to meet the challenging State academic standards; or have dropped out of school. [§1304 [20 U.S.C. 6394](d)].

The Priority for Service Report on NGS must be used to determine who to serve first and foremost with MEP funds. Students are identified as PFS if they meet the following criteria:

Priority for Service Criteria	
Grades 3-12, Ungraded (UG) or Out of School (OS)	<ul style="list-style-type: none">• Who have made a qualifying move within the previous 1-year period; <u>AND</u> <ul style="list-style-type: none">• Have failed one or more of the state assessments (TAKS/STAAR), or were granted a TAKS LEP Postponement, were Absent, Not Tested or were not enrolled in a Texas school during the state assessment testing period for their grade level.
Grades K-3	<ul style="list-style-type: none">• Who have made a qualifying move within the previous 1-year period; <u>AND</u> <ul style="list-style-type: none">• Have been designated LEP in the Student Designation section of the New Generation System (NGS) Supplemental Program Component; <u>or</u>• For students in grades K-2, who have been retained, or are overage for their current grade level.

The following document is provided by TEA for districts to help document efforts that are being conducted on behalf of Priority for Service students. It contains all of the required components as described in Part 4 of the ESSA Application in the Provisions and Assurances, but also allows room for districts to add additional activities. Each district's plan must clearly articulate criteria for defining student success, including timelines for achieving stated goals and objectives.

NOTE: This document can be obtained electronically in MS Word format from the regional ESC MEP Coordinator.
