

## Class of 2022 Graduation Project Announcement

As part of the graduation requirements for Penn Wood High School, students are expected to complete and pass a graduation project. This year, your child will be completing this project in their 11th grade English class. This project provides an opportunity for each student to choose a possible career path of their personal interest and then present their findings in the form of a written essay or presentation. Your child will begin working on this during class beginning on Tuesday, April 6, 2021. To pass the graduation project, students must complete all parts of this process according to district guidelines.

It is essential that students choose a topic that is truly something they are interested in. It will be important that you monitor your son's or daughter's work so that you know how the work is progressing. It is extremely important that your child logs into and actively participates in class daily as this is where all information for the project will be provided and explained. If students do not attend class regularly and actively participate, they will most likely struggle with meeting the requirements.

We have included a handout that provides some specific information about the project and the timeline. Should you have any questions, please contact your child's teacher.

### **Major Due Dates:**

- Career Selection made: **April 12, 2021**
- Completed Outline: **Thursday, April 29th, 2021**
- Plagiarism Draft: **Thursday, May 6th, 2021**
