## How to redeem your student activity points?

Students that attended the three sessions earned three report card point to be added to the third quarter course of their choosing. Starting on April 12, each student will email the sessions he or she attended to the assigned administrator and state which course or courses he or she wants the points added to. As an example a student could say:

- I would like my points to go to my Math grade.
- I would like the points to go to my lowest grade.
- I would like one point to be added to my three lowest grades.

The administrator will check your attendance at the sessions and then award your points.
