

WELCOME TO THE

Launch Family

A Message from an Alumni Parent & Launch's Parent Engagement Coordinator

Congratulations on your acceptance to Launch!

You are now a member of a learning community that joins together engaging curriculum, character development, and family engagement.

Last year at this time, Launch was breaking new ground in the area of remote learning. 2021 found us with honed skills, engaged and determined students, innovative and student-centered curriculum. Our course is set to again break new ground and to shore up those areas in which we shine. In particular, making school a truly joyful experience by recognizing our students for their assets and celebrating their unique talents, abilities, growth and achievements. With you as part of the Launch community, we can aim high and achieve more than we thought possible.

As a parent or guardian invested in your child's education, you should expect the very best from your child's school. When my son attended Launch the very best is what he received. I was treated as a partner and a vital participant in my son's education. I am always proud to say I'm a Launch parent alum.

— **Miko Simmons-Jones**
Alumni Parent & Outreach Coordinator

Welcome new Launch parents!

Our ultimate goal at Launch is to ensure that each and every parent knows that they are partners in their child's education. We foster this collaboration by hosting informative, resource-filled Parent Association meetings. Parents are encouraged to join our virtual Parent Association meetings and Parent Circles, and volunteer on committees for policy decisions. Hopefully, when we once again are able to open our doors for in-school learning for all students and staff you will consider volunteering in classrooms and the main office. Parent input is essential when there are school policy decisions being made and, of course, making our Launch celebrations a family affair.

This year has been challenging, but at Launch we overcame challenges. Every staff member was available to parents and students to have regular check-ins, for technical support, and to keep morale high!

We are really looking forward to having you join the Launch Community because "We Are Crew". Join us! Hoping your family is well and please stay safe!

— **Sheryl Davis**
Launch Parent Engagement Coordinator
