

## EXTENDED SCHOOL YEAR (ESY) SERVICES

### Federal and state requirements as per the Legal Framework

#### DATA TO MAKE THE DECISION

The ARD committee must determine the need for ESY from formal and/or informal evaluations provided by the district or the parents:

- For a child enrolling in the LEA during the school year, information obtained from the prior LEA as well as information collected during the current year may be used to determine the need for ESY services.

#### REGRESSION IN CRITICAL AREAS

The ARD committee must identify the critical areas addressed in the current IEP objectives, if any, in which the child has exhibited, or reasonably may be expected to exhibit, severe or substantial regression that cannot be recouped within a reasonable period of time:

- A skill is critical when the loss of that skill results, or is reasonably expected to result, in any of the following occurrences during the first eight weeks of the next regular school year:
  - Placement in a more restrictive instructional arrangement;
  - Significant loss of acquired skills necessary for the child to appropriately progress in the general curriculum;
  - Significant loss of self-sufficiency in self-help skill areas as evidenced by an increase in the number of direct service staff and/or amount of time required to provide special education or related services;
  - Loss of access to community-based independent living skills instruction or an independent living environment provided by non-educational sources as a result of regression in skills; or
  - Loss of access to on-the-job training or productive employment as a result of regression in skills; and
- "Severe or substantial regression" means that the child has been, or will be, unable to maintain one or more acquired critical skills in the absence of ESY services.

## RECOUPMENT OF ACQUIRED SKILLS

The ARD committee must determine the reasonable period of time for recoupment of acquired skills on the basis of needs identified in the child's IEP:

- If the loss of acquired critical skills would be particularly severe or substantial, or if such loss results, or reasonably may be expected to result, in immediate physical harm to the child or to others, ESY services may be justified without consideration of the period of time for recoupment of such skills. In any case, the period of time for recoupment must not exceed eight weeks.

## GOALS AND OBJECTIVES

If the ARD committee determines that the child is in need of ESY services, then the IEP must also include goals and objectives for ESY services from the child's current IEP.

If a child for whom ESY services were considered and rejected loses critical skills because of the decision not to provide ESY services, and if those skills are not regained after the reasonable period of time for recoupment, the ARD committee shall reconsider the current IEP if the child's loss of critical skills interferes with the implementation of the child's IEP.
