

# Online Learning

Meaningful professional learning for continuous improvement—on *your* schedule.

Professional development is more than in-person sessions and classroom-style lectures. Cognia™ offers flexible learning opportunities that elevate your strengths and support your growth. Online courses are available any time and anywhere.

- Explore various topics including STEM certification, accreditation training and support, and eProve™ eleot® certification training.
- Choose a single session or take an eight- or sixteen-week program.
- Earn graduate credit while you learn, through our partnership with Acacia University.

## Conduct meaningful classroom observations focused on student engagement

Learn how to use Cognia's Effective Learning Environments Observation Tool (eleot). This learner-centric, formative tool provides quantifiable data on how students respond in the classroom, to help you create optimal learning environments and strengthen improvement efforts.

- eProve eleot 2.0 Certification Training
- Continuous Improvement in the Classroom

## Become certified as a Lead Evaluator for Cognia Engagement Reviews

Join a Cognia team! Complete the training to participate in accreditation reviews using self-paced instruction and support. Trainings available include:

- Leading the Engagement Review
- Early Learning Lead Evaluator
- Corporation Systems Lead Evaluator
- STEM Lead Evaluator
- Digital Learning Lead Evaluator (coming January 2020)
