

Authorization to Hold CARES Act Funds Credit Balance

You are receiving funds from the CARES Act that have been allocated to Presentation College. This authorization allows us to credit these funds to your student balance directly. Any funds above the current balance will be refunded to you, the student.

This form, if signed by you, authorizes PC to retain the funds and pay it to your student balance. PC will pay credit balances by depositing the funds in a savings or checking account designated by the student or refund by check (mailed to student billing address). Funds will be issued as an account credit within 14 days of Presentation College receiving the funds.

A student has the right to withhold agreement from all or part of this authorization. If you elect not to authorize PC to hold your CARES Act funds, the funds will be paid to you (the student).

If you choose to have these funds carried forward to another semester please specify.

Authorization:

I voluntarily authorize Presentation College to hold and manage my Cares Act credit balance as described above.
