

Out-of-District Placements

Effective Date: August 2004

Individuals with Disabilities Education Act
Vermont State Board of Education Regulations

The Individuals with Disabilities Education Act and state regulations require schools to maintain a full continuum of services and educate students as close as possible to the school they would be attending if they did not have a disability. The Lamoille North Supervisory Union Administrative Council developed and adopted procedures to be followed to guide the decision making for out-of-district placements. These guidelines and required decision making checklist are enclosed. All teams who are considering an out-of-district will use the checklist. The checklist will become a part of the student record.
