History and Description of Company

303 has been operating an "On Demand" taxi dispatch service on the Chicago North shore since 1946. The name "303" comes from the number on the call box at the Wilmette train station. Customers would dial 303 for service and the available drivers (parked nearby) would answer the Call box and dispatch themselves. We are currently providing services for most of the senior subsidy programs located in Lake, Cook, and DuPage counties. We provide 13,000 to 18,000 rides per month to "Special Needs Students" who attend specialized schools in Lake, Cook, DuPage, McHenry, and Kane counties.

For the past 33 years we have been providing more transportation for "Special Needs Students" than any taxicab dispatch company in the Chicagoland area. 303 currently dispatches to over 113 Illinois School Bus permitted operators providing services that total in excess of 11,000 trips per month. Our key dispatch and central office staff have been together for over 19 years and the average period of time the drivers have been providing services for schools is over 8 years with some over 20 years.

The primary contact person for all day-to-day operations will be Marge Sheikh. Marge is the manager of school transportation. She has been with the company for over 29 years and is highly skilled and has vast knowledge of special needs transportation. Marge is accompanied by a staff of 4 highly qualified representatives that have a combined total of more than 40 years in special needs transportation. 303 utilizes the latest communication technology to ensure that someone is always available to address any questions, comments, or concerns. Marge's office number is 847-368-8919, fax 847-368-8920, cell phone 847-344-0734, and email marge@303taxi.com.

Discussion of Qualifications and Scope

The school transportation unit of 303, headed by Marge Sheikh, is part of a flat organizational structure. Marge reports directly the owners of 303. Within the school transportation office itself, she has four people working with her every day. One person, Vlad Laba, also does school dispatching. Vlad Laba has been dispatching school orders for the past six years. Prior to this he drove a taxi and was a school certified driver for five years. Three other people provide office support and assist with all of the email and voice communication necessary to successfully handle the school's needs. One additional person prepares the monthly billing detail and invoices to the school district.

Information on past contracts held and districts served in the past five years is attached. The number of drivers and vehicles needed has ranged from 110 to 130. 303 has not defaulted on any contracts.

Equipment

All vehicles used in transporting special needs students must meet the requirements of 625 ILCS 5/13-101 and 625 ILCS 5/13-109. All vehicles must be state inspected and pass safety tests every 6 months. All vehicles are independently owned and operated by independent contractors receiving dispatch from 303 and are housed and maintained by the owner of the vehicle. 303 dispatches orders to eligible operators affiliated with 303 Taxicab Association, Flash Cab Co, and Britelift, Inc.

Vehicles to be used will be first division passenger sedans and minivans. They will be from among the 110 plus vehicles owned by members operators described above with capacities ranging from 3 to 5 passengers. There are several vehicles modified for wheelchair access if the need arises.

303, LLC
9696 W Foster
Chicago, IL 60656
847-303-0303

All vehicles used for transportation are equipped with computers that are tracked by our GPS system that have emergency buttons installed within the driver's reach. We can track the vehicle's movements, and in the case of an emergency we can direct fire department and police assistance without the driver's help if necessary. Vehicles are equipped with video cameras to record inside and outside the vehicle.

All vehicles pass state safety lane inspections at least every 6 months, with some more frequent depending on village licensing. Driver coordinators also conduct random inspections of vehicles (looking at visual appearance, cleanliness, and licensing).

Since the vehicles are not owned by 303 itself, but by various owners dispatched by 303, if there is a mechanical breakdown necessitating a stand-by vehicle, 303 can dispatch to another school bus permitted driver in another vehicle.

Routes and Scheduling

303 will work with the District to fully communicate route and schedule information as discussed in the proposal specifications. While every effort will be made to accommodate requests from the District, 303 will retain the right to plan the final routes in order to safely and efficiently serve the transportation needs.

Personnel

303 takes the responsibility of transporting your students very seriously and we dispatch only State of Illinois Certified School Bus Permitted Drivers to provide student transportation as required by Illinois law including 625 ILC 5/6-104 and 625 ILC 5/6-106.1.

303, LLC

Chicago, IL 60656
847-303-0303

A permitted driver is one that:

- 1) Has been fingerprinted with a background check performed by the Illinois State Police looking for any history involving any crimes to children, sex offenders, and convicted felons.
- 2) Has passed drug and alcohol screenings.
- 3) Has passed a physical exam.
- 4) Has taken a State of Illinois training class
- 5) Has passed the State of Illinois exam
- 6) Has attended and met the requirements of an annual State of Illinois refresher course.

Once a driver is permitted and is associated with a transportation dispatch company such as 303:

- 1) The driver's information is added to a Secretary of State list that is updated 3 times annually.
- 2) The State continuously monitors the driver's activity looking for tickets or other information that will cause the suspension of the permit
- 3) The State reflects the permit status on the updated list and sends the transportation provider a letter letting them know that the permit has been suspended so that we can pull them from their route until the problem has been resolved to the satisfaction of the State of Illinois.

Drug and alcohol screenings are done annually to renew the school bus driver permit.

303, LLC
9696 W Foster
Chicago, IL 60656
847-303-0303

The background check performed is one that continuously monitors the subject. If any new information surfaces, this is reported to 303 so immediate action can be taken.

Please see attached list of school bus permitted operators. Drivers serving the district would be from the attached list. Drivers would normally be regularly serving the same routes so information on which specific drivers would be serving the District will be established together.

Operations Personnel and Training

Please see above with respect to training. Drivers serving the District are independent contractors receiving dispatch from 303. Therefore, there is not a hiring policy, but rather the verification of the needed background checks, licensing and permits. Many of the drivers have faithfully served schools for many years continuously.

Driver information as outlined can and will be provided in connection with establishing routes with the District.

303 will be conducting its annual safety meeting during the first two weeks of August. The specific date will be established shortly, and can be shared with the District.

Insurance

Insurance coverage is in compliance with 625 ILCS 5/12-707.01. Insurance coverage will meet or exceed the current requirements of the State of Illinois. Insurance limits differ from the proposal specifications. The following describes the insurance coverage included:

Route Pricing

Pricing is based on:

- a) Curb to curb service where the driver remains with the vehicle at all times, pulls up in the morning and waits – usually 3-4 minutes – unless otherwise directed by the District before notifying the dispatcher to be released.
- b) We assume there will be a caregiver at both pickup and drop off points to hand off and/or receive the child and that the only assistance the ambulatory child may need from the driver will be assistance with seat belts.
- c) Unless notified by the District to the contrary we assume that we will be able to share the vehicle with other District students and build routes that make the most productive use of the transportation asset.
- d) For ride cancellations, any made an hour or more in advance will result in no charge to the District. Those made with less than 60 minutes' notice will result in the full fare being charged.

Additional Children/Stops:

There is no additional charge for additional students traveling at the same time to/from identical locations based on sedan capacity. For those students with different pickup/destination locations within the same town an "Additional Child Stop" fee is added to pricing stated. For example, 4 children are being picked up at school going to two different destinations within the same town will incur 1 extra Child Stop charge.

Additional extra/special charges are listed on the Pricing Schedules.

This document has important legal consequences. Consultation with an attorney is encouraged with respect to its completion or modification. Any singular reference to Contractor, Surety, Owner or other party shall be considered plural where applicable.

The Contractor and Surety are bound to the Owner in the amount set forth above, for the payment of which the Contractor and Surety bind themselves, their heirs, executors, administrators, successors and assigns, jointly and severally, as provided herein. The conditions of this Bond are such that if the Owner accepts the bid of the Contractor within the time specified in the bid documents, or within such time period as may be agreed to by the Owner and Contractor, and the Contractor either (1) enters into a contract with the Owner in accordance with the terms of such bid, and gives such bond or bonds as may be specified in the bidding or Contract Documents, with a surety admitted in the jurisdiction of the Project and otherwise acceptable to the Owner, for the faithful performance of such Contract and for the prompt payment of labor and material furnished in the prosecution thereof; or (2) pays to the Owner the difference, not to exceed the amount of this Bond, between the amount specified in said bid and such larger amount for which the Owner may in good faith contract with another party to perform the work covered by said bid, then this obligation shall be null and void, otherwise to remain in full force and effect. The Surety hereby waives any notice of an agreement between the Owner and Contractor to extend the time in which the Owner may accept the bid. Waiver of notice by the Surety shall not apply to any extension exceeding sixty (60) days in the aggregate beyond the time for acceptance of bids specified in the bid documents, and the Owner and Contractor shall obtain the Surety's consent for an extension beyond sixty (60) days.

If this Bond is issued in connection with a subcontractor's bid to a Contractor, the term Contractor in this Bond shall be deemed to be Subcontractor and the term Owner shall be deemed to be Contractor.

When this Bond has been furnished to comply with a statutory or other legal requirement in the location of the Project, any provision in this Bond conflicting with said statutory or legal requirement shall be deemed deleted herefrom and provisions conforming to such statutory or other legal requirement shall be deemed incorporated herein. When so furnished, the intent is that this Bond shall be construed as a statutory bond and not as a common law bond.

In addition, the District shall have the right to terminate its respective contract at any time for any reason or no reason by providing the contractor thirty (30) days written notice of their intent to terminate.
