	Re-take tests as needed for blood sugar imbalances
	Other:

AUSTIN PUBLIC SCHOOLS
INDIVIDUAL HEALTH CARE PLAN 2020-2021

Name:		DOB:		Grade:	

Equipment and supplies provided by parent:

- Blood sugar meter kit (includes all blood testing supplies for use at school)
- Insulin (in unopened original container)
- Ketostix
- Glucagon – if ordered by physician and the parent makes it available
- Fast acting carbohydrate drink and Glucose tablets or glucose gel product
- 5-6 pre-packaged snacks (crackers and cheese or peanut butter, etc.)
- Signed and dated sliding scales/bolus correction
- Storage location (to be filled out by health office staff):

Extra snacks/ parties (check all that apply):	
	Child will eat treat
	Teacher/staff will notify parent prior to activity
	Treat will be replaced with parent-supplied alternative
	Schedule extra insulin per pre-arranged plan (parent must provide in writing what plan will be with their signatures and the date the plan is for)
	Other

Students who ride the bus: If a low blood glucose episode occurs 30 minutes or less prior to departure, the designated staff or nurse (if in the building) will.	
	Call parent to inform of episode (regardless if blood glucose returns to normal or not)
	Allow child to ride the bus home if blood glucose returns to normal
	Call parent to pick up child (**students will not be sent on the bus with a low blood glucose**)
	Other:
If student is totally independent in care it is the student's responsibility to alert staff of high or low blood glucose occurring 30 minutes or less before the end of the day.	
Students who drive to school (high school only) (check all that apply)-If a low blood glucose episode occurs 30 minutes or less prior to departure ***student will:***	
	Treat mild hypoglycemia, wait 10 minutes and retest. If blood glucose returns to normal student will drive home.
	Call parent to inform of episode
	Call parent to pick up student if blood sugar does not return to normal. ***Students with low blood glucose or high blood glucose with a large amount of ketones will not be allowed to drive home.**
	Other:
If the student is totally independent in care it is the student's responsibility to alert staff of high or low blood sugar occurring 30 minutes or less before the end of the day.	

Field Trips	
	Totally Independent
	Parent accompanies child on field trip

Name:		DOB:		Grade:	

Please put an X in the box that best describes your child's role in management of their diabetes (If an activity is marked as independent an RN or LSN from the Austin Public Schools will verify competency with the student.)

In order for activity to be marked as independent student must be able to perform task without reminders or assistance

Syringe/Pen	Does it independently	Does it with supervision	Health Staff needs to assist	Health staff performs
Washes hands				
Puts strip in monitor				
Pricks finger: How often is lancet changed				
Reads monitor				
Records results				
Able to calculate amount of insulin based on results				
If student uses **syringe**, able to prepare syringe and draw up correct amount of insulin. If student uses **pen**, able to prime and dial correct amount of insulin. If using pen is student able to change the insulin cartridge? **Yes ___ or No**				
Selects insulin injection site Does student clean site with alcohol? **Yes ___ or No**				
Injects insulin				
If needed measures for Ketones
