

In anticipation of more car traffic next week at morning drop-off (8:35-8:50) & afternoon pick-up (3:00-3:20), please adhere to the following safety measures:

- 1) If you see the buses leaving the bus channel, please stop and allow all the buses to turn right. Wait until the last bus has left the bus channel before proceeding. **DON'T BLOCK THE BUS CHANNEL.**
- 2) When exiting the back-parking lot, turn right. This keeps the traffic moving in the same direction and reduces congestion on 37<sup>th</sup> Street. It also makes it a lot easier for the buses to turn right.
- 3) Be cognizant of the crossing guard and walkers around the school property. **DRIVE SLOWLY AND BE AWARE.**
- 4) Do not stop your car on 37<sup>th</sup> Street and let your son/daughter out of your car. This stops the flow of traffic. Remain in the car line and enter the back-parking lot.
- 5) Teach your child to get out of your car on their own. To the greatest extent possible, please remain in your car. Instruct your child to walk in front of your car, **NOT** behind it.
- 6) When picking up your child, teach them to be able to open your car door and put on their seat belt.
- 7) Due to the traffic we expect on Broadway, the teachers supervising car line pick-up at the end of the day will start dismissing students being picked up in cars first. Parents standing outside the gym entrance will now wait for their walker longer.

Here is a 1 minute video that demonstrates the procedure. Thank you Cetronia families for your patience with our morning drop-off and afternoon pick-up procedures.
