PUBLIC WATER SYSTEM: Parkway School
141 Lower Cross Road, Greenwich, CT
CLASSIFICATION TYPE: Non Transient Non Community
PWSID: CT0570212

SUBJECT: SAMPLING PLAN - SAMPLING POINT INVENTORY UPDATE

Dear Mr. Watson:

The Drinking Water Section (DWS) has accepted the sampling point inventory submitted pursuant to Section 19-13-B102 of the Regulations of Connecticut State Agencies for Parkway School. Please share the sampling point inventory with your contracted laboratory or other entity that reports water quality analytical results for this public water system to ensure that the samples are reported with the appropriate sampling point IDs. A complete sampling point inventory is also available on the public water system's Water Quality Monitoring Schedule, which is updated monthly on the DWS website. The results for repeat total coliform samples collected from within five (5) service connections upstream and downstream must be reported using sampling point IDs UPSTREAM and DOWNSTREAM.

The DWS must be notified of any updates to the sampling point inventory so samples can be reported accurately. If you have any questions concerning your sampling site plan, please contact me at (860) 509-7333.

Sincerely,

A handwritten signature in black ink that reads "Brian Liu".

Brian Liu
Sanitary Engineer
Drinking Water Section
