

Summer 2021

Summer Math Enrichment

For Rising Sophomores & Juniors

Class of 2023 & Class of 2024

This class will be in-person at Fenwick

Instructor: Ms. O'Dea

If you are interested in enhancing your MATH skills over the summer, then this is the course for you!

This course is designed around the central idea that mathematics is best mastered by solving problems. Through problem-solving, you will deepen your understanding of the concepts presented in a typical Algebra course as well as develop new algebraic and technology tools. The scope and content of this course will assist students with their preparation for the PSAT and other similar standardized tests. This course is not intended to cover the material of a full year course in mathematics. A TI-84 graphing calculator is required.

Fee per student: \$300
