- Staff has first shot on 2/26 and second will be on 3/21. Good for staff on confidence and morale.
- PTO. Looking forward to packages for teachers after second shot. Concerned about getting shots just prior to spring break.
- Planning started for next year. Making adjustments for interventions; how to utilize adult helpers. Multidisciplinary team meeting. Talking about gifted students and students with IEPs and how to best service them. What resources are available and how will they service them.
- 2021-22 school year. How many COVID changes do we want to keep and what other changes will we make. Will PTO be virtual or will there be an online option? Students are doing great.
- Biggest challenge right now is morning parking lot issues. Looking for long time solutions. Might be barricades.
- Field day is in discussion. 3/22 is the next meeting to discuss. Kickball tournament, popsicles, to-go lunches that are easy to transport outside. Classes will stay with their class. Will not likely be parent volunteers.
