Other information	

Guidance:

- Notes in red text throughout document (including these) are for guidance purposes for the Subject Leader and should be deleted before publishing.
- Whether you add notes in bullet points, insert tables into the boxes or just use text is up to you, I don't wish to enforce a standard format that may not work for everyone beyond this template.
- The intention of this document is to provide the students (And parents) with a guide towards their remaining education at LHEA, and inform them **with as much detail and accuracy as we can provide at this time**, about the range of evidence being used to determine their grades together with details of upcoming assessments etc.

- I have no doubt that you will need to make changes as more information becomes available from exam boards or your planned calendar needs amending as students are assessed and you feel the need to review plans. This is perfectly fine and I will make clear to students and parents that it is a guide, and all dates and details are subject to change but the key driver is that we are aiming to let students and parents know, in advance, of our plans for assessments etc.
