Dear Thomas,

We are pleased to offer for your consideration the following proposal for threshold installations at the Haddam-Killingworth High School Gymnasium, per our on-site discussion, our door schedule, and the following scope of work.

Division- 08720

- Furnish and install Pemko thresholds per schedule, to existing door openings.
- Aluminum thresholds to be mechanically fastened, rubber to be attached with adhesive (per manufacturer).
- Add non-shrink grout as necessary to certain openings to facilitate threshold installation.
- Furnish and install door sweeps to exterior doors.
- Cut down interior doors as necessary to fit over new thresholds.

Division 09910

- Paint (12) interior gym doors after cutting/modifying has been done.
- Paint color/sheen to match existing.

General Conditions

- Insurance
- Prevailing wage and certified payroll included.
- No Permit required.
- Daily clean-up.
- Work to be done during regular business hours (M-F 7:00am-3:30pm).

Clarifications

- Thresholds are being installed as "ramps", and will not meet ADA regulations.
- Structural integrity of doors may be compromised by cutting bottom to fit, proposal does not include costs to add reinforcement to door bottoms. This was discussed at the meeting on-site.
- There will be an exposed joint between thresholds and existing epoxy floor.
- The removable mullion lower brackets are to remain as-is because they are poured into the new epoxy, therefore we will be using 36" thresholds in lieu of 72".

We propose to perform the work as described above in the amount of \$16,168.00, CT Sales Tax not included (exempt entity- school).

We look forward to working with you on this project, if you should have any questions regarding this proposal, please do not hesitate to contact us.

Sincerely,
Chris Witham
