

POSITIVE FEEDBACK

Behavioral Strategy to Increase Desired Behaviors!!!

Dear Parent(s):

Look for any opportunity throughout your day to provide your child Positive Feedback. **Catch your child being good!!!!**

Reinforce your child's execution of skills **every** opportunity you have (even if you have to create or contrive opportunities).

Remember!!! The emphasis is on us, the adults. It is the people in your child's environment that must make changes **first** to mitigate the effect of your child's challenges and help them be successful!!

Use the following self-reflective checklist to guide you towards **optimal** Positive Feedback.

- Make it behavior specific (i.e., "Love how you're sitting!")
- Use lots of such meaningful verbal praise
- Use visual feedback (i.e. token boards)
- Be animated with great enthusiasm (smiling, eye contact, etc.)
- Raise your volume high enough to indicate you're excited.
- Use appropriate inflection.
- Use a variety of praise wording.

Here's a YouTube link how parents can use Positive Reinforcement!
