

Bridging the Academic Gap

Summer Program

Skyuka Hall

Our unique program takes place over a four-week period in June and provides an intensive time of remediation and/or acceleration in Reading, Writing, and Math. Our summer begins with an assessment to pinpoint those specific areas of need your student has in all three of these academic areas. We will then tailor a plan to remediate those areas identified in the assessment. If your student does not require remediation, we will develop a plan to accelerate them. Students always enjoy this time of learning and it certainly helps to alleviate summer lag.

Dates: June 1– 24, Monday – Thursday

Time: Morning Program 8:30 – 12:00

Teacher to Student Ratio: Morning Program 1 – 6 Cost: \$1400

Skyuka Hall's summer program provides a unique opportunity for students that need remediation and/or acceleration in reading, writing, and mathematics. Each class will give an entry assessment, maintain on-going data collection and each student will receive an end-of-the-camp report to make parents aware of their child's level of proficiency. Teachers will create a plan for each student based on their weaknesses and strengths. The students will then receive intensive, specific instruction unique to that child.
