

2021-2022 SCHOOL PROFILE

Director: Mr. Jason Montgomery

THE SCHOOL AND COMMUNITY

QSI International School of Bishkek (QSIB) is a private, nonprofit Preschool-Secondary IV (Grade 12) coeducational, American curriculum, college preparatory institution with a total of 65 students enrolled this year.

QSIB was founded in 1994 by Quality Schools International (QSI) in order to provide a quality education for expatriates living in Bishkek, Kyrgyzstan. Parents of our students are primarily employed by corporations, governments, and NGOs; Local Kyrgyz citizens are also admitted. Students at QSIB represent many different nationalities.

This year there are 28 students in the Secondary program and 4 students in the 2021 graduating class.

QUALITY SCHOOLS INTERNATIONAL

QSI International School of Bishkek is a member of Quality Schools International (QSI), a consortium of nonprofit college-preparatory schools following an American-style, international curriculum. Quality Schools International has 35 schools in 29 countries, with headquarters in Malta. QSIB embraces the mastery learning educational philosophy, leading to appropriately challenging instruction within a positive and enjoyable learning environment.

CLASS RANK AND GPA

Due to the nature of our school and the small class sizes, QSIB does not rank students. The cumulative GPA on the student's transcript only reflects courses taken at QSI and is on a 4.0 scale. Grades from previous schools are not included in the GPA but they are listed on student transcripts.

COVID-19 UPDATES

QSIB transitioned to virtual learning from March-June 2020. In Fall 2020, students returned to campus. Due to the availability of testing dates and the closure of testing sites during the COVID-19 pandemic, students were not regularly able to access SAT testing during Spring and Fall 2020.

ACCREDITATION

QSIB is fully accredited by the Middle States Association of Colleges and Schools (MSA). It is a member of the Central and Eastern European Schools Association (CEESA) and is affiliated with the Department of State Office of Overseas Schools (AOS).

MASTERY LEARNING AND GRADING

Mastery of each essential unit is evaluated with an A or B (mastery grades). B denotes mastery of learning outcomes at a high level of understanding. A represents mastery where the student demonstrates higher order thinking skills. Mediocre or poor work, resulting in Cs and Ds, is not acceptable, and students will re-engage until they demonstrate mastery. Students who master a unit with a B evaluation may attempt to demonstrate a higher level of mastery at a later time, within that current school year, to change the evaluation to an A. Time periods (quarters, semesters, and terms) are not evaluated. Assessment is continuous and student performance is assessed on learning outcomes and units of study.

THE ADVANCED PLACEMENT PROGRAM

QSIB offers a robust Advanced Placement (AP) program with several courses offered through the QSI Virtual School or other online programs.

Students may also enroll in the AP Capstone Diploma program.
