

IT Apprentice for Education Trust

Required for Summer & Autumn 2021

Salary from £6.56 ph depending on age

Full Time Contract (not term time) 36 hours pw

Field based role supporting 4 schools in
Croydon & Sutton

Varied IT technical support role with scope for career development

If you enjoy solving problems in a calm, methodical way and engage easily with a variety of people, then here is an opportunity to develop your enthusiasm for IT alongside working skills. You would be welcomed as part of our dedicated, central IT support team, based in schools in Wallington and South Croydon. Education provides an exciting, innovative, changing workplace and this role is emerging with the natural expansion of this successful 4-school multi-academy (MAT) trust in South London.

What is important is a knowledgeable, keen interest in IT and a friendly, professional manner as you will be assisting with the provision of high-quality technical support, advice and guidance for both staff and students. It is a varied role involving delivering software and hardware solutions, where you could be required to visit different schools on a daily basis.

Folio has a good reputation for career development and internal succession planning, so the role is open to those with no experience; any relevant qualifications will be advantageous and we offer training in any necessary aspects of IT and associated technologies. Any work experience preferably gained in an education or IT environment will be useful.

The MAT comprises an established, outstanding boys' grammar with mixed sixth form, a primary school, a junior school and a brand new secondary phase, comprehensive free school, Coombe Wood School: the last opened in 2018 and for which the building of a state-of-the-art £35M building project was completed earlier this year.

(Your apprenticeship will be managed by Associated Neighbour Training)

The new apprenticeship is a minimum 18-month programme before end point assessment which means it will be completed between 18 months and 2 years. The expectation is you commit to completing your training within that period, after which a permanent role may be considered if there is the business need within the service.

Application Procedure

Please download the candidate pack and application form or visit
