You may sign in only for yourself, not other individuals or groups. The order of speakers will be established on a first-come, first-served basis. Due to time limitations, we will limit the number of speakers to 15 for 3 minutes each. You will need the ability to join the meeting electronically either by phone or online. You will receive instructions for joining the meeting 30-60 minutes prior to the start of the meeting. If you wish to speak to the School Board, you will be able to do so at the start of the school board meeting during Open Forum. If you spoke at the last meeting, please consider allowing others to speak before you.

Stillwater Area School District welcomes input from citizens as community involvement fosters better decision making and improved learning experiences for all students. While comments and questions are welcome during Open Forum, law prohibits the Board from discussing concerns about individual employees or students in a public meeting. We will stop the proceedings immediately if employee or student privacy issues are raised and direct the speaker to forward comments regarding individual employees or students to the superintendent.

Because we are modeling civil discourse for our community, speakers must present their testimony in a respectful manner. Vulgarity, character attacks, malice or specific complaints identifying staff or students by name or implication will not be permitted.

The Board will not deliberate, discuss, or engage in conversation with speakers during open forum.

However, the Board may ask administration to review the concern(s) presented.

NOW, THEREFORE, the Parties mutually agree as follows:

1. After full execution of this Amendment and School Board approval, the School District will pay TCT at the rate of 84% of the contractual amount per route for routes that TCT could not drive due to changes in the School District's Safe Schools instructional plan. Specific routes and schedules will be based on enrollment and student transportation needs during the 2020-2021 school year only. The routes to which the 84% payment obligation applies are only those previously scheduled by the District for the 2020-2021 school year and were subsequently not required due to the District's hybrid or distance learning instruction plan. TCT will submit separate invoices, subject to District review, for routes which were not driven due to changes in the School District's Safe Schools instructional plan. Payment of approved invoices will include an 84% per route payment for only those routes described in this paragraph.
2. It is specifically understood and agreed that this Amendment for partial payment for routes applies only to and from home to school routes; no payment will be made for extra-curricular, co-curricular, field trip routes, or any other routes not driven due to changes in the School District's Safe Schools Plan. Also, this Amendment does not apply to fuel costs.

3. As a condition for this Amendment and receipt of the payments set forth in Paragraph No. 1, TCT may not lay-off or terminate the employment of its employees assigned to serve the School District, and TCT must pay such employees their full regular wages and benefits, without reduction for routes not driven due to changes in the School District's instructional plan. TCT, however, still maintains its right to terminate employment of employees for cause and/or in accordance with its progressive discipline policy from the date of this agreement through June 30, 2021. TCT agrees to furnish evidence of compliance with this paragraph, by individual employee, if requested by the School District.
4. As a condition for this Amendment, TCT must disclose the details, as requested by the School District, of any state or federal aid it has received or applied for to defray the fiscal impact of the COVID-19 pandemic (i.e. Paycheck Protection Plan, Small Business Loan). If TCT receives state or federal aid, the Parties will attempt to mutually agree as to whether and in what amount the aid will affect the payment obligations under this Amendment. If the Parties do not reach an agreement, with 10 days' notice to TCT, payments under this Amendment will cease, and the amounts already paid to TCT pursuant to this Amendment will be deducted from future invoices submitted by TCT.
5. This Amendment shall expire on June 30, 2021. The Parties may agree to enter into a subsequent Amendment to address routes TCT is not able to drive due to changes in the School District's Safe Schools instructional plan.
6. Except as otherwise expressly provided in this Amendment, all of the terms, conditions and provisions of the July 1, 2017, Agreement between the Parties shall remain in full force and effect.

IN WITNESS WHEREOF, this Amendment is executed on the dates indicated below. It is specifically agreed and understood that this Amendment is valid only if approved by action of the School Board of the School District.

POLICY TITLE	POLICY NUMBER	ADOPTED	REVIEW FREQUENCY
ESTABLISHMENT AND ADOPTION OF SCHOOL DISTRICT BUDGET	701		Review Cycle: 3 Year

I. PURPOSE

The purpose of this policy is to establish lines of authority and procedures for the establishment of the school district's revenue and expenditure budgets.

II. GENERAL STATEMENT OF POLICY

The policy of the school district is to establish its revenue and expenditure budgets in accordance with the applicable provisions of law. Budget planning is an integral part of program planning so that the annual budget will effectively express and implement school board goals and the priorities of the school district.

III. REQUIREMENT

- A. The superintendent or such other school official as designated by the superintendent or the school board shall each year prepare preliminary revenue and expenditure budgets for review by the school board or its designated committee or committees. The preliminary budgets shall be accompanied by such written commentary as may be necessary for them to be clearly understood by the members of the school board and the public. The school board shall review the projected revenues and expenditures for the school district for the next fiscal year and make such adjustments in the expenditure budget as necessary to carry out the education program within the revenues projected.
- B. The school district must maintain separate accounts to identify revenues and expenditures for each building. Expenditures shall be reported in compliance with Minn. Stat. § 123B.76.
- C. Prior to July 1 of each year, the school board shall approve and adopt its initial revenue and expenditure budgets for the next school year. The adopted expenditure budget document shall be considered the school board's expenditure authorization for that school year. No funds may be expended for any purpose in any school year prior to the adoption of the budget document which authorizes that expenditure for that year, or prior to the adoption of an amendment to that budget document by the school board to authorize that expenditure for that year.
- D. Each year, the school district shall publish its adopted revenue and expenditure budgets for the current year, the actual revenues, expenditures, and fund balances for the prior year, and the projected fund balances for the current year in the form prescribed by the Commissioner within one week of the acceptance of the final audit by the school board, or November 30, whichever is earlier. A statement shall be included in the publication that the complete

budget in detail may be inspected by any resident of the school district upon request to the superintendent. A summary of this information and the address of the school district's official website where the information can be found must be published in a newspaper of general circulation in the school district. At the same time as this publication, the school district shall publish the other information required by Minn. Stat. § 123B.10.

- E. At the public hearing on the adoption of the school district's proposed property tax levy, the school board shall review its current budget and the proposed property taxes payable in the following calendar year.
- F. The school district must also post the materials specified in Paragraph III.D. above on the school district's official website, including a link to the school district's school report card on the Minnesota Department of Education's website, and publish a summary of information and the address of the school district's website where the information can be found in a qualified newspaper of general circulation in the district.

IV. IMPLEMENTATION

- A. The school board places the responsibility for administering the adopted budget with the superintendent. The superintendent may delegate duties related thereto to other school officials, but maintains the ultimate responsibility for this function.
- B. The program-oriented budgeting system will be supported by a program-oriented accounting structure organized and operated on a fund basis as provided for in Minnesota statutes through the Uniform Financial Accounting and Reporting Standards for Minnesota School Districts (UFARS).
- C. The superintendent or the superintendent's designee is authorized to make payments of claims or salaries authorized by the adopted or amended budget prior to school board approval.
- D. Supplies and capital equipment can be ordered prior to budget adoption only by authority of the school board. If additional personnel are provided in the proposed budget, actual hiring may not occur until the budget is adopted unless otherwise approved by the school board. Other funds to be expended in a subsequent school year may not be encumbered prior to budget adoption unless specifically approved by the school board.
- E. The school district shall make such reports to the Commissioner as required relating to initial allocations of revenue, reallocations of revenue, and expenditures of funds.

II. GENERAL STATEMENT OF POLICY

The policy of this school district is to modify its revenue and expenditure budgets in accordance with the applicable provisions of law.

III. REQUIREMENT

- B. If revisions or modifications in the adopted expenditure budget are determined to be advisable by the administration, the superintendent or designee shall recommend the proposed changes to the school board. The proposed changes shall be accompanied by sufficient and appropriate background information on the revenue and policy issues involved to allow the school board to make an informed decision. A school board member may also propose modifications on that board member's own motion, provided, however, the school board member is encouraged to review the proposed modifications with the superintendent prior to their being proposed so that the administration may prepare necessary background materials for the school board prior to its consideration of those proposed modifications.
- C. If sufficient funds are not included in the expenditure budget in a particular fund to allow the proposed expenditure, funds for this purpose may not be expended from that fund prior to the adoption of an expenditure budget amendment by the school board to authorize that expenditure for that school year. An amended expenditure shall not exceed the projected revenues available for that purpose in that fund.

The superintendent or designee shall make recommendations to the school board for appropriate revisions. POLICY TITLE	POLICY NUMBER	ADOPTED	REVIEW FREQUENCY
INVESTMENTS	705		Review Cycle: 3 Year

[Note: The provisions of this policy substantially reflect legal requirements.]

I. PURPOSE

The purpose of this policy is to establish guidelines for the investment of school district funds.

II. GENERAL STATEMENT OF POLICY

The policy of this school district is to comply with all state laws relating to investments and to guarantee that investments meet certain primary criteria.

III. SCOPE

This policy applies to all investments of the surplus funds of the school district, regardless of the fund accounts in which they are maintained, unless certain investments are specifically exempted by the school board through formal action.

IV. AUTHORITY; OBJECTIVES

- A. The funds of the school district shall be deposited or invested in accordance with this policy, Minn. Stat. Ch. 118A and any other applicable law or written administrative procedures.
- B. The primary criteria for the investment of the funds of the school district, in priority order, are as follows
1. Safety and Security. Safety of principal is the first priority. The investments of the school district shall be undertaken in a manner that seeks to ensure the preservation of the capital in the overall investment portfolio.
 2. Liquidity. The funds shall be invested to assure that funds are available to meet immediate payment requirements, including payroll, accounts payable, and debt service.
 3. Return and Yield. The investments shall be managed in a manner to attain a market rate of return through various economic and budgetary cycles, while preserving and protecting the capital in the investment portfolio and taking into account constraints on risk and cash flow requirements.

V. DELEGATION OF AUTHORITY

- A. The _____ of the school district is designated as the investment officer of the school district and is responsible for investment decisions and activities under the direction of the school board. The investment officer shall operate the school district's investment program consistent with this policy. The investment officer may delegate certain duties to a designee or designees but shall remain responsible for the operation of the program.
- B. All officials and employees that are a part of the investment process shall act professionally and responsibly as custodians of the public trust and shall refrain from personal business activity that could conflict with the investment program or which could reasonably cause others to question the process and integrity of the investment program. The investment officer shall avoid any transaction that could impair public confidence in the school district.

VI. STANDARD OF CONDUCT

The standard of conduct regarding school district investments to be applied by the investment officer shall be the "prudent person standard." Under this standard, the investment officer shall exercise that degree of judgment and care, under the circumstances then prevailing, that persons of prudence, discretion, and intelligence would exercise in the management of their own affairs, investing not for speculation and considering the probable safety of their capital as well as the probable investment return to be derived from their assets. The prudent person standard shall be applied in the context of managing the overall investment portfolio of the school district. The investment officer, acting in accordance with this policy and exercising due diligence, judgment, and care commensurate with the risk, shall not be held personally responsible for a specific security's performance or for market price changes. Deviations from expectations shall be reported in a timely manner and appropriate actions shall be taken to control adverse developments.

VII. MONITORING AND ADJUSTING INVESTMENTS

The investment officer shall routinely monitor existing investments and the contents of the school district's investment portfolio, the available markets, and the relative value of competing investment instruments.

VIII. INTERNAL CONTROLS

The investment officer shall establish a system of internal controls which shall be documented in writing. The internal controls shall be reviewed by the school board and shall be annually reviewed for compliance by the school district's independent auditors. The internal controls shall be designed to prevent and control losses of public funds due to fraud, error, misrepresentation, unanticipated market changes, or imprudent actions by officers, employees, or others. The internal controls may include, but shall not be limited to, provisions relating to controlling collusion, separating functions, separating transaction authority from accounting and record keeping, custodial safekeeping, avoiding bearer form securities, clearly delegating authority to applicable staff members, limiting securities losses and remedial action, confirming

telephone transactions in writing, supervising and controlling employee actions, minimizing the number of authorized investment officials, and documenting transactions and strategies.

IX. PERMISSIBLE INVESTMENT INSTRUMENTS

The school district may invest its available funds in those instruments specified in Minn. Stat. §§ 118A.04 and 118A.05, as these sections may be amended from time to time, or any other law governing the investment of school district funds. The assets of an other postemployment benefits (OPEB) trust or trust account established pursuant to Minn. Stat. § 471.6175 to pay postemployment benefits to employees or officers after their termination of service, with a trust administrator other than the Public Employees Retirement Association, may be invested in instruments authorized under Minn. Stat. Ch. 118A or § 356A.06, Subd. 7. Investment of funds in an OPEB trust account under Minn. Stat. § 356A.06, Subd. 7, as well as the overall asset allocation strategy for OPEB investments, shall be governed by an OPEB Investment Policy Statement (IPS) developed between the investment officer, as designed herein, and the trust administrator.

X. PORTFOLIO DIVERSIFICATION; MATURITIES

- A. Limitations on instruments, diversification, and maturity scheduling shall depend on whether the funds being invested are considered short-term or long-term funds. All funds shall normally be considered short-term except those reserved for building construction projects or specific future projects and any unreserved funds used to provide financial-related managerial flexibility for future fiscal years.
- B. The school district shall diversify its investments to avoid incurring unreasonable risks inherent in over-investing in specific instruments, individual financial institutions or maturities.
 1. The investment officer shall prepare and present a table to the school board for review and approval. The table shall specify the maximum percentage of the school district's investment portfolio that may be invested in a single type of investment instrument, such as U.S. Treasury Obligations, certificates of deposit, repurchase agreements, banker's acceptances, commercial paper, etc. The approved table shall be attached as an exhibit to this policy and shall be incorporated herein by reference.
 2. The investment officer shall prepare and present to the school board for its review and approval a recommendation as to the maximum percentage of the total investment portfolio that may be held in any one depository. The approved recommendation shall be attached as an exhibit or part of an exhibit to this policy and shall be incorporated herein by reference.
 3. Investment maturities shall be scheduled to coincide with projected school district cash flow needs, taking into account large routine or scheduled expenditures, as well as anticipated receipt dates of anticipated revenues. Maturities for short-term and long-term investments shall be timed according to anticipated need. Within these parameters, portfolio maturities shall be staggered

to avoid undue concentration of assets and a specific maturity sector. The maturities selected shall provide for stability of income and reasonable liquidity.

XI. COMPETITIVE SELECTION OF INVESTMENT INSTRUMENTS

Before the school district invests any surplus funds in a specific investment instrument, a competitive bid or quotation process shall be utilized. If a specific maturity date is required, either for cash flow purposes or for conformance to maturity guidelines, quotations or bids shall be requested for instruments which meet the maturity requirement. If no specific maturity is required, a market trend analysis, which includes a yield curve, will normally be used to determine which maturities would be most advantageous. Quotations or bids shall be requested for various options with regard to term and instrument. The school district will accept the quotation or bid which provides the highest rate of return within the maturity required and within the limits of this policy. Generally all quotations or bids will be computed on a consistent basis, i.e., a 360-day or a 365-day yield. Records will be kept of the quotations or bids received, the quotations or bids accepted, and a brief explanation of the decision that was made regarding the investment. If the school district contracts with an investment advisor, bids are not required in those circumstances specified in the contract with the advisor.

XII. QUALIFIED INSTITUTIONS AND BROKER-DEALERS

- A. The school district shall maintain a list of the financial institutions that are approved for investment purposes.
- B. Prior to completing an initial transaction with a broker, the school district shall provide to the broker a written statement of investment restrictions which shall include a provision that all future investments are to be made in accordance with Minnesota statutes governing the investment of public funds. The broker must annually acknowledge receipt of the statement of investment restrictions and agree to handle the school district's account in accordance with these restrictions. The school district may not enter into a transaction with a broker until the broker has provided this annual written agreement to the school district. The notification form to be used shall be that prepared by the State Auditor. A copy of this investment policy, including any amendments thereto, shall be provided to each such broker.

XIII. SAFEKEEPING AND COLLATERALIZATION

- A. All investment securities purchased by the school district shall be held in third-party safekeeping by an institution designated as custodial agent. The custodial agent may be any Federal Reserve Bank, any bank authorized under the laws of the United States or any state to exercise corporate trust powers, a primary reporting dealer in United States Government securities to the Federal Reserve Bank of New York, or a securities broker-dealer defined in Minn. Stat. § 118A.06. The institution or dealer shall issue a safekeeping receipt to the school district listing the specific instrument, the name of the issuer, the name in which the security is held, the rate, the maturity, serial numbers and other distinguishing marks, and other pertinent information.
- B. Deposit-type securities shall be collateralized as required by Minn. Stat. § 118A.03 for any amount exceeding FDIC, SAIF, BIF, FCUA, or other federal deposit coverage.

- C. Repurchase agreements shall be secured by the physical delivery or transfer against payment of the collateral securities to a third party or custodial agent for safekeeping. The school district may accept a safekeeping receipt instead of requiring physical delivery or third-party safekeeping of collateral on overnight repurchase agreements of less than \$1,000,000.

XIV. REPORTING REQUIREMENTS

- A. The investment officer shall generate daily and monthly transaction reports for management purposes. In addition, the school board shall be provided a monthly report that shall include data on investment instruments being held as well as any narrative necessary for clarification.
- B. The investment officer shall prepare and submit to the school board a quarterly investment report that summarizes recent market conditions, economic developments, and anticipated investment conditions. The report shall summarize the investment strategies employed in the most recent quarter and describe the investment portfolio in terms of investment securities, maturities, risk characteristics, and other features. The report shall summarize changes in investment instruments and asset allocation strategy approved by the investment officer for an OPEB trust in the most recent quarter. The report shall explain the quarter's total investment return and compare the return with budgetary expectations. The report shall include an appendix that discloses all transactions during the past quarter. Each quarterly report shall indicate any areas of policy concern and suggested or planned revisions of investment strategies. Copies of the report shall be provided to the school district's auditor.
- C. Within ninety (90) days after the end of each fiscal year of the school district, the investment officer shall prepare and submit to the school board a comprehensive annual report on the investment program and investment activity of the school district for that fiscal year. The annual report shall include 12-month and separate quarterly comparisons of return and shall suggest revisions and improvements that might be made in the investment program.
- D. If necessary, the investment officer shall establish systems and procedures to comply with applicable federal laws and regulations governing the investment of bond proceeds and funds in a debt service account for a bond issue. The record keeping system shall be reviewed annually by the independent auditor or by another party contracted or designated to review investments for arbitrage rebate or penalty calculation purposes.

XV. DEPOSITORIES

The school board shall annually designate one or more official depositories for school district funds. The treasurer or the chief financial officer of the school district may also exercise the power of the school board to designate a depository. The school board shall be provided notice of any such designation by its next regular meeting. The school district and the depository shall each comply with the provisions of Minn. Stat. § 118A.03 and any other applicable law, including any provisions relating to designation of a depository, qualifying institutions,

depository bonds, and approval, deposit, assignment, substitution, addition, and withdrawal of collateral.

XVI. ELECTRONIC FUNDS TRANSFER OF FUNDS FOR INVESTMENT

The school district may make electronic fund transfers for investments of excess funds upon compliance with Minn. Stat. § 471.38.

1. The school district will comply with all state laws relating to investments and guarantees that investments meet certain primary criteria. This includes all investments of the surplus funds of the school district, regardless of the fund accounts in which they are maintained, unless certain investments are specifically exempted by the School Board through formal action.
2. The funds of the school district shall be deposited or invested in accordance with this policy, Minn. Stat. Ch. 118A, 356A.06 and any other applicable law or written administrative procedures.
3. The primary criteria for the investment of the funds of the school district, in priority order, are as follows:
 - 3.1. Safety and Security
 - 3.1.1. Safety of principal is the first priority. The investments of the school district shall be undertaken in a manner that seeks to ensure the preservation of the capital in the overall investment portfolio.
 - 3.2. Liquidity
 - 3.2.1. The funds shall be invested to assure that funds are available to meet immediate payment requirements, including payroll, accounts payable, and debt service.
 - 3.3. Return and Yield
 - 3.3.1. The investments shall be managed in a manner to attain a market rate of return through various economic and budgetary cycles, while preserving and protecting the capital in the investment portfolio and taking into account constraints on risk and cash flow requirements.
4. The Assistant Superintendent for Business and Administrative Services is designated as the investment officer of the school district and is responsible for investment decisions and activities under the direction of the School Board. The investment officer shall operate the school district's investment program consistent with this policy. The investment officer may delegate certain duties to a designee or designees but shall remain responsible for the operation of the program.

- 4.1. The standard of conduct regarding school district investments to be applied by the investment officer shall be the “prudent person standard.” Under this standard, the investment officer shall exercise that degree of judgment and care, under the circumstances then prevailing, that persons of prudence, discretion, and intelligence would exercise in the management of their own affairs, investing not for speculation and considering the probable safety of their capital as well as the probable investment return to be derived from their assets. The prudent person standard shall be applied in the context of managing the overall investment portfolio of the school district. The investment officer, acting in accordance with this policy and exercising due diligence, judgment, and care commensurate with the risk, shall not be held personally responsible for a specific security’s performance or for market price changes. Deviations from expectations shall be reported in a timely manner and appropriate actions shall be taken to control adverse developments.
- 4.2. The investment officer shall routinely monitor existing investments and the contents of the school district’s investment portfolio, the available markets, and the relative value of competing investment instruments.
- 4.3. The investment officer shall establish a system of internal controls which shall be documented in writing. The internal controls shall be reviewed by the School Board and shall be annually reviewed for compliance by the school district’s independent auditors. The internal controls shall be designed to prevent and control losses of public funds due to fraud, error, misrepresentation, unanticipated market changes, or imprudent actions by officers, employees, or others. The internal controls may include, but shall not be limited to, provisions relating to controlling collusion, separating functions, separating transaction authority from accounting and record keeping, custodial safekeeping, avoiding bearer form securities, clearly delegating authority to applicable staff members, limiting securities losses and remedial action, confirming telephone transactions in writing, supervising and controlling employee actions, minimizing the number of authorized investment officials, and documenting transactions and strategies.
5. All officials and employees who are a part of the investment process shall act professionally and responsibly as custodians of the public trust and shall refrain from any conflicts of interest and/or personal business activity that could conflict with the investment program or which could reasonably cause others to question the process and integrity of the investment program. The investment officer shall avoid any transaction that could impair public confidence in the school district.
6. The school district may invest its available funds in those instruments specified in Minn. Stat. §§ 118A.04 and 118A.05, as these sections may be amended from time to time, or any other law governing the investment of school district funds. The assets of an Other Post-employment Benefits (OPEB) trust or trust account established pursuant to Minn. Stat. § 471.6175 to pay post-employment benefits to employees or officers after their termination of service, with a trust administrator other than the Public Employees Retirement Association, may be invested in instruments authorized under Minn. Stat. Ch. 118A or § 356A.06, Subd. 7. Investment of funds in an OPEB trust account under Minn. Stat. § 356A.06, Subd. 7, as well as the overall asset allocation strategy for OPEB investments, shall be governed by an OPEB Investment Policy Statement (IPS) developed between the investment officer, as designed herein, and the trust administrator.

7. Limitations on instruments, diversification, and maturity scheduling shall depend on whether the funds being invested are considered short-term or long-term funds. All funds shall normally be considered short-term except those reserved for building construction projects or specific future projects or OPEB and any unreserved funds used to provide financial-related managerial flexibility for future fiscal years.
8. The school district shall diversify its investments to avoid incurring unreasonable risks inherent in over-investing in specific instruments, individual financial institutions or maturities.
 - 8.1. Investment maturities shall be scheduled to coincide with projected school district cash flow needs, taking into account large routine or scheduled expenditures, as well as anticipated receipt dates of anticipated revenues. Maturities for short-term and long-term investments shall be timed according to anticipated need. Within these parameters, portfolio maturities shall be staggered to avoid undue concentration of assets and a specific maturity sector. The maturities selected shall provide for stability of income and reasonable liquidity.
9. Before the school district invests any surplus funds in a specific investment instrument, a competitive bid or quotation process shall be utilized. If a specific maturity date is required, either for cash flow purposes or for conformance to maturity guidelines, quotations or bids shall be requested for instruments which meet the maturity requirement. If no specific maturity is required, a market trend analysis, which includes a yield curve, will normally be used to determine which maturities would be most advantageous. Quotations or bids shall be requested for various options with regard to term and instrument. The school district will accept the quotation or bid which provides the highest rate of return within the maturity required and within the limits of this policy. Generally all quotations or bids will be computed on a consistent basis, i.e., a 360-day or a 365-day yield. Records will be kept of the quotations or bids received, the quotations or bids accepted, and a brief explanation of the decision that was made regarding the investment. If the school district contracts with an investment advisor, bids are not required in those circumstances specified in the contract with the advisor.
10. The school district shall maintain a list of the financial institutions that are approved for investment purposes.
11. Prior to completing an initial transaction with a broker, the school district shall provide to the broker a written statement of investment restrictions which shall include a provision that all future investments are to be made in accordance with Minnesota statutes governing the investment of public funds. The broker must annually acknowledge receipt of the statement of investment restrictions and agree to handle the school district's account in accordance with these restrictions. The school district may not enter into a transaction with a broker until the broker has provided this annual written agreement to the school district. The notification form to be used shall be that prepared by the State Auditor. A copy of this investment policy, including any amendments thereto, shall be provided to each such broker.

12. All investment securities purchased by the school district shall be held in third-party safekeeping by an institution designated as custodial agent. The custodial agent may be any Federal Reserve Bank, any bank authorized under the laws of the United States or any state to exercise corporate trust powers, a primary reporting dealer in United States Government securities to the Federal Reserve Bank of New York, or a securities broker-dealer defined in Minn. Stat. § 118A.06. The institution or dealer shall issue a safekeeping receipt to the school district listing the specific instrument, the name of the issuer, the name in which the security is held, the rate, the maturity, serial numbers and other distinguishing marks, and other pertinent information.
13. Deposit-type securities shall be collateralized as required by Minn. Stat. § 118A.03 for any amount exceeding FDIC, SAIF, BIF, FCUA, or other federal deposit coverage.
14. Repurchase agreements shall be secured by the physical delivery or transfer against payment of the collateral securities to a third party or custodial agent for safekeeping. The school district may accept a safekeeping receipt instead of requiring physical delivery or third-party safekeeping of collateral on overnight repurchase agreements of less than \$1,000,000.
15. The investment officer shall generate daily and monthly transaction reports for management purposes. In addition, the School Board shall be provided a monthly report that shall include data on investment instruments being held as well as any narrative necessary for clarification.
16. If necessary, the investment officer shall establish systems and procedures to comply with applicable federal laws and regulations governing the investment of bond proceeds and funds in a debt service account for a bond issue. The record keeping system shall be reviewed annually by the independent auditor or by another party contracted or designated to review investments for arbitrage rebate or penalty calculation purposes.
17. The School Board shall annually designate one or more official depositories for school district funds. The treasurer or the chief financial officer of the school district may also exercise the power of the School Board to designate a depository. The School Board shall be provided notice of any such designation by its next regular meeting. The school district and the depository shall each comply with the provisions of Minn. Stat. § 118A.03 and any other applicable law, including any provisions relating to designation of a depository, qualifying institutions, depository bonds, and approval, deposit, assignment, substitution, addition, and withdrawal of collateral.
18. The school district may make electronic fund transfers for investments of excess funds upon compliance with Minn. Stat. § 471.38.

ADMINISTRATIVE PROCEDURES AND REGULATIONS

I. Definitions

Gifts and donations to Stillwater Area Schools, The Partnership Plan for Stillwater Area Schools and other agents of I.S.D. 834 include monetary, in-kind or equipment given by groups, organizations, businesses, or individuals for the purpose of enhancing either I.S.D. 834's educational programs and/or physical facilities.

1. The source of the contribution must be acceptable to the Board.
2. Acceptance of the gift must not result in undesirable or hidden costs to I.S.D. 834.
3. Acceptance of a gift shall not be in conflict with any provision of school policy, IRS code or state law.
4. Gifts are not subject to the same equitability guidelines as revenues generated by local taxes and state and federal aid; therefore, they can be applied to specific programs or individual schools if so desired.
5. The gift shall not be inappropriate or harmful to the education of students or residents.
6. The acceptance of a gift shall not imply or require I.S.D. 834 endorsement of any product, service or individual.
7. It shall be a violation of this policy for any employee to solicit, accept, or receive as personal property or for personal benefit, either by direct or indirect means, a gift of greater than nominal value from a student, parent, or other individual or organization.
8. POLICY TITLE	POLICY NUMBER	ADOPTED	REVIEW FREQUENCY
Fund Balances	714		Review Cycle: 3 Year

[Note: The provisions of this policy include the provisions of Statement No. 54 of the Governmental Accounting Standards Board (GASB).]

I. PURPOSE

The purpose of this policy is to create new fund balance classifications to allow for more useful fund balance reporting and for compliance with the reporting guidelines specified in Statement No. 54 of the Governmental Accounting Standards Board (GASB).

II. GENERAL STATEMENT OF POLICY

The policy of this school district is to comply with GASB Statement No. 54. To the extent a specific conflict occurs between this policy and the provisions of GASB Statement No. 54, the GASB Statement shall prevail.

III. DEFINITIONS

- A. “Assigned” fund balance amounts are comprised of unrestricted funds constrained by the school district’s intent that they be used for specific purposes, but that do not meet the criteria to be classified as restricted or committed. In funds other than the general fund, the assigned fund balance represents the remaining amount that is not restricted or committed. The assigned fund balance category will cover the portion of a fund balance that reflects the school district’s intended use of those resources. The action to assign a fund balance may be taken after the end of the fiscal year. An assigned fund balance cannot be a negative number.
- B. “Committed” fund balance amounts are comprised of unrestricted funds used for specific purposes pursuant to constraints imposed by formal action of the school board and that remain binding unless removed by the school board by subsequent formal action. The formal action to commit a fund balance must occur prior to fiscal year end; however, the specific amounts actually committed can be determined in the subsequent fiscal year. A committed fund balance cannot be a negative number.
- C. “Enabling legislation” means legislation that authorizes a school district to assess, levy, charge, or otherwise mandate payment of resources from external providers and includes a legally enforceable requirement that those resources be used only for the specific purposes listed in the legislation.
- D. “Fund balance” means the arithmetic difference between the assets and liabilities reported in a school district fund.
- E. “Nonspendable” fund balance amounts are comprised of funds that cannot be spent because they are either not in spendable form or are legally or contractually required to be maintained intact. They include items that are inherently unspendable, such as, but not limited to, inventories, prepaid items, long-term receivables, non-financial assets held for resale, or the permanent principal of endowment funds.
- F. “Restricted” fund balance amounts are comprised of funds that have legally enforceable constraints placed on their use that either are externally imposed by resource providers or creditors (such as through debt covenants), grantors, contributors, voters, or laws or regulations of other governments, or are imposed by law through constitutional provisions or enabling legislation.

- G. “Unassigned” fund balance amounts are the residual amounts in the general fund not reported in any other classification. Unassigned amounts in the general fund are technically available for expenditure for any purpose. The general fund is the only fund that can report a positive unassigned fund balance. Other funds would report a negative unassigned fund balance should the total of nonspendable, restricted, and committed fund balances exceed the total net resources of that fund.
- H. “Unrestricted” fund balance is the amount of fund balance left after determining both nonspendable and restricted net resources. This amount can be determined by adding the committed, assigned, and unassigned fund balances.

IV. CLASSIFICATION OF FUND BALANCES

The school district shall classify its fund balances in its various funds in one or more of the following five classifications: nonspendable, restricted, committed, assigned, and unassigned.

V. MINIMUM FUND BALANCE

The school district will strive to maintain a minimum unassigned general fund balance of [____ percent of the annual budget.] [____ months of operating expenses.]

*[Note: School districts need to select one of the bracketed choices above and **fill** in the blank. The other bracketed choice should be deleted. If a minimum fund balance is specified, a stabilization arrangement such as that specified in Part IX below that sets aside specific stabilization amounts may not be necessary.]*

VI. ORDER OF RESOURCE USE

If resources from more than one fund balance classification could be spent, the school district will strive to spend resources from fund balance classifications in the following order (first to last): restricted, committed, assigned, and unassigned.

[Note: The school board determines this order.]

VII. COMMITTING FUND BALANCE

A majority vote of the school board is required to commit a fund balance to a specific purpose and subsequently to remove or change any constraint so adopted by the board.

VIII. ASSIGNING FUND BALANCE

The school board, by majority vote, may assign fund balances to be used for specific purposes when appropriate. The board also delegates the power to assign fund balances to the following: _____. *[Specify individual(s), such as the superintendent, business manager, etc., or an entity, such as the finance committee, authorized to make these assignments.]* Assignments so made shall be reported to the school board on a monthly basis, either separately or as part of ongoing reporting by the assigning party if other than the school board.

An appropriation of an existing fund balance to eliminate a projected budgetary deficit in the subsequent year’s budget in an amount no greater than the projected excess of expected expenditures over expected revenues satisfies the criteria to be classified as an assignment of fund balance.

IX. STABILIZATION ARRANGEMENTS

[Note: If the school board has established any arrangement(s) for emergencies and other contingencies, the description(s) should be included in this section. The school board needs to specifically define the circumstances or conditions when these amounts may be used, which must be unanticipated adverse financial or economic circumstances. These circumstances or conditions cannot be situations that are expected to or which occur routinely. Stabilization arrangements should be reported as restricted or committed if they meet

the criteria or, otherwise, should be reported as unassigned. They should not be reported as assigned. If the school board does not have any such arrangements, this section should be deleted.]

X. REVIEW

The school board will conduct an annual review of the sufficiency of the minimum unassigned general fund balance level.

[Note: The school board should determine the review period adequate for their school district and change “an annual” to “a quarterly” or “a monthly” or some other time frame if appropriate.]

POLICY TITLE	POLICY NUMBER	ADOPTED	REVIEW FREQUENCY
Fund Balance	R 5.4	06-23-2011 Revised: 08-28-2014	Annual

1. The school district's financial operations will comply with the Governmental Accounting Standards Board (GASB), including the fund balance reporting guidelines as specified in GASB Statement No. 54.
2. The school district will maintain a minimum unassigned general fund balance of five percent of the annual projected expenditures.
3. If the unassigned general fund balance is projected to fall below five percent, the Superintendent shall recommend to the School Board, a list of actions to be taken to ensure the required fund balance is maintained. Such recommendation shall include, but is not limited to:
 - 3.1. Not implementing new programming unless related expenses are matched directly by a revenue source;
 - 3.2. Adjustment of allocations for textbooks and non-capital supplies;
 - 3.3. Examination of all expenditure programs for areas where expenditure levels have historically been lower than budgeted levels;
 - 3.4. Review of options for transfer of funds between accounts in order to maximize utilization of available funding sources;
 - 3.5. Adjustment of allocations for all district staffing.
4. The school district shall classify its fund balances in its various funds in one or more of the following five classifications: non-spendable, restricted, committed, assigned, and unassigned.
5. Definitions
 - 5.1. For the purposes of this policy, the definitions included in this section apply:
 - 5.1.1. "Enabling legislation" means legislation that authorizes a school district to assess, levy, charge, or otherwise mandate payment of resources from external providers and includes a legally enforceable requirement that those resources be used only for the specific purposes listed in the legislation.
 - 5.1.2. "Fund balance" means the arithmetic difference between the assets and liabilities reported in a school district fund.

- 5.1.3. “Non-spendable” fund balance means amounts comprised of funds that cannot be spent because they are either not in spendable form or are legally or contractually required to be maintained intact. They include items that are inherently un-spendable, such as, but not limited to, inventories, prepaid items, long-term receivables, non-financial assets held for resale, or the permanent principal of endowment funds.
- 5.1.4. “Restricted” fund balance means amounts comprised of funds that have legally enforceable constraints placed on their use that either are externally imposed by resource providers or creditors (such as debt covenants), grantors, contributors, voters, or laws or regulations of other governments, or are imposed by law through constitutional provisions or enabling legislation.
- 5.1.5. “Unrestricted” fund balance means the amount of fund balance left after determining both non-spendable and restricted net resources. This amount can be determined by adding the committed, assigned, and unassigned fund balances.
- 5.1.5.1. “Committed” fund balance amounts are comprised of unrestricted funds used for specific purposes pursuant to constraints imposed by formal action of the School Board and that remain binding unless removed by the school board by subsequent formal action. The formal action to commit a fund balance must occur prior to fiscal year end; however, the specific amounts actually committed can be determined in the subsequent fiscal year. A committed fund balance cannot be a negative number.
- 5.1.5.2. “Assigned” means fund balance amounts comprised of unrestricted funds constrained by the school district’s intent that they be used for specific purposes, but that do not meet the criteria to be classified as restricted or committed. In funds other than the general fund, the assigned fund balance represents the remaining amount that is not restricted or committed. The assigned fund balance category will cover the portion of a fund balance that reflects the school district’s intended use of those resources. The action to assign a fund balance may be taken after the end of the fiscal year. An assigned fund balance cannot be a negative number.
- 5.1.5.3. “Unassigned” fund balance means amounts are the residual amounts in the general fund not reported in any other classification. Unassigned amounts in the general fund are technically available for expenditure for any purpose. The general fund is the only fund that can report a positive unassigned fund balance. Other funds would report a negative unassigned fund balance should the total of non-spendable, restricted, and committed fund balances exceed the total net resources of that fund.

6. The following is a summary of the fund balance components defined in Section four above:

Component		Definition
Non-spendable		Inherently non-spendable (i.e. inventories and pre-pays)
Restricted		Externally enforceable limitations on use (generally called reserved)
Unrestricted	Committed	Self-imposed limitations set in place by the highest level of decision-making authority (School Board) prior to the end of the fiscal year in which they apply
	Assigned	Limitations resulting from intended use set in place by delegated body or official
	Unassigned	Residual net resources

7. If resources from more than one fund balance classification could be spent, the school district will strive to spend resources from fund balance classifications in the following order (first to last): restricted, committed, assigned, and unassigned.
8. A majority vote of the School Board is required to commit a fund balance to a specific purpose (committed) and subsequently to remove or change any constraint so adopted by the Board.
9. The School Board, by majority vote, may commit fund balances to be used for specific purposes when appropriate. The Board also delegates the power to assign fund balances to the Superintendent and Director of Finance. Assignments so made shall be reported to the School Board annually, either separately or as part of ongoing reporting by the assigning party if other than the School Board.
10. An appropriation of an existing fund balance to eliminate a projected budgetary deficit in the subsequent year's budget in an amount no greater than the projected excess of expected expenditures over expected revenues satisfies the criteria to be classified as an assignment of fund balance.
