DMV Response to COVID 19

13

Did you know you can now apply for a replacement Social Security card online?

You may now be able to order a replacement Social Security card online, thanks to a partnership between the Virginia Department of Motor Vehicles (DMV) and the Social Security Administration.

Virginians and residents of other participating states who meet a few basic requirements may visit ssa.gov to submit their application online. Social Security compares the submitted information with DMV and other records and, upon verification, mails the customer a new card.

Participants must have a U.S. domestic mailing address and a valid driver's license or identification card, and must not need to change their name or make other record revisions.

DMV Offices are open by appointment Only
