School Highlights:

Richmond Public Schools has five regional preschool learning centers. These regional preschool learning centers provide the district's youngest learners with centrally-based, premier educational experiences. The regional preschool learning centers are Mary Scott (Ginter Park), Maymont, Blackwell (Annex), Summer Hill and Martin Luther King Jr.

In August 2010 Richmond Public Schools opened its first charter school, Patrick Henry School for Science and Arts (PHSSA). The school offers kindergarten through fifth grade based on parent, educator and community involvement. The school provides the children of Richmond's diverse community with an academically rigorous science- and arts-based curriculum that emphasizes environmental awareness and social responsibility.

In December 2018, Richmond Public Schools broke ground on three new 21st century public schools with 21st century technology, education and safety amenities: a new Henry L. Marsh Elementary School (replacing George Mason Elementary School), a new Cardinal Elementary School (replacing E.S.H. Greene Elementary School) and a new River City Middle School to replace the existing Elkhardt Thompson Middle School.

The new Henry L. Marsh Elementary School will accommodate 750 students while the new Cardinal Elementary School will accommodate 1,000. River City Middle School will accommodate 1,400 students. All three schools are state-of-the-art and designed to include school and community green space, be energy efficient, LEED Silver Certified and feature highly-advanced security systems. These three new schools are expected to be completed and open for students in the 2021 school year.

Facility Maximization:

Richmond Public Schools has moved toward maximizing building capacity and a more cost effective use of its facilities with the closing of twelve school buildings and one annex building over the past fifteen years.

Fiduciary Responsibility (Fiscal Agent) - Regional Schools and Programs

The School Board has a fiduciary responsibility in its capacity as fiscal agent for the Maggie L. Walker Governor's School for Government and International Studies (the Governor's School). The Governor's School operates as an educational consortium and provides specialized and gifted education for students of participating cities and counties from throughout central and southern Virginia. It is governed by a separate board that includes one member from each of the participating localities.

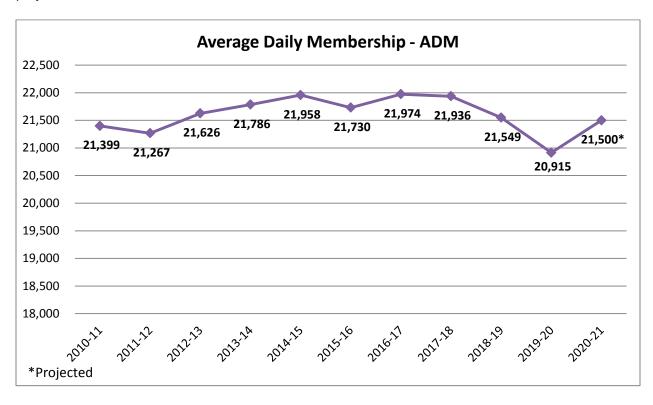

Additionally, RPS serves as fiscal agent for the following schools and programs:

Richmond Detention Center Virginia Treatment Center for Children Hospital Education Program Richmond City Jail Program

Richmond Schools Demographics

Average Daily Membership

March 31 Average Daily Membership, or ADM, is the student enrollment count that drives most state funding for public education. ADM is the total days in membership for all students, grades K through 12, over the school year divided by the number of days school was in session. School divisions receive state funding based on their students' ADM as of March 31st of the fiscal year. The budget is based on a projected FY2021 March 31 student ADM of 21,500.

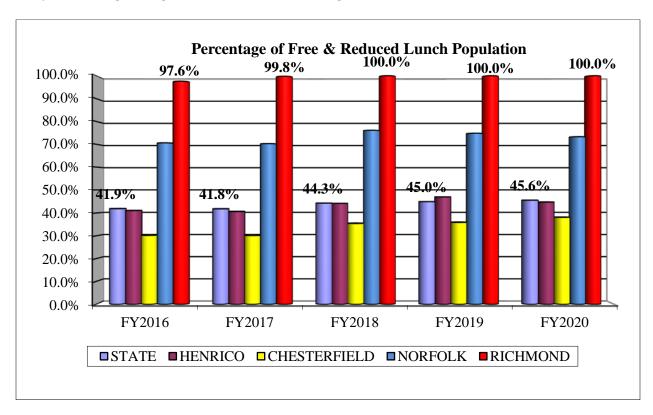

An additional measure of student population is fall membership. Fall membership reflects the number of students enrolled in Richmond Public Schools on September 30th. Data are collected by school and reported by grade assignment and ethnicity. Excluded from the September 30 count are special education preschool pupils, pupils in hospitals, clinics or detention homes, and local programs such as vocational and alternative education centers (i.e., centers or schools which receive, but do not officially enroll students). September 2020 membership is projected to be 25,200 with approximately 1,660 Pre-K students and 2,000 Virtual students.

Free and Reduced Lunch Population

Free and reduced lunch population is a measure of poverty. As reflected in the Department of Education's October 31, 2019 report, RPS is one of five school divisions in the Commonwealth operating under the USDA Community Eligibility Provision (CEP) with 22,086 or 100% of our students receiving free meals under the Federal school lunch program. The graph shown below depicts Richmond's status as compared to neighboring districts and the state average.

Office of School Nutrition Program

Free and Reduced Eligibility Reports FY2016 - FY2020

RPS applied and received approval to operate a (CEP) program effective July 1, 2014 whereby all students can eat breakfast and lunch for free. This works well in districts with significant poverty. RPS no longer captures free or reduced eligibility information from students.

Fund Structure/Relationship

Richmond Public Schools General Operating Fund

Special Revenue Fund

Capital Projects Fund

Richmond Public Schools has three basic fund groups; General Operating Fund, Special Revenue Fund and Capital Projects Fund.

General Operating Fund

The main fund is the General Operating Fund which encompasses 82% of the district's financial resources. Expenditures in the general operating fund include salaries and wages, materials and supplies, utility costs, janitorial supplies, contracted services, and capital outlay expenditures. The majority of the revenue supporting the general operating budget comes from two sources – the City of Richmond and the Virginia Department of Education, 54.6% and 44.7%, respectively. The remaining 0.7% is generated through tuition, other fees, Impact Aid, Army reserve and use of fund balance.

Special Revenue Fund

The Special Revenue Fund is used to account for the proceeds of special revenue sources (other than special assessments, expendable trusts, or major capital projects) that are legally restricted to expenditure for specified purposes. Richmond Public Schools receives program revenue from local, state, and federal entities with the single largest award being Title I followed by Head Start and Title VI-IDEA.

School Nutrition Services provides breakfast, lunch and snacks on a daily basis to all students within the division. Over 93% of the revenues supporting this program are derived from federal sources, including federal reimbursements for National School Lunch breakfast and lunch programs. The remaining revenues supporting Nutrition Services are garnered from state sources and through sales to adults and catering services. Effective July 1, 2014, all students are entitled to eat free breakfast and lunch under the Community Eligibility Program (CEP).

Capital Projects Fund

The Capital Projects Fund supports infrastructure maintenance, such as roofs, boilers, and electrical upgrades, and Americans with Disabilities Act (ADA) remediation projects. Capital projects are funded through appropriation ordinance by the City of Richmond. In conjunction with the City, the district develops a five-year capital plan to address the most critical needs facing our facilities. The plan is reviewed and updated annually taking into consideration any mechanical or system failures that seem imminent. Along with on-going infrastructure maintenance, the district completed projects which have made all City schools ADA accessible.

Budget Process

The School Board's mission, vision, and goals statements provide the foundation for the recommendations contained within this Annual Financial Plan. Staff members at all management levels participate in the development of the budget. The budget is developed from guidance on priorities and strategic directions of the School Board. The budget is an evolving document that is revised and updated during each budget phase. The School Board holds numerous work sessions and at least one public hearing throughout the budget process. Richmond Public Schools has three budget phases in the development process:

Phase I – Superintendent's Estimate of Needs is the beginning phase of budget development used to gather input from parents, business leaders, and other community stakeholders. This phase represents the superintendent's presentation of the needs of the school division for the upcoming school year to the School Board in January (*Code of Virginia* § 22.1-92).

Phase II – School Board's Approved Budget is the School Board's recommended spending plan submitted to the Mayor, the City Administration, and the City Council. This phase consists of numerous work sessions and at least one public hearing to ensure input from all interested stakeholders. The budget is approved in February so it can be incorporated into the Mayor's financial plan for submission to City Council in March.

Phase III – *School Board's Adopted Budget* represents the School Board's adopted budget based on state funding levels and the appropriation ordinance adopted by City Council. The Mayor's recommendation is forwarded to the Richmond City Council, which must adopt the schools' appropriation by legal ordinance on or before May 15th of each year. Subsequent to the City Council's action, the School Board makes any required adjustments to balance the budget which is adopted in June.

Fiscally Dependent School Division

Richmond Public Schools is a fiscally dependent school division pursuant to State law. As a fiscally dependent school division, Richmond Public Schools does not levy taxes or issue debt. The School Board derives its authority as a political subdivision of the State and has the constitutional responsibility to provide public education to the residents of Richmond.

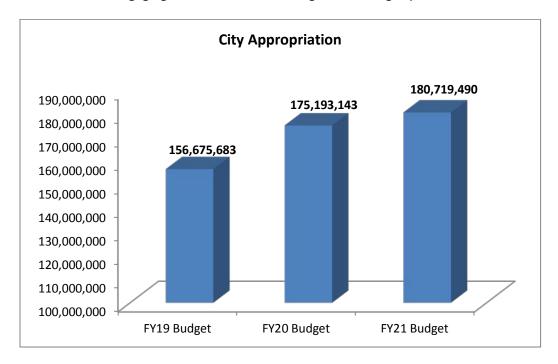

Revenue Highlights

Local Revenue

Richmond Public Schools' budget reflects an appropriation from the City of Richmond in the amount of \$180.7 million representing an increase of \$5.5 million over FY20. The City of Richmond provides 54.6% of the revenue for our operating budget. The City's allocation provides funding to support the required local match for Standards of Quality (SOQ), and other state revenue streams, as well as programs and services not included in the SOQ funding formula. The City of Richmond funds the school division in excess of the minimum amounts designated by the SOQ in order to provide students with relevant, engaging, and innovative teaching and learning experiences.

State Revenue

The SOQ is established in the Virginia Constitution as the minimum educational program school divisions must provide. The specific requirements of the SOQ are set out in the Code of Virginia and the appropriation act, and include requirements for programs and staffing. State funding must be matched by the locality. Localities may spend more than the required amounts and offer programs and employ staff beyond what is required. Each SOQ account is funded by a per pupil cost calculated for each division and distributed on March 31 ADM.

Fiscal Year 2021 marks the first year of the state's biennial budget. The General Assembly's adopted budget reflects routine re-benchmarking of costs associated with the Standards of Quality. Included in these adjustments is a recalculation of the Local Composite Index (LCI) for all localities in the Commonwealth. The LCI is comprised of three indicators of ability-to-pay for each locality: true value of real property, adjusted gross income, and taxable retail sales. The composite index determines each division's state and local shares of SOQ costs.

Richmond's LCI has decreased from 0.4925 in FY2018-2020, to .4688 in FY2020-2022 a change of -4.8%. The decrease in LCI combined with maximizing all state revenue streams, will net the school division \$13.6 million in additional state funds over FY20.

Other Revenue

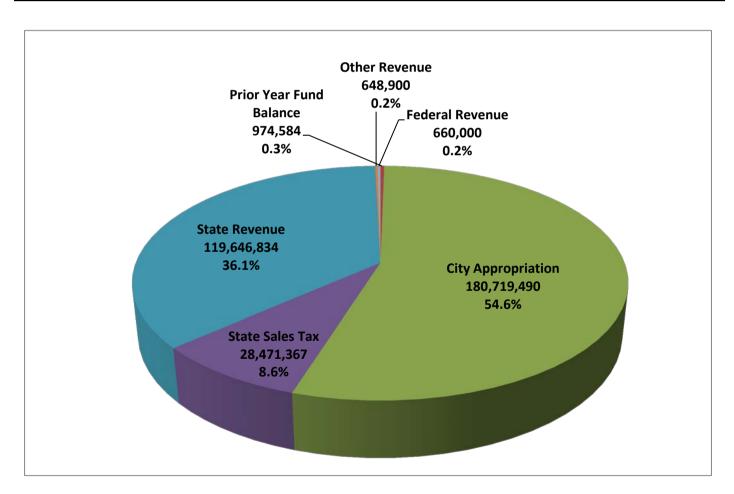

Other revenue that supports our operating budget includes items such as building rentals, fines and fees and indirect cost recovery. These revenues total \$648,900 or 0.2% of the operating budget (net of any local increase). This funding category is projected to decrease \$219,596 for FY21 primarily due to the loss of the operating expense recovery payment from the Math Science Innovation Center, the Textbook Buyback Program, Building Rental Fees and a reduction in Sale of Surplus Property.

Federal Revenue

Federal funding that remains in the general operating budget consists of Impact Aid and Army JROTC programs. These resources total \$660,000 or 0.2% of the operating budget. An increase of \$30,000 is projected for FY21 primarily related to Army Reserve.

Budget Highlights

Expenditure Summary

Each school year holds the promise of greater opportunity and success for our students as we continue the important work of creating a climate of high expectations and achievement within our schools. We are honored to serve the youth and families of the City of Richmond and remain committed to providing our students the best possible educational experience.

Educating our students is a partnership. It is a collaborative effort of our parents, teachers and staff as well as our community and business partners. Within our classrooms future leaders are being developed to compete in a dynamic, global environment. We must continue to provide opportunities for our students to develop 21st century skills and support the development of their critical-thinking. Our work continues to be focused on creating problem-solvers, not test takers. While the individual progress of our students may be mired by personal or societal challenges, our focus remains on meeting them where they are and working to catapult them into futures filled with promise and boundless opportunity. We are grateful for the continued support of every stakeholder in helping to create a stronger, better school system. Every Richmond City resident has a stake in the success of our school district. Investment in our schools is greatly valued and, most assuredly, will return the highest dividend for our community.

The FY21 financial plan includes a budget increase of \$19.7M, or 6.4%. The financial plan commits resources to implement a step increase for eligible employees on the teacher, principal and nurse pay scales, and a 2% salary adjustment for all eligible employees. This financial plan also covers projected increases in health insurance costs. Additionally, the plan provides resources for the continued implementation of our strategic plan, Dreams4RPS. The following pages outline budgetary changes from FY20 to FY21.

Elementary education is crucial because it is where we build for every child a strong foundation for further education. Every child must learn how to read with comprehension, write coherently and expressively, compute and solve problems, respect cultural diversity, and basically learn how to learn! The staff needed to drive and facilitate this effort includes teachers, instructional aides, guidance counselors, principals, media specialists, arts and humanities teachers, and many others seeking to boost student performance through a wide array of innovative and focused instructional programs.

Five regional preschool centers are managed by the Chief Academic Officer – Academic Services (Area 4).

SECONDARY EDUCATION

Secondary Education responsibilities include seven middle schools, five comprehensive high schools, three specialty high schools (including a middle school component), two vocational schools, two alternative schools, two regional Governor's schools, and one regional program. This area provides direction in the implementation of a cohesive secondary education program.

The middle school program responds to the unique needs and characteristics of pre- and early adolescent students. The program model is comprised of a curriculum that consists of factual information, skills development, and activities designed to help students understand and cope with the phases of development they are experiencing at the time. In addition, the middle school embraces an instructional delivery system that emphasizes interdisciplinary team teaching, mini school academies within each school, and flexible scheduling. Students in grades 6, 7 & 8 are currently being educated in one of seven middle schools located throughout the City of Richmond. Of the seven middle schools, three are located south of the James River and four are located north of the James.

North of the James South of the James

Albert Hill Binford Boushall Brown Martin Luther King, Jr. Henderson River City

The middle school is often referred to as "The Crucial Link," as it must bridge the gap between the elementary years and, at the same time, prepare students for further education. Special emphasis is needed on mastering the basics, with academic intervention where needed, advanced course work for gifted students, socialization, and appropriate preparation for high school. In addition, effective staff and administrators drive the curriculum. Significant emphasis will continue to be placed on the integration of technology in teaching and learning. Other programs being implemented are Violence Prevention, School-To-Work, Peer Mediation & Conflict Resolution, increasing Honors programs for gifted education, Extended Day, Business Partnerships, Mentoring and Tutoring. In addition, the International Baccalaureate Middle Years Programme at Brown Middle School provides an academically-challenging course of study for qualified students, city wide.

The curriculum is comprised of two phases of organized knowledge:

Core: Language Arts, Mathematics, Science & History/Social Science

Expanded Core: Art, Music, World Languages, Health & Physical Education, Home and Family Living, Computer-Based Education, Vocational Education (Business/Marketing, Teen Living and Technology Education).

The high school program, often referred to as the "Gateway to the Future", too often is the last opportunity for many students to participate in a formal educational setting. Therefore, it is incumbent upon us to provide students with the training, knowledge and skills to move into the future. In addition to attending one of the five comprehensive or three specialty high schools, rising eighth grade students can apply to either the Maggie Walker Governor's School, the Appomattox Regional Governor's School, or CodeRVA Regional High School. Richmond Public Schools also offers adult, vocational and alternative education programs at Richmond Alternative School (formerly Adult Career Development Center (ACDC)) and Richmond Technical Center North & South. Interested students may participate, with other students from the Richmond Region, in Saturday and summer programs at the Math Science Innovation Center.

SECONDARY EDUCATION

The high schools include:

| Comprehensive | Specialty High | Vocational | Alternative |
|---------------------|----------------------------------|-------------|---------------------------------|
| High Schools | Schools | Schools | Schools |
| Armstrong | Franklin Military | RTC – North | Richmond Alternative School |
| Huguenot | (with a Middle School Component) | RTC – South | Appomattox Governor's School |

The high school program promotes excellence by providing a comprehensive, attractive and challenging instructional program, which stresses the utilization of information and the development of competencies and skills. Upon completion, students are prepared to enter the work force and become productive citizens, and/or continue their education. The high schools also embrace an instructional delivery system that emphasizes interdisciplinary team teaching, cooperative learning, flexible block scheduling/seven period/eight period day, occupational preparation, work-study and vocational and technical training.

The curriculum is comprised of two phases of organized knowledge:

Core: Communicative Arts, Mathematics, Science & History/Social Science

Electives: Technology, World Languages, Fine Arts, Vocational Programs, and Physical Education

The current emphasis is reaching academic achievement in all areas, placing and integrating appropriate technology in the high schools and into the curriculum. In addition, the high schools continue to emphasize Peer Mediation, Violence Prevention, and Conflict Resolution. Other programs being provided are Business Partnerships, Mentoring, Tutoring, and Extended-Day opportunities. To continue to provide the needed and appropriate experiences for high school-age students, a well-prepared and sensitive staff and administrators are needed. Additionally, the International Baccalaureate Middle Years Programme and Diploma Programme are offered for ninth and tenth graders and eleventh and twelfth graders, respectively, at Thomas Jefferson High School. These programs serve students, city-wide, who meet the entrance requirements.

It is the mission of the Richmond Technical Center (RTC) to prepare students for marketable skills for employment and career development through effective programs; to initiate liaison activities with business and industry, federal and state governments and to develop resources for the school division.

Richmond Alternative School

Richmond Alternative School is a secondary school for select students in grades 6-12. Students enrolled have experienced ongoing or significant behavioral challenges in comprehensive settings and require intense social skill development via individual behavioral support plans. The goal of Richmond Alternative is to enhance students' pro-social skills and increase their academic achievement so that they can successfully return students to their comprehensive schools.

SECONDARY EDUCATION

Richmond Alternative also serves as / will serve as the school of record for students enrolled in Aspire Academy and the new middle school over-age program.

Aspire Academy

Aspire Academy is alternative program, which opened in September 2015, provides select over-age, under-credited high school students the opportunity to obtain a high school diploma via a modified school schedule and blended learning model. Aspire Academy is currently housed in the Richmond Technical Center (RTC).

It is the goal of the division to ensure that each student with a disability has the opportunity to acquire the knowledge, skills, and competencies consistent with his/her potential to achieve. The Office of Exceptional Education employs professionals that serve as a resource to schools and stakeholders in order to consult on matters exclusive to the needs of students with disabilities to improve their academic and/or social/emotional outcomes. CHIEF ACADEMIC OFFICER

are provided in the following areas: disability specific programming, inclusion, transition, psychological and social work services, assistive technology, and related services.

Psychological Services

School psychologists provide a range of services to assist children and adolescents in their learning, growth and development by providing supportive services to help students meet academic and emotional challenges. Psychological Services consist of direct and indirect interventions that require involvement with the entire educational system, including students, teachers, counselors, administrators, other school personnel, families, community agencies, and a variety of others that may be important on an individual basis. School psychologists tailor their services to the particular needs of each child/adolescent and each situation. Some of the core services of a school psychologist include: consultation, assessment, intervention, counseling, education and prevention.

School psychologists are unique in the educational setting because their training equips them to provide psychological evaluation and facilitate mental health service delivery in the schools, while at the same time supporting the learning process, child development and the understanding of educational systems. School psychologists serve as a vital part of the Exceptional Education and Student Services team and work closely in conjunction with school counselors, teachers, and administrators in the delivery of services to address the educational, emotional, and social and career needs of students and families.

The primary intent of the provision of psychological services is to promote mental and physical wellness and facilitate learning of students. School psychologists are in a strong position to help support the attainment of the goals outlined in the Strategic Plan. The overall goal of the psychological services program is to increase student capacity to overcome academic, personal, and social problems that could hinder their attainment of educational success and a satisfying and productive life.

Moreover, Pupil Placement Services endeavors to ensure students are enrolled in school, in the appropriate program, as quickly as possible for increased student achievement.

Homebound / Home-Based Services

There are three designations that are used

Homebased instruction is provided for students who have a 504 plan or an IEP program. CHIEF ENGAGEMENT OFFICER

Chief Engagement Officer

The Chief Engagement Officer is dedicated to creating and supporting partnerships among schools, families, and communities. The Office of Engagement (OOE) promotes welcoming environments in RPS, builds capacity for authentic engagement and supports effective partnerships among students, families, schools and the community to ensure student readiness and achievement from birth to graduation.

OOE partners with families, students, staff and the community to deliver programs and initiatives designed to build and support capacity for authentic engagement. Further, the OOE develops, promotes and assists in the coordination of collaborative efforts between schools and the business, faith, civic and nonprofit communities.

The office is comprised of several departments including McKinney-Vento Regional Homeless Education, Language Support, the Welcome Center, Parent Liaisons and Business/Nonprofit/Faith/Volunteer partnerships. The Office is designed to support schools and encourage family and community involvement through training, outreach, community collaboration, education and awareness to improve student achievement.

Research indicates that student academic performance is significantly enhanced by strengthening the connectedness between families, communities and schools. To that end, Chief Engagement Officer has developed significant partnerships with the major family-serving agencies in the City of Richmond including the Department of Social Services, Richmond Re-development & Housing Authority, Richmond Police Department, Richmond Behavioral Health Authority and a host of other services as staff work collaboratively to comprehensively address the needs and enhance success of families. Additionally, the Welcome Center, housed in a city facility, provides services to foster ease of access and connectedness between city agencies to support non-English speaking families to include registration, parent education and advocacy.

The Office of Engagement supports families by engaging, assessing and connecting families to school and community-based services with a goal of increasing engagement in schools and overall academic success. Staff works with families in a variety of locations including schools, homes, hotels and shelters as needed where they conduct informational parent workshops to support learning and strengthen capacity.

SCHOOL BOARD

Areas of responsibility under the School Board include: Office of the Clerk, and Internal Audit. The Code of Virginia, Title 22.1-28 vests the authority for the supervision of the school district in the School Board. The powers of the Board are delineated in the Code of Virginia, the Charter of the City of Richmond, and regulations promulgated by the State Board of Education. The School Board of Richmond City Public Schools sets policies and goals for educating the students within the system. The Board usually meets twice a month and holds special meetings and hearings as needed during the year to ensure accomplishment of its objectives and priorities. Board meetings and work sessions are held on the first and third Monday of the month at 6:00 pm in various school locations and/or in City Hall. Meetings are open to the public and all stakeholders are encouraged to attend.

The mission of the Richmond School Board is to provide our students with high quality educational experiences so that our public schools are the choice of all Richmonders; to ensure that parents, families, and the community-at-large are involved in the activities of students; to ensure that students:

- master the essential skills of reading, writing, mathematics, and reasoning
- grow creatively, culturally and physically in order to become life-long learners; and
- learn to appreciate cultural diversity, become responsible citizens, and lead productive lives

Internal Audit performs independent and objective assessments of departments and programs within the district at appropriate intervals to assist management in meeting their objectives and improve the district's operations. Internal Audit evaluates the adequacy and effectiveness of risk management, internal controls, and governance processes. This office is also responsible for fifty-three annual student activity fund audits including monitoring the automated accounting system for student activity funds. Audit also assists departments and schools in resolving procedural problems. In addition, Internal Audit provides audit assistance to the external auditors for the School Board's annual audit, making recommendations for improved operations.

SYSTEM-WIDE EXPENDITURES

System-Wide Expenditures includes Tuition & Transfers, Retirement & Benefits, Utilities and the Strategic Plan. These functions encompass items such as transfers to other funds, tuition payments for students attending regional programs, funding for the early retirement program and utility payments.

Tuition & Transfers consists of "operating transfers out" and "tuition" paid to regional programs. Operating transfers to other funds are the general fund contribution to support the many diversified programs and operations such as: Head Start, Adult Basic Education, Early Intervention Reading Initiative, Dual Enrollment and the Patrick Henry Charter School for Science and Arts. Tuition payments support students attending Appomattox Regional Governor's School, Maggie L. Walker Governor's School and CodeRVA Regional High School.

Retirement & Benefits functions as a repository of funds that are expended for the school system's legal obligation toward health care payments for retirees, the early retirement program and the employers match for the deferred annuity plan.

Utilities covers district-wide payments for electricity, water/sewage, natural gas and refuse disposal for RPS operated facilities. Utilities also covers lease payments for facilities services equipment and to pay the City of Richmond for storm water utility.

Strategic Plan initiatives included in the FY21 financial plan are comprised of year three action items of the Dreams4RPS.

| 210 | Early Head Start | Early Head Start is a federally-funded, full-day and full-year, family-centered early care and education program for low-income infants and toddlers. The program provides early, continuous, intensive, and comprehensive child development and family support services. These services include educational, health, nutritional, behavioral, and family services which enhance the physical, social, emotional, and intellectual development of participating children. |
| 211 | Head Start | Head Start is a federally funded program designed to provide an effective and comprehensive child development program to meet the emotional, social, health, nutritional and psychological needs of low income pre-school children and their families. The family, which is a principal influence on the child's development, must be a direct participant in the program. Research has shown that it is possible to strengthen the ability of a disadvantaged child so that they may be able to cope with school, as well as their total environment. |

The City continues to emphasize the importance of addressing its infrastructure needs while also investing in economic development projects and improvements that will make a return on investment to the City's coffers. The City uses the Capital Improvement Program (CIP) to strategically invest in and develop capital projects. A project that is included in the City's capital budget is broadly defined as requiring the expenditure of public funds, for the purchase, construction, enhancement or replacement of physical infrastructure/assets.

To be included in the CIP, the project should cost more than \$25,000 and must have an expected useful life greater than the life-span of any debt used to fund the project. Projects include construction and major renovations of buildings; economic development activities; acquisition of property; repairs and improvements to roadways, bikeways, and sidewalks; and the efficient operation of the water, sewage and gas systems. Other costs associated with the capital budget include, but are not limited to, architectural and engineering fees and site development.

Capital Projects Fund, from the school division's perspective, supports infrastructure maintenance, such as roofs, boilers, and electrical upgrades. Capital projects are funded through appropriation ordinance by the City of Richmond. In conjunction with the City, the district develops a five-year capital plan to address the most critical needs facing our facilities. The plan is reviewed and updated annually taking into consideration any mechanical or system failures that seem imminent.

SCHOOL MAINTENANCE

The Capital Improvement Plan, for years 2021 through 2025, is used to identify, plan and fund the major building systems, infrastructure and site feature replacements to ensure a safe, reliable and sound instructional environment for the students, faculty and administration of Richmond Public Schools.

The basis of this plan is determined by the life expectancy of major building systems (i.e. HVAC, Plumbing, etc.) as determined by the American Society of Heating, Refrigeration and Air-conditioning Engineers (ASHRAE) and recent surveys of problematic systems and or components where recurring maintenance and/or repairs are no longer economically feasible. As a large majority of the base building systems and infrastructure have past or are fast approaching the end of their useful life, this plan attempts to address the problematic systems and/or site features that could have detrimental effects on the life safety, continuous operation and instructional environment of the School Division. For systems not identified that have exceeded their useful life, preventive and predictive maintenance measures/practices (i.e. PM services, rebuilds, infra-red surveys, etc.) will be increased through our general maintenance budget to extend their useful life.

The basis for estimates are derived from contractor's estimates and cost with projects of similar type/scope and RSMeans, a leading provider of construction information, products and services. An escalation factor has been factored in for subsequent years. This plan reflects the true needs and the estimated cost for the division for

each project. As it is nearly impossible to accurately predict when systems or infrastructure failure will occur, the plan is subject to revisions.

SCHOOL PLANNING & CONSTRUCTION

On February 12, 2018, the City of Richmond passed a 1.5% meals tax to support construction and renovation of school buildings. The meals tax will generate \$150M over five years to support Phase I of the Capital Improvement Plan adopted by the School Board. Phase I of the CIP includes three new 21st century public schools with 21st century technology, education and safety amenities: a new Henry L. Marsh Elementary School (formerly, George Mason Elementary School), a new Cardinal Elementary School (formerly, E.S.H. Greene Elementary School) and a new River City Middle School to replace the existing Elkhardt Thompson Middle School.

The new Henry L. Marsh Elementary School will accommodate 750 students while the new Cardinal Elementary School will accommodate 1,000. The new River City Middle School will accommodate 1,400 students. All three schools are state-of-the-art and designed to include school and community green space, be energy efficient, LEED Silver Certified and feature highly-advanced security systems. These three new schools are expected to be completed and open for students in the 2020-21 school year.

RICHMOND PUBLIC SCHOOLS FY2020-2021 BUDGET K-3 STAFFING STANDARDS

Additional staffing considerations to qualify for state funding:

The State established the long-term goal of reducing pupil-teacher ratio and class size for K-3 in those schools with high or moderate concentration of at-risk students. Class size funding under this initiative varies with the concentration of at-risk students as determined by the percentage of free lunch eligibility. The table below shows a listing of elementary schools, their free lunch eligibility, the required pupil teacher ratio and the maximum allowable class size.

Schools Allocations

To provide equitable distribution of funding to all schools, allocations for non-personnel services (NPS) are based on September membership as reported to the Virginia Department of Education (VDOE). Schools receive \$110 for every child counted in the September membership. Recognizing that exceptional education students' needs go beyond those of students enrolled in the regular curriculum, schools receive an additional \$110 for every exceptional education student.

Annual budget allotments are based on September pupil counts and by employing site-based management, schools distribute dollars to various expenditure lines such as: instructional supplies, field trips, printing, staff development and equipment. Principals and their staff work collaboratively to determine the best use of resources for the upcoming school year.

Funding for utilities, building maintenance, janitorial supplies, and repair and maintenance supplies are handled by the Department of Facilities Services. Purchasing oversees expenditures for postage meters, and Technology Services manages system-wide telephone needs including copier leases, technology equipment, service, and repairs.

Oversight of staff development funding is provided by the office of Professional Development. In the fall funds are disseminated by the Chief Academic Officer. The allocation covers the cost of staff development activities in which schools and departments participate. Each school and department is required to submit a "Staff Development Plan" to ensure funding is being used to meet the goals and objectives of the Richmond Public Schools.

ARTICLE II

POLICY 3-2.1 ANNUAL OPERATING BUDGET

Generally

The annual school budget shall be viewed as a guide to discretionary spending. Such budget shall be an estimate of receipts and expenditures of the school division and shall contain a description of the educational program to be provided.

The School Board has final authority in determining what is included and what is excluded in the annual budget; however, the School Board is advised by the division superintendent or his/her designee of the financial needs of the school division to achieve the programs approved by the School Board.

In order for the annual budget to have the fullest support of the staff, School Board members and stakeholders, it is imperative that a transparent procedure be established which will share the budget making process with all stakeholders.

Fiscal Year

The fiscal year is defined as beginning on the first day of July and ending on the thirtieth day of the following June.

Drafting of the Budget

Calendar

The School Board and administration highly value community and stakeholder input throughout the budget drafting process. To this end, the public will be notified of all methods through which it may provide input regarding the budget drafting process.

The division superintendent or his/her designee shall prepare a budget calendar identifying all deadlines for the annual budget making process, which shall be published on the division website. The calendar shall include work sessions for reviewing the budget and at least one public hearing on the budget. The final public hearing shall be held at least seven days prior to the approval of the budget. Notice of the time and place for the public hearing must be published, at least ten (10) days in advance, in a newspaper having general circulation within the school division.

Classification of Expenditures

The budget shall include the following major classification of expenditures:

- 1. Instruction;
- 2. Administration, attendance and health;
- 3. Pupil transportation;
- 4. Operation and maintenance;
- 5. School food service and other non-instructional operations;

RICHMOND PUBLIC SCHOOLS BUDGET POLICY FY2020-2021 BUDGET

- 6. Facilities;
- 7. Debt and fund transfers;
- 8. Contingency reserves; and
- 9. Technology

The School Board may require further detail within the above listed classification of expenditures.

Presentation to School Board

The division superintendent's budget, including the estimated required local match, for the following school year shall be presented to the School Board by the second scheduled meeting in January, or as otherwise required by law.

Publication of the Budget

Upon approval of the annual budget by the appropriating body, the school division shall publish the approved budget in line item form, including the estimated required local match, on the School Board website. Additionally, hard copies of the budget shall be made available to the public upon request.

Monthly Report of Expenditures to the School Board

The adoption of the capital and operating budgets by the School Board carries with it the authority of the administration to make such expenditures within the limits of the budget.

The division superintendent or his/her designee shall render each month to the School Board a statement of the funds in his or her hands available for school purposes and the status of each budget item.

Annual Report of Expenditures to the Richmond City Council

At least annually, the School Board shall submit to the Richmond City Council a report of its expenditures. Such report shall also be made available to the public either on the school division website or in hard copy at the central school division office. This report shall take the form of a template prescribed by the Virginia Board of Education.

Budget Transfers

The division superintendent's approval is required for all budget transfers. The School Board approval is required on any request for budget transfers in excess of \$10,000. All budget transfers, including transfers for less than \$10,000, shall be presented to the School Board or a committee thereof. Capital Improvement Program: Overview and Funding Sources

BACKGROUND

The City continues to emphasize the importance of addressing its infrastructure needs while also investing in neighborhood projects and improvements. The City uses the Capital Improvement Program (CIP) to invest in and develop capital projects strategically. A project that is included in the City's capital budget is broadly defined as requiring the expenditure of public funds for the purchase, construction, enhancement, or replacement of physical infrastructure/assets.

To be included in the CIP, the project should cost more than \$25,000 and must have an expected useful life greater than the life-span of any debt used to fund the project. Projects include improvements to roadways, sidewalks, and bikeways; improvements to neighborhood parks, libraries and recreational facilities; construction and major renovations of schools and other city facilities; economic development activities; acquisition of property; and the efficient operation of the water, sewage and gas systems. Other costs associated with the capital budget include, but are not limited to, architectural and engineering fees and site development.

The City, in line with the practices of a well-managed government and city charter requirements, uses a long range planning process to develop a five-year CIP. Each capital project included in the five-year program has been recommended (and approved upon adoption) for additional or new funding in the first fiscal year of the plan and/or included as a planned project in the subsequent four fiscal years. Because of the multi-year nature of the CIP, it is a "living" document that outlines the project's past and future. For example, as a project is developed, the amount and timing of expenditures may allow budget appropriations to be moved out in the CIP or require that the appropriations be accelerated and the budget size increased or decreased. Therefore, detailed analysis is conducted each year to ensure that the appropriate levels of spending and types of spending by project are understood and captured in the CIP.

GUIDING PRINCIPLES

For the CIP included in this budget, the City employed the fundamentals of outcome-based budgeting in evaluating and recommending projects and funding. These basic principles include:

- Begin the process with departments closing and/or updating prior year capital projects and identifying new capital or funding needs;
- Identification and development of other capital needs based on citizen, legislative, and administrative priorities and regional issues;
- Recommend a CIP that completes existing projects and appropriately funds new projects or costs within available funding levels;
- Continuation of fiscal processes to require that pay-as-you go revenues or other bond facilities are budgeted in a manner that maximizes their use first;
- Assure management of assets in keeping with best practices while preserving the existing tax base; and
- Position the City for the future through good financial stewardship and by outlining a realistic CIP plan within existing resources.

To guide the CIP decision-making process, projects, both new and existing, were evaluated on the degree to which they meet the following objectives or criteria:

Capital Improvement Program: Overview and Funding Sources

- Address health concerns, safety or emergency needs;
- Ensure basic infrastructure is maintained and improved so that the useful life is maximized;
- Meet a legal or contractual obligation or federal or state mandate;
- Leverage outside funding including federal, state, regional or private funding;
- Result in unacceptable outcomes if the project is deferred;
- Enjoy broad community support; and
- Support the priority initiatives included in one or more of the City's seven focus areas.

SUMMARY OF CIP FUNDING AND MAJOR CIP PROJECTS

The Proposed General Fund CIP totals \$530.1 million for FY2021-2025. Of that amount, \$84.1 million is included in Fiscal Year 2021.

The Mayor's top priorities of schools and roads are proposed to receive 85.2% of the proposed funding. Funding for school modernization and new construction is recommended at \$217.2 million. Transportation infrastructure is funded at \$234.4 million. This includes proposed funding for paving at \$115.3 million; major bridge improvements at \$16.3 million; improvements to major thoroughfares such as Hull Street and the Broad Street interchange with I-95 proposed at \$34.5 million. Projects to provide for vibrant, inclusive, and mobile communities include culture and recreation projects, which consist of major upgrades to community centers, major parks, and libraries and are proposed to be funded at \$24.1 million. Funds are also provided in Economic Development to address Housing Initiatives and riverfront access at \$1.7 million. Public safety projects, including the replacement of Fire Station 12, architectural and engineering funding for Police to replace the First Precinct in the East End are funded at \$18.3 million. City Equipment and Other Investments are funded with \$25.4 million, and City Facilities are funded with \$9.1 million.

DEBT MANAGEMENT POLICIES

A key component of the CIP is the availability of debt capacity to finance CIP projects. A review of the City's debt management policies resulted in a request to City Council to revise the policy. These policies and guidelines establish parameters for the planning, issuance, and management of debt. The following summarizes the revisions to the policies recently adopted:

- The amount of tax supported debt service will not exceed ten percent (10%) of the total budgeted expenditures for the General Fund and Richmond Public Schools plus the non-local portion of the recurring special funds for Street Maintenance.
- The City will not incur tax supported general obligation debt in excess of three and three quarter percent (3.75%) of its total taxable assessed values;
- Tax supported general obligation debt will be structured in a manner such that not less than 60% of the outstanding debt will be retired in 10 years;
- The City will issue debt with an average life that is consistent with the useful life of the project with a maximum maturity of 30 years; and,
- The City will strive to provide cash funding for a portion of the five-year CIP.

As part of the debt management policy update, several changes have been incorporated into the CIP's debt management strategy. These strategies are in keeping with other well-managed governments within the Commonwealth, particularly those rated Triple-A by the three rating agencies.

Capital Improvement Program: Overview and Funding Sources

The Adopted debt utilized in funding the FY2021-FY2025 Capital Improvement Program is within each of the limitations described above.

FUNDING THE CAPITAL IMPROVEMENT PROGRAM

Bonds (Debt) - The City's debt is defined by the sources of repayment, general fund supported debt service and non-general fund supported debt. General fund supported debt is pledged to be repaid from tax revenue and is referred to as general obligation or G.O. bonds. Other self-supported debt, which is typically issued for utilities and communications projects, is intended to be repaid from revenue derived from other sources, such as fees or user charges.

Special Revenue Funds - These are direct cash contribution to specific CIP projects directly related to the special fund.

Bon Secours Cash Funding - This is a cash contribution from Bon Secours Health System resulting from an agreement between Bon Secours and the City relating to the Redskins Training Camp.

Transportation Alternative Funds - These are federal funds allocated on a competitive basis by the Commonwealth for projects related to pedestrian, bike, trails, historical and scenic improvements to the transportation network. Funding requires a local 20% match.

Congestion Mitigation and Air Quality Improvement Program (CMAQ) - These are federal grant program for transportation projects with an aim to improve air quality passed through the State to the municipality via a statutory formula based on population and air quality classification as designated by the Environmental Protection Agency (EPA). These funds are budgeted to specific projects through the federally-mandated regional Metropolitan Planning Organization or MPO.

Pay-As-You-Go-Funds (Cash) - This is revenue allocated as a direct cash contribution.

Other Funding Sources - Prior Appropriations - These dollars represent debt appropriations formerly allocated to other Capital Projects that have either been (1) completed under budget, or (2) discontinued.

OPERATING IMPACT OF MAJOR CIP PROJECTS

The Departments are requested to assess the impact new projects may have on future operating costs. Not all projects have quantifiable measurements even if greater efficiency or effectiveness is the expected result. Also, some projects may be undertaken due to the need for enhanced health and/or safety factors. The operating costs of a project, and any savings resulting from the project, are captured in the Operating Budget. The City carefully considers all potential operating impacts before including a project in the five-year plan. These considerations are also included in the City's five-year forecast.

⁴ Projected revenue estimate. Semi-monthly payments will be based on actual sales tax receipts. Pursuant to the Appropriation Act, the Basic Aid state payment calculation is based on the appropriated sales tax distribution only and is not adjusted for actual sales tax revenues received.

⁵ The amendments adopted at the 2020 Reconvened Session of the General Assembly to the 2020-2022 biennial budget assign the entire funding for Textbooks to the SOQ area.

Required Local Effort for Textbooks is based on the payments in the SOQ area.

⁶ VRS Retirement includes payments for the Retiree Health Care Credit (RHCC). Please see the Budget Variables tab for the funded RHCC rate.

⁷ Projected state payment. Final payments will be based on actual expenditures, up to the projected state payment, subject to the availability of funds.

⁸ Includes state funding for regional vocational, special, and alternative education programs and Academic Year Governor's Schools.

⁹ Payments for Remedial Summer School are based on projected FY 2021 and FY 2022 enrollment used in the amendments adopted at the 2020 Reconvened Session of the General Assembly to the 2020-2022 biennial budget

¹⁰ Payments for the VPSA Technology Grants are made from bond proceeds on a reimbursement basis and may begin following each bond issuance. These payments include funding for the school division and the regional programs for which the division serves as the fiscal agent.

Payments for the Virginia Preschool Initiative are based on projected formula-driven FY 2021 and FY 2022 student slots used in the amendments adopted at the 2020 Reconvened Session of the General Assembly to the 2020-2022 biennial budget.

Payments for English as a Second Language are based on projected FY 2021 and FY 2022 enrollment used in the amendments adopted at the 2020 Reconvened Session of the General Assembly to the 2020-2022 biennial budget.

The proposed per pupil funding amount for the Infrastructure and Operations Per Pupil Fund Payment is projected at \$375.27 for FY 2021 and \$378.52 for FY 2022.

Divisions will be paid up to their calculated entitlement based on actual March 31 ADM, pending sufficient appropriation. The per pupil amount is adjusted for the local composite index.

Estimates in this file will not change when local ADM projections are selected.

⁼ SOQ accounts requiring a local match for purpose of meeting Required Local Effort.

It is based on a linear weighted average of the 2020-2022 non-professional rates charged to each school division by VRS. The non-professional VRS rate includes a \$1.50 Retiree Health Care Credit pursuant to the passage of House Bill 1513 of the 2020 General Assembly. Please note that the non-professional VRS rate charged to divisions by VRS differs for each division and is not based on the state funded rate.

REVENUE DESCRIPTIONS

PRIOR YEAR FUND BALANCE: Balance of funds not expended in the prior fiscal year.

LOCAL CITY FUNDS

CITY APPROPRIATION: Amount of funds appropriated by City Council from City revenues.

STATE FUNDS - SOQ PROGRAMS

BASIC AID: Basic state aid funds are provided for basic operational costs which cover the cost per pupil, including providing for the number of instructional positions required by the Standards of Quality (SOQ). The minimum ratio is 51 professional personnel to 1,000 pupils. The funds cover the cost for the following educational programs: regular day school, gifted, vocational, special, library, driver's education, and teacher sick leave. These funds also cover general administration division superintendent's salary, free textbooks, school nurses, operation and maintenance, transportation, staff development, remedial work, fixed charges and other charges. Basic aid funds are distributed based upon ability to pay local share of state-wide per pupil amount. FORMULA: PER PUPIL AMOUNT x ADJUSTED ADM - STATE SALES TAX x STATE SHARE COMPOSITE INDEX

EMPLOYEE BENEFITS: The State reimburses RPS a percentage of benefit costs (VRS retirement, group life, and social security) based on the state share of employer contributions for funded SOQ instructional and professional positions. FORMULA: PER PUPIL AMOUNT x ADJUSTED ADM x STATE SHARE COMPOSITE INDEX

ENGLISH AS A SECOND LANGUAGE: State funds are provided to support local school divisions providing the necessary education services to children not having English as their primary language. Funding supports the salaries and benefits of instructional positions at a standard of 20 positions per 1,000 ESL students.

GIFTED EDUCATION: Funds are distributed to the locality to support the state share of one full-time equivalent instructional position per 1,000 students in adjusted ADM.

PREVENTION, INTERVENTION, & REMEDATION: SOQ Prevention, Intervention, and Remediation funding provides remedial services to children who need additional instruction. Funding is disbursed to local school divisions to support the state share of additional professional instructional positions ranging from a pupil teacher ratio of 10:1 to 18:1 based on the division-level failure rate on the SOL English and math tests for all students at risk of educational failure (the three-year average free lunch eligibility data is used as a proxy for at risk students).

SALES TAX: A portion of net revenue from the state sales and use tax dedicated to public education is distributed to counties, cities, and towns in support of the Standards of Quality. The distributions are based on each locality's pro-rata share of school age population as based on the estimate of school-age population as provided by the Weldon Cooper Center for Public Service at the University of Virginia.

SPECIAL EDUCATION: Funding for special education provides for the state share of salary costs of instructional positions generated based on the staffing standards for special education. Each special education student is counted in their respective school and up to three disabilities per student may be recognized for calculating instructional positions for funding.

TEXTBOOKS: State law requires that students attending public schools receive free textbooks. State funding is provided on a per pupil basis based on the funded per pupil amount for textbooks.

REVENUE DESCRIPTIONS

VOCATIONAL EDUCATION: State funds are provided to support career and technical education courses for students in grades 6-12. The funding supports the salary cost of instructional positions based on the class size maximums established by the Board of Education.

REMEDIAL SUMMER SCHOOL: Remedial Summer School programs provide additional education opportunities for at-risk students. These funds are available to school divisions for the operation of programs designed to remediate students who are required to attend such programs during a summer school session, or during an intersession in the case of year-round schools.

STATE FUNDS – INCENTIVE PROGRAMS

COMPENSATION SUPPLEMENT: Compensation supplement funding covers the state share of cost (including fringe benefits) for a percentage-based salary increase for funded SOQ instructional and support positions.

EARLY READING SPECIALISTS INITIATIVE: These funds are designated to provide one early reading specialist position for all third-grade classes in schools that had a pass rate of less than 75 percent in the prior year Standards of Leaning reading test. School divisions that are affected will have to match the funding of the additional positions based on their composite index of local ability to pay. The Governor's introduced budget would allow these funds to be used for tuition for current instructional personnel to earn licensure as a reading specialist.

GOVERNOR'S SCHOOLS: These programs give gifted and talented high school students an opportunity to study with fellow students of similar interest and abilities from across the Commonwealth. The schools offer specialized curriculum offerings. State funds are provided to assist with the state share of the incremental costs of operations during the school year. These funds are not to be used for capital outlay, structural improvements, renovations, or fixed equipment costs. Funds may be used for the purchase of instructional equipment.

MATH/READING INSTRUCTIONAL SPECIALISTS: The Math/Reading Specialist Initiative assigns eligibility based upon the schools that rank lowest on the Spring SOL math or reading assessment. The state share of funding for a reading or math specialist is available to eligible schools for both years of the biennium. DOE may award any unallocated funds from this initiative to schools eligible for funding under the Early Reading Specialists Initiative. This action distributes state funds to school divisions in a different manner in the 2018-2020 biennium than in fiscal year 2018, but total state funding for the program remains constant.

SPECIAL EDUCATION-REGIONAL TUITION: Regional tuition reimbursement funding provides for students with low-incidence disabilities who can be served more appropriately and less expensively in a regional program than in more restrictive settings. A joint or a single school division operates regional special education programs. These programs accept eligible children with disabilities from other local school divisions. All reimbursement is in lieu of the per pupil basic operation cost and other state aid otherwise available.

VIRGINIA PRESCHOOL INITIATIVE PLUS (VPI +): These funds are used to sustain approximately 1,530 student slots of high quality preschool for at risk four year olds within the 13 divisions that participate in the federally-funded Preschool Development Grant program known as Virginia Preschool Initiative Plus. These school divisions shall be responsible for ensuring that all such slots meet expectations set forth in the Department of Education's November 2018 Plan to Ensure High-Quality Instruction in All Virginia Preschool Initiative Classrooms.

REVENUE DESCRIPTIONS

VIRGINIA PRESCHOOL INITIATIVE: The Virginia Preschool Initiative provides funding for programs for un-served, at-risk four-year-old children, which include quality preschool education, health services, social services, parental involvement, and pupil transportation. Programs must provide full-day or half-day and, at least, school-year services. Educational services may be delivered by both public and private providers.

EARLY CHILDHOO ED4: Early Childhood ED4 program includes: Mixed-Delivery Add-on Grant; Increase Staffing Ratios and Class Sizes; Reallocate Slots-Eliminate Wait List; VPI Pilot for At Risk 3 Year Olds; Expand mixed delivery to include At Risk 3 Year Olds.

GAMES OF SKILL: The Governor's introduced budget provides state funding of \$50.0 million in fiscal year 2021, or the state share of \$71.29 per pupil, and \$75.0 million in fiscal year 2022, or the state share of \$106.55 per pupil for the Games of Skill Per Pupil Amount. School divisions are permitted to spend these funds on both recurring and non-recurring expenditures. These funds do not require a local match.

SCHOOL SECURITY EQUPMENT GRANTS: This is a school security equipment grants program to help offset the local costs associated with the purchase of appropriate security equipment that will improve and help ensure the safety of students attending public schools in Virginia. The grant awards will be based on a competitive grant basis of up to \$250,000 per school division. School divisions will be permitted to apply annually for grant funding. For purposes of this program, eligible schools shall include schools that are subject to state accreditation and reporting membership in grades K through 12 as of September 30, 2020, for the fiscal year 2021 issuance, and September 30, 2021, for the fiscal year 2022 issuance, as well as regional vocational centers, special education centers, alternative education centers, regular school year Governor's Schools, and the Virginia School for the Deaf and the Blind.

VPSA TECHNOLOGY: VPSA Technology program provides grant funding for school divisions to purchase additional technology to support the SOL Technology Initiative. Eligible schools include those reporting membership as of September 30th and are subject to state accreditation requirements, as well as regional centers including vocational centers, special education centers, alternative education centers, academic year Governor's Schools, Code RVA and the School for the Deaf and the Blind. Funding is also included for the Virginia e-Learning Backpack Initiative to purchase laptop or tablet computers for ninth grade students in high schools that are not fully accredited for two consecutive years. High schools that qualify for these grants will be eligible to receive these grants for a period of up to four years. Note: Beginning with the Spring 2015 grants, eligible schools include only those not fully accredited for the second consecutive year. In addition, for schools that do not have grades 10, 11, or 12, the grants may transition with the students to the primary receiving school for all years subsequent to grade 9. Schools are eligible to receive these grants for a period of up to four years and shall not be eligible to receive a separate award in the future once the original award period has concluded.

STATE FUNDS – CATEGORICAL PROGRAMS

ADULT EDUCATION: State funds are provided to improve educational opportunities for adults and to encourage the establishment of adult education programs that will enable all adults to acquire basic educational skills necessary to function in a literate society. The program also enables adults to complete secondary school, obtain a GED, or to benefit from job training and retraining programs.

SCHOOL LUNCH: School divisions participating in the National School Lunch Program get cash subsidies and donated commodities from the U.S. Department of Agriculture for each meal they served. The lunches must meet Federal requirements, and they must offer free or reduced-price lunches to eligible children. This state

REVENUE DESCRIPTIONS

reimbursement program is required by the federal National Nutrition School Lunch Program, the School Breakfast Program, and the After School Snack Program.

SPECIAL EDUCATION – **HOMEBOUND**: Homebound funding provides for the continuation of educational services for students who are temporarily confined to their homes for medical reasons. State funds reimburse school divisions for a portion of the hourly rate paid to teachers employed to provide homebound instruction to eligible children.

SPECIAL EDUCATION – JAILS: Local school divisions are reimbursed for the instructional costs of providing special education and related services to children with disabilities in regional or local jails.

SPECIAL EDUCATION – STATE-OPERATED PROGRAMS: Education services are continued for students placed in state-operated facilities. State statute requires the state to provide appropriate education to all children in state hospitals, clinics, detention homes, and the Woodrow Wilson Rehabilitation Center. Education services are provided through contracted services with local school divisions. Funded positions are based on caseloads. A funding amount per position (to cover both personal and non-personal costs) is applied to each position to determine the total amount of funding for each division that provides education services in state operated programs.

STATE FUNDS – LOTTERY FUNDED PROGRAMS

ALTERNATIVE EDUCATION: State funds for Alternative Education programs are provided for the purpose of educating certain expelled students and, as appropriate, students who received long-term suspensions from public schools.

AT-RISK: State payments for at-risk students are disbursed to school divisions based on the estimated number of federal free lunch participants in each division to support programs for students who are educationally at-risk. Funding is provided as a percentage add-on to Basic Aid to support the additional costs of educating at-risk students.

CAREER AND TECHNICAL EDUCATION:

Adult Education — funds provide adult education for persons who have academic or economic disadvantages, and who have limited English-speaking abilities. These funds pay for full-time and part-time teacher salaries and supplements to existing teacher salaries.

Equipment – career and technical allocations for equipment are used in the following areas: Agricultural Education; Business and Information Technology; Career Connections; Family and Consumer Sciences; Health and Medical Science Education; Marketing; Technology Education; and Trade and Industrial Education.

Occupation Prep – funds are used to provide a portion of the salary of principals and assistant principals of divisional vocational technical centers and assistant principals at regional vocational centers, which are not required in the Standards, and therefore, not funded through Basic Aid. These funds also pay a portion of the cost of extended contracts for vocational teachers.

REVENUE DESCRIPTIONS

EARLY READING INTERVENTION: The Early Reading Intervention program is designed to reduce the number of students needing remedial reading services. Program funds are used by local school divisions for: special reading teachers; trained aides; volunteer tutors under the supervision of a certified teacher; computer-based reading tutorial programs; aides to instruct in class groups while the teacher provides direct instruction to the students who need extra assistance; or extended instructional time in the school day or year for these students.

FOSTER CARE: Foster care funding provides reimbursement to localities for educating students in foster care that are not residents of their school district. State funds are provided for prior year local operations costs for each pupil not a resident of the school division providing his education if the student has been placed in foster care or other custodial care within the geographical boundaries of such school division by a Virginia agency, whether state or local, which is authorized under the laws of the Commonwealth to place children. Funds also cover children who have been placed in an orphanage or children's home which exercises legal guardianship rights, or who is a resident of Virginia and has been placed, not solely for school purposes, in a child-caring institution or group home. Funds are also provided to support handicapped children attending public school who have been placed in foster care or other such custodial care across jurisdictional lines.

ISAEP: An Individual Student Alternative Education Plan (ISAEP) may be developed when a student demonstrates substantial need for an alternative program, meets enrollment criteria, and demonstrates an ability to benefit from the program. The need is determined by a student's risk of dropping-out of school.

K-3 PRIMARY CLASS SIZE REDUCTION: State funding is disbursed to school divisions as an incentive payment for reducing class sizes in grades kindergarten through three below the required SOQ standard of a 24:1 pupil-teacher ratio. Payments are based on the incremental cost of providing the lower ratios and class sizes based on the lower of the statewide average per pupil cost of all divisions or the actual division per pupil cost. Schools with free lunch eligibility percentages of 30 percent and greater are eligible for funding. The required ratios range from 19:1 and may go as low as 14:1 based on the free lunch eligibility rate of the eligible school. Eligible school list and funding are based fall membership enrollment.

| Percentage of Students | Grades K-3 | Individual |
|------------------------------|--------------|------------|
| Approved Eligible Free Lunch | School Ratio | Class Size |
| Up to 30% | 24 to 1 | 29 |
| 30% but less than 45% | 19 to 1 | 24 |
| 45% but less than 55% | 18 to 1 | 23 |
| 55% but less than 65% | 17 to 1 | 22 |
| 65% but less than 70% | 16 to 1 | 21 |
| 70% but less than 75% | 15 to 1 | 20 |
| 75% or more | 14 to 1 | 19 |

MENTOR TEACHER PROGRAM: Funds are allocated to provide grants to school divisions providing mentors for new teachers with zero years of teaching experience.

PROJECT GRADUATION: The purpose of Project Graduation is to provide funding for school divisions to assist high school students to pass end-of-course Standards of Learning assessments in English/Reading, English/Writing, Algebra I, Geometry, Algebra II, science, and/or history, in order to complete their diploma requirements.

REVENUE DESCRIPTIONS

SCHOOL BREAKFAST PROGRAM: Local school food authorities administer the School Breakfast Program at the local level. Participating schools must serve breakfasts that meet federal nutrition standards, and must provide free and reduced-price breakfasts to eligible children. This funding provides an incentive to increase student participation in the school breakfast program and to leverage increased federal funding resulting from higher participation.
