

PARENT ENGAGEMENT AT GORDON

At a Glance

Gordon's calendar is packed with events that connect families with one another, and keep the conversation between the school and parents lively and relevant. Learn about just a few of our deeply engaging offerings for parents and caregivers below. You can find out more by visiting our Parent Resources page [here](#).

PARENTS OF STUDENTS OF COLOR (POSOC)

POSOC seeks to promote an atmosphere of academic achievement, mutual respect, acceptance, and empowerment while building a greater sense of community for our students of color within the full spectrum of the life and activities at the Gordon School.

RAINBOW FAMILY ALLIANCE

The Rainbow Family Alliance is the informal network of Gordon families who are part of the lesbian, gay, bisexual, transgender, queer, questioning and intersex communities.

ANTIRACISM WORKING GROUP FOR WHITE PARENTS

This group was founded by Gordon parents who wanted to actively support the anti-bias and multicultural education Gordon offers students by providing opportunities for white parents to examine their own racial identities and privilege, to uncover and challenge their own biases, and to develop anti-racism parenting skills.

GORDON COMMUNITY ASSOCIATION (GCA)

The GCA supports the mission of Gordon. It builds community among students and their families, faculty, administrators, and staff through creative fundraising, educational and social activities.

COFFEES WITH CLAIRE

Coffees with Claire will happen throughout the year over Zoom, with Claire Phipps, Gordon's Chief Advancement and Experience Officer, leading a conversation with various members of the Gordon community.

AGES AND STAGES

Ages and Stages is a series of informal meetings for each grade level. The school psychologist and the division director lead a discussion of the developmental stages that children experience at each grade level. This is one more opportunity to strengthen your connection with the division directors and with the families of your child's peers.
