Beyond the Class Requirements

- International Baccalaureate – (IB) Grades 11 & 12
- Advanced Placement – (AP) – not limited to but typically taken in grades 11 and 12
- Dual Enrollment – University of the Sciences. Grades 11 and 12

Beyond the Class Requirements

Make your electives work for you -

- ◆ Choose elective classes in unknown areas of potential interest. Explore.
- ◆ Expand your knowledge in known interest areas. Electives can help you demonstrate particular interests/specialties, as well as commitment to an academic discipline.

The Transcript: How to Read It? What does it mean?

- ◆ As a freshman, you need to lay a good foundation
- ◆ GPA is weighted and shows on the transcript-weight for Honors, AP and IB classes
- ◆ GPA is based on a 5.0 scale
- ◆ Computed at the end of each year
- ◆ Only final grades are reported!
- ◆ We do NOT rank

Try out new things and clubs of interest or students can start their own club!

Getting involved gives students a chance to practice responsibility, leadership, communication and time management.

- ◆ Students learn to interact with others.
- ◆ It's an avenue for exploring career interests.
- ◆ It demonstrates maturity and willingness to be involved.
- ◆ It's FUN!

Employers and colleges are seeking students who can manage their time and balance academics and activities.

Make Your Summers Count

- ◆ Apply for a job
- ◆ Volunteer
- ◆ Join a team
- ◆ Look for service projects/opportunities
- ◆ Take classes
- ◆ Attend summer programs at a college

Use summer to explore new interests or expand existing ones. Summer is the perfect time to show involvement and contribution because students have more time.
