

## From the Nurse

Greetings King Students and Families! As our school year is coming to a close, I just wanted to thank all the families for your patience and understanding during this unprecedented school year! You have helped us tremendously in trying to keep all of our students and families safe. We don't have any information yet on what guidelines, if any, the health department will have for schools next year. A couple of student medication reminders for the end of this year and the beginning of next year:

- If your student has medications in the health office this year, you will be receiving information soon on the pickup process for those medications. We are not allowed to send the medications home with students.
- We need new medication orders every school year in order to keep your child's medication at the school.
- Please do not send any medications with active ingredients to the school with your child without a doctor's order. (This includes cough drops)
- All of the necessary medication order forms can be found on the district website at <https://www.wsd3.org/departments/health-services>

As always, if you have any questions, please feel free to reach out to me.

Warm Regards,  
Janine Kappelmann BSN, RN
