

Position Title:	Assistant Athletic Trainer
Position Status:	Full-time
FSLA Classification:	Exempt
Reports to:	Athletic Director and Head Athletic Trainer

Position Purpose:

The Head Athletic Trainer will provide "Athletic Training Services"* to students under the direction of the team physician or by written referral from a physician, and in accordance with state athletic training practice act. The Team Orthopedic Physicians will sign yearly standing orders and act in a supervisory capacity.

Essential Functions:

- Assists the Head Athletic Trainer with providing care, evaluations, and treatment of athletic injuries for MS/HS students.
- Provides athletic training services for all home athletic contests and away varsity football games.
- Travels when necessary to away contests.
- Acts as liaison between the SCH medical team, faculty/staff, athletes and their parents.
- Maintains accurate records of injuries, treatments and provides incident forms for sports injuries treated by a physician.
- Assists with developing and maintaining a budget for the athletic training program.
- Provides the coaches and athletic director with a list of athletes medically eligible to compete.
- Assists with the supervision (preceptor) of graduate intern athletic trainers.
- Works in conjunction with the strength and conditioning staff to ensure safety in the design and implementation of fitness and conditioning programs customized to meet individual student-athlete needs.
- Assists with scheduling and coordinate athletic training staff and students for athletic training services of all team practices and athletic competitions.
- Maintains up to date knowledge and mandatory CEU's yearly.
- Maintains preceptor certification (Temple/Jefferson University).
- Represents the school and Athletic Department with professionalism and empathy.
- Other duties as assigned by the Athletic Director and the Head Athletic Trainer.

Qualifications:

- Master's degree in a health-related field preferred.
- Minimum of one to five years of experience is preferred.
- Certificate/License: Must be BOC certified and possess licensure, certification and registration from the state of PA.
- CPR/First Aid certification.
- Sports performance experience.
- Demonstrates sensitivity, knowledge, and understanding of the diverse backgrounds of community members with a continuous focus on healthy relationship building.
- Demonstrates deep understanding of cultural competency skills and enthusiasm for issues of diversity, inclusivity, and multiculturalism.
- Exceptional interpersonal and communication skills.
- Proven ability to collaborate, effectively communicate, and work independently.
- Outstanding patient service.
- Mobility, strength, visual and auditory acuity adequate for immediate response to athletes' needs.
- Driver's license, insurance, and ability to drive a school vehicle.

Physical Requirements and Work Environment:

- Possible lifting, bending, walking, kneeling, stretching, and stooping.
- Requires eye-hand coordination and manual dexterity to allow for small procedures such as suture or staple removal. Requires adequate hearing and eyesight to allow for patient interaction and transfer of patient information from the patient to pen chart.
- Ability to handle high amounts of stress.

Application Procedures:

Interested candidates, please email a cover letter, resume and contact information for three professional references to careers@sch.org.

Springside Chestnut Hill Academy is an Equal Opportunity Employer.

****Athletic Training Services:***

The management and provision of care of injuries to a physically active person as defined in the state practice act with the direction of a licensed physician. The term includes the rendering of emergency care, development of injury prevention programs and providing appropriate preventative devices for the physically active person. The term also includes the assessment, management, treatment, rehabilitation and recondition of the physically active person whose conditions are within the professional preparation and education of a certified athletic trainer. The term also includes the use of modalities such as mechanical stimulation, heat, cold, light, air, water, electricity, sound, massage and the use of therapeutic exercises, reconditioning exercise and fitness programs.
