We will be exploring the process of CREATING 3D objects using Autodesk Tinkercad(online) and PRINTING using LotMaxx 3D printers. We will discuss the process of 3D printing and the physical makeup of the printer. We will create something from nothing and discuss the endless possibilities of 3D printing. All students will have at least one 3D printed object at the end of the course. We will try to always have at least one object printing on each of the 3 printers during the 2-hour course. But the most important thing we will have is fun.
