

Community Council Agenda

- 1) Approve meeting minutes from last meeting
- 2) Discuss enrollment numbers from initial fall enrollment to current enrollment.
- 3) Would love to hear a little feedback from teachers and principal regarding the transition to in-classroom and how that is going.
- 4) Through Art Night, Halloween parades, Lipsync, Science Night and other activities Dilworth has historically been a gathering place that unites the community. We have more kids than ever right now that live in our neighborhood but attend other schools. Are there activities or projects we should pursue to bring the community back to Dilworth? I do not have the answer but would love people to think about it.
- 5) We might not have time for this but I think it would be valuable to review the budget for the year and see if expenses are under budget or over budget. As part of that topic, what will happen to funding for Art and Music if we do not have Art Night this year?
