Join our year-round programs for an unforgettable experience!

Who We Are

JIS Academy (JA) was established with the aim of offering quality, high-interest academic, fitness, creative and sports activities beyond the normal Jakarta Intercultural School curriculum in order to better serve both students and adults. These activities are run by both expatriate and local instructors and coaches who have specialized knowledge in their field and, therefore, carry a separate fee per program.

During the academic year, the majority of our activities are open to only the JIS community due to limited space. The JIS Academy Summer Program, however, is equally open to JIS Dragons and non-members of the JIS community. Many of the activities featured in our summer

program are inspired by Indonesia's rich cultural heritage, enriching our beautiful campus while also sharing the diversity of our school with all JIS Academy participants. We hope that this also creates an environment that fosters new understandings and new relationships for you and your children.

Purpose

- To provide fun-filled, engaging after-school activities beyond those provided by the JIS curriculum.
- To stimulate life-long learning through a wide selection of high-interest programs for children of all ages and interests, as well as adults.
- To promote social interaction, confidence, life skills, teamwork, strategic thinking, and fun.

Our Vision

JIS Academy is committed to providing opportunities for children of all ages aimed at helping them discover their talents, nurture curiosity, and pursue their passions, led by the [mission, vision, and core values of JIS](#).

Our Values

We value exploration, enthusiasm, creativity, perseverance, personal growth, and fun. JIS Academy has evolved into an important management tool that has integrated fee-based after-school activities into the [mission, vision, and core values of JIS](#).
