Grade	PK	K	1st	2nd	3rd	4th	5th	6th
Home Schoolers		2	4	5	3	2	3	2

Recent or pending celebrations, achievements and accomplishments for staff and students-

- **Counting on Grace** - The fourth grade didn't let a pandemic get in the way of their annual performance of Counting on Grace. Their production was filmed by CATV, but not in front of a live studio audience! Please enjoy this recording of the show, [Counting on Grace](#).

- **Parent/Teacher Conferences** - This week teachers are gearing up for parent teacher conferences. Even though Friday is the designated day for conferences, many teachers are accommodating to families and willing to have conferences before and after school. All conferences are being held using the Zoom platform.

- **MTSS (Multi-tiered Systems of Support)** - Patrick Gordon is leading the MTSS charge at MCS. Patrick has organized a team of staff members and is working with consultants from the Agency of Education to lead a self-assessment survey that will allow our staff to identify needs and next steps. As we progress, more information will be shared.

- **Danielson Rubrics and PD** - Allison Litten is working with the Vermont NEA to bring a training to MCS teachers that will connect our work with equity and the supervision and evaluation rubrics. Being mindful of the stress level in our building, we are planning a few sessions this school year to jump start work that will continue next school year.

- **Spirit Week** - Prior to vacation, the PBIS committee organized a spirit week that spread cheer throughout our school. The week came with a door decorating contest, dress like a superhero day, hat day, and a day where we all dressed in our favorite MCS gear!
- **Thank you** - On behalf of the MCS staff, I would like to thank school board members for helping to build, support, and promote a school budget that will give MCS students what they need to be successful.

Respectfully submitted,
Shawn Gonyaw
