

Help Wanted: Fire Alarm Test and Inspection (Summer help)

Company: Esscoe, LLC – Privately owned fire alarm and security systems integrator

Start Date: ASAP – Summer 2021

Description: The position entails being part of a two-person team conducting fire alarm inspections throughout the Chicagoland area. The candidate would be responsible for operating the main fire alarm panel during the inspection and relaying incoming information to the lead inspector. We will train for this position while on-site as each fire panel is slightly different in its operation.

Requirements and Additional Information:

- Starting time is generally between 6 – 8am (most days will require an 8-hour shift) - 2nd shift opportunities available for part of the summer
- Flexible work schedule with up to 32 hours available most weeks
- 17+ years of age with a reliable vehicle
- Company pays for parking costs as needed – company does not pay travel costs or travel time to 1st location or home from last location of the day

Pay rate: \$17/hour
