

### **Agriscience-Samantha Camacho**

I am glad that Samantha Camacho has decided to take two of my agricultural classes this year. I remember her taking my Explore Class as an 8th grader and was happy for the opportunity to teach her again. Samantha is an insightful student who works diligently in class. In my vet science class, she was active in the labs and turned in high quality work. We just started greenhouse class, but I look forward to her maturity and work ethic to be a positive piece in the greenhouse team. I am also happy that Samantha joined the FFA group last week with Roadside Cleanup, seeing young people volunteer and do this type of work makes me very happy!

Kealey Zeigweid is The Technology Education Student of the Trimester for the 2nd Tri. Kealey stepped out of her comfort zone and worked in the woods laboratory with her team building planters in the Marketing/Manufacturing Class.

She was always up to the task whatever was being asked of her and was involved in many different parts of the project (including staining my shop tables.) She is very driven and was a very important link in the chain of command communicating what needed to be done, and doing what needed to be done. Kealey has a very positive attitude and is always willing to support her classmates.

**Science- Erik Cruz Sandoval**

Erik was in both semesters of Physical Science in one semester so he was in my classroom a lot, but to be honest, it was truly a joy. Taking two semesters of a class at a time is not an easy task, but Erik took the challenge with stride. He mastered both the content and the skills required in both classes and never hesitated to ask questions or participate to the best of his ability. On top of all that, if there was ever anything Erik didn't get in class, he was the first one to come down to E-Period and get to work. Being a first year Physical Science teacher with a new curriculum, I couldn't have asked for a better student to speed through the entire year's curriculum in only a semester.

*Instructor: Ms. Pape*

**Physical Education-Casidi Pehler**

Casidi did an excellent job both virtually and in-person. When Casidi and the bball team went virtual, Casidi was mature and reliable with her daily workouts from home. In person, Casidi is a leader of the classroom and always leads by example. She gives her full effort everyday and wants to learn and improve within the weight room. Casidi always goes above and beyond which is something to be admired. Thank you Casidi for making all your classes a better learning environment.
