15. Fun facts: The Land of Fire, Azerbaijani people love drinking tea with jam. Nobel Family who funded the Nobel Prize made their money through oil digging and trading in Azerbaijan. Their house-museum is open for visitors and it is also the first house in Azerbaijan that had air conditioning, which came in the form of ice from a glacier in Norway, and telephone line. It is also interesting to know that their oil wealth was a result of having to pivot their business when the Crimean War ended and their original family building went bankrupt.

One of the James Bond's movies "Quantum of Solace" was made in Azerbaijan. When Bond drives through oil rigs and oil derricks. It is knocked down now. Azerbaijanis use crude oil for therapeutic purposes. It is not the same oil you put in your car, but not far from it. Usually it is a 10-minute bath, but too long exposure can kill. Place located in Naftalan. Also locals cover themselves in muds from mud volcanoes, they think it is also good for your health and body. I love my Azerbaijan. People are kind and welcoming. They will invite you home, cook for you and feed you. Never let you leave their house hungry.
