# QATAR

National Foundation Day on  
3rd September 1971

## CLIMATE:

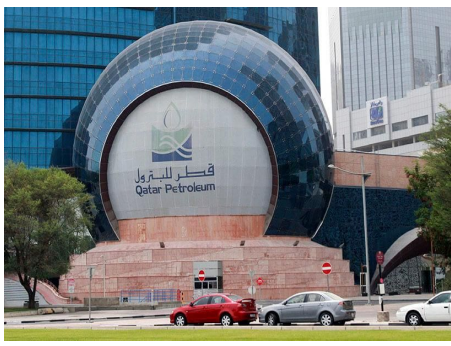

Qatar is located near the equator, it is surrounded by vast deserts, with mild winters and fiery summers. Since it is a small and flat-land country, the climate is rather consistent throughout the year, with an average temperature of 35°C during summers and 25°C during the winters. There is barely any rainfall throughout the year, amounting to less than 4 inches. The summers are also very humid.
