CAMP CLASSES

We offer a variety of camp classes that feature STEAM concepts and encourage career exploration. Campers participate in four classes during camp. The following classes are available this summer:

3D DESIGNERS

Campers learn to solve problems like engineers as they use TinkerCAD software and 3D printers to create name tags, residential floor plans and more. Instructor: Christopher Ruben

ALOHA ADVENTURES

Campers create flower garlands, erupting volcanoes, bottled seascapes and more as they learn about the land, plants and animals of the Hawaiian islands. Instructor: Shirley Chanitz

ANATOMIC ART

Campers use clay to sculpt components of human anatomy as they learn about functions of the digestive, nervous and muscular systems. Instructor: Michaelina Greenawalt

BODIES IN MOTION

Campers conduct experiments, build models, create maps and more as they learn how systems of the body work and combine to keep us in motion. Instructor: Jonelle Kiechel

BUSY BUILDERS

Campers build castles and skyscrapers with everything from marshmallows to paper clips as they explore science and engineering concepts. Instructor: Deb Hamilton

CHEFS IN TRAINING

Campers build confidence in the kitchen as they learn to prepare pizza, calzone, stromboli, panzerotti and other classic Italian-American dishes. Instructor: Brock Cahoon

EPIC ELECTRONICS

Campers develop soldering skills as they create electronic gadgets and gizmos with circuits that control flashing lights, sirens, switches and much more. Instructor: Tom Lesisko

JUST DESSERTS

Campers bake a variety of sweet treats from scratch, including M&M cookie bars, Rice Krispies treats, chocolate chip loaf and cherry cheesecake. Instructor: Lori Dreisbach

KIDSMETOLOGY

Campers explore the science and art concepts that drive cosmetology as they experiment with hair treatments, styling techniques, nail care and more. Instructor: Robert Salim

MACHINE MASTERS

Campers learn to use drill presses, lathes and mills in our state-of-the-art precision machine lab as they transform pieces of metal into keychains and chess pieces. Instructor: Aaron Schock

STRESS BUSTERS

Don't worry, be happy! Campers learn to minimize stress and maximize positivity as they do yoga, create vision boards and express themselves artistically. Instructor: Briann Murray

SUPER SLEUTHS

Campers lift fingerprints, measure blood alcohol content and operate a driving simulator as they learn how forensic science helps investigators solve crime. Instructor: Van Scott

WOODEN WONDERS

Carpentry is a timeless skill and campers learn the basics as they use hand and power tools to build birdhouses, peg games, Soma cubes and more. Instructor: James Geist

YUMOLOGY

Campers learn to make pepperoni pasta bake, chicken enchilada casserole and other savory dishes with international flare that are perfect for any meal. Instructor: Donna Lobach-Berger
