Summer may look different this year, but summer learning isn't canceled. Summer programs are adapting and innovating to ensure children and their families can access quality summer learning opportunities and critical supports and services throughout the COVID-19 pandemic. All kids need to keep learning over the summer. If they don't, they lose what they've learned during the school year, and those losses add up year after year. Summer learning loss is real and this year it's even worse as a result of the school closures. Following are some links with tips to help your child learn during the summer months and send them back ready for the new school year.

Actividad de extracción de arce en el programa MyTime de Freeman.

El verano puede parecer diferente este año, pero el aprendizaje no se toma vacaciones. Los programas de verano se están adaptando e innovando para garantizar que los niños y sus familias puedan acceder a oportunidades de aprendizaje de calidad durante el verano. Todos los niños necesitan seguir aprendiendo durante las vacaciones. Si no lo hacen, pierden lo que han aprendido durante el año escolar, y esas pérdidas se acumulan año tras año. La pérdida de aprendizaje en verano es real y este año es aún peor como consecuencia del cierre de las escuelas. A continuación encontrará algunos enlaces con consejos para ayudar a su hijo a aprender durante los meses de verano y enviarlo listo para el nuevo año escolar.
