

Standards:

1. Student Exposure Definition

15 cumulative minutes of exposure within six (6) feet, over a 24-hour period, to either a symptomatic person with laboratory-confirmed COVID-19 in the period from two (2) days before symptom onset until they meet criteria for discontinuing home isolation; or an asymptomatic person with laboratory-confirmed COVID-19 in the two (2) days before the date of specimen collection until they meet criteria for discontinuing home isolation.

2. Quarantine and testing are not required under the following criteria:

- Fully Vaccinated Person:** ≥ 2 weeks following receipt of the last vaccine dose, ~~≤ 3 months following receipt of the last vaccine dose (vaccination card required as proof)~~ (5/10/2021)
- Previous PCR "Positive Case":** ≤ 3 months since "positive" PCR test result (PCR test record required as proof)
- Exemption requires that person(s) remain asymptomatic since the current COVID-19 exposure**

3. Student Quarantine protocols

- Ten (10) calendar days after date of exposure to laboratory confirmed case, or...
- Ten (10) calendar days after date of test that resulted in positive result
- If student is symptomatic –
 - Remove from classroom and place in isolation room
 - Call parent to collect student
 - Recommend testing
 - District will provide AZOVA rapid test; if family provider tests and parent does not provide result, Standard 3(a) applies
 - If test is positive, Standard 3(b) applies
 - If student fails to test, Standard 3(a) applies
 - If parent provides negative test result for student, then student may return to school any day hence if symptom free as confirmed by parent on Student Symptom Checker
 - Students with non-COVID symptoms may return to school with confirming note from medical provider that previous/on-going symptoms were not related to COVID

4. Staff/Adult Exposure/Quarantine Protocols →

5. Testing

- As of 4/05/2021 district-wide/school-wide testing protocols are still in development
- Generally, if there is confirmed exposure, AZOVA rapid PCR test or family provider test is recommended
 - Please request AZOVA test code from site Principal or Department Manager
 - Quarantine is required as per Standard 3
- If there is no confirmed exposure the LodiUSD will still provide an AZOVA rapid PCR test at no cost to those requesting a test (currently one free test per every two months for no-exposure cases)
- Testing will not be provided to Fully Vaccinated Persons and Previous PCR "Positive Cases" as defined in Standard 2 above
 - Testing is not recommended, as a positive result may occur due to vaccine or previous positive case

6. Social Distancing Definition

a. During non-physical instructional settings (indoor or outdoor)

- Three (3) feet of distance
 - In classroom, as measured back-of-chair to back-of-chair
- Acceptable face coverings at all times unless exempted under the following-
 - Medical provider note

https://resources.finalsite.net/images/v1617984068/lodiusdnet/pcblywgztmovux6rpavc/mask_exemption_medical_20210409.pdf

Pandemic Exposure Return to In-Person Protocols (“IPI”) rev. 5/10/2021

CDC: <https://www.cdc.gov/coronavirus/2019-ncov/community/schools-childcare/student-becomes-sick-diagnosis-flowchart.html>

2. IEP/504 team determination
 (https://resources.finalseite.net/images/v1617986364/lodiusdnet/uv5adm6r8pkb1xsqclw/mask_exemption_form_iep-504_20210409.pdf)
 - iii. Periodic personal hygiene
 - iv. Other PPE as prescribed by the activity
 - v. Activities where face coverings are not possible (e.g.indoors meal periods)–
 1. keep students together in their stable groups, ensure 6 feet of physical distancing as much as possible, hand hygiene before and after eating, and consider assigned seating
 2. Cf. CDPH 3/20/21; <https://www.cdph.ca.gov/Programs/CID/DCDC/Pages/COVID-19/COVID19-K12-Schools-InPerson-Instruction.aspx#Implementing%20Distancing%20Inside%20and%20Outside%20the%20Classroom>
- b. During outdoor physical activities**
- i. Six (6) feet of distance
 - ii. Acceptable face coverings at all times
 1. Please note, CDC does not recommend face shields as efficacy is uncertain
 2. Alternative face coverings require medical provider note
 - iii. Periodic personal hygiene
 - iv. Other PPE as prescribed by the activity
 - v. Activities where face coverings are not possible–
 1. keep students together in their stable groups, hand hygiene before and after activity, and consider assigned seating
 2. Cf. CDPH 3/20/21; <https://www.cdph.ca.gov/Programs/CID/DCDC/Pages/COVID-19/COVID19-K12-Schools-InPerson-Instruction.aspx#Implementing%20Distancing%20Inside%20and%20Outside%20the%20Classroom>

7. Reporting Requirements

- a. Instructional Setting COVID Report (“ISCR”) forms will be required for laboratory confirmed cases only; ISCR in development
- b. Positive cases will also follow AB 685, CalOSHA & SJCPHS, and SB1159 requirements

Activities and Use of Facilities During School Day

1. Play Structures

- a. Play structures may be used under the following guidelines
 - i. Standard 6(b) above for outdoor instruction/activities
 - ii. Hand-washing stations placed in close proximity to structure
 - iii. Students must wash/sanitize hands before and after use of play structure
- b. If an exposure occurs, use of play structure must be delayed until >5 minutes after site custodian has applied Oxivir spray to entirety of structure

2. Music (<https://nafme.org/covid-19/>)

- a. Until further notice all wind, choir, and full/partial band shall occur outside with the following adjustments:
 - i. Bell covers should be used for all woodwinds and brass and should be made with a multi-layer cover with the center layer being made of MERV-13 filter material, or a 3-layer surgical style mask using an ASTM F2100 or GB/T32610 standard.
 - ii. Singers and instrumentalists should wear a well-fitted 3-layer surgical-style mask that meets the ASTM F2100 or GB/T32610 standard to reduce aerosol emission. Instrumental players may have a slit in their mask to allow the insertion of their mouthpiece. The slitted mask does not replace the instrumentalist’s usual mask and is only used when actively playing their instrument.
 - iii. Performing arts activities should happen on a reduced schedule:
 1. Indoors – 30-minute maximum restriction with Medify air filter running with full ionization feature

Pandemic Exposure Return to In-Person Protocols (“IPI”) rev. 5/10/2021

CDPH: <https://www.cdph.ca.gov/Programs/CID/DCDC/Pages/COVID-19/Schools-FAQ.aspx>

CDC: <https://www.cdc.gov/coronavirus/2019-ncov/community/schools-childcare/student-becomes-sick-diagnosis-flowchart.html>

2. Outdoors – 60-minute maximum restriction followed by a five (5) minute break (NEW 3/19/21)
 - iv. Practice good hygiene by washing hands, using sanitizers, and preventing uncontrolled spit valve release.
 - v. Rehearsal space recommendations in order of preference:
 1. Outdoor rehearsals, using individual mitigation techniques described above.
 2. Indoors with elevated outdoor air exchange rate from HVAC.
 3. Indoors with typical outdoor air exchange rate from HVAC plus recirculation air through MERV 13 filters or addition of appropriately sized HEPA air cleaners.
 4. Indoors with outdoor air exchange rate from open windows supplemented with appropriately sized HEPA air cleaners when airflow is reduced under certain outdoor wind conditions.
 - vi. Non-wind instruments may be used indoors under Standard 6(a) above
 - vii. Wind instruments may only be used under Standard 6(b) outdoor instruction/activities protocols
 - viii. **Choir** may only practice under Standard 6(b) outdoor instruction/activities protocols
3. **Water Fountains** may only be used for bottle filling
