***MEF GRANTS***

Motion #6 that, upon the recommendation of the Superintendent, the Board of Education accept monies from the Morris Educational Foundation for the following grants:

<u>Amount</u>	<u>School</u>	<u>Project</u>
\$1,800	MHS	Vocational Work Experiences in the Classroom

A key component of the MSD Transition Skills Program includes Work Based Learning Experiences for our students ages 16-21. Last year, there were 18 students participating in 25 Work Based Learning Experiences in our community. In the past, there have been partnerships with over 28 local businesses to provide these experiences. Due to the current pandemic, our students are not able to go out and work in the community. Vocational Task Boxes can allow students to continue to acquire prerequisite job skills. Twenty-three task boxes will be created and students will be able to work with their job coaches to complete these tasks. These task boxes will continue to be utilized in the Transition Skills Program even after we can return to businesses. Students 14-16 will master the task boxes prior to participating in the Work Based Learning Program which begins after the student's sixteenth birthday. In addition, these boxes will be used by students who are not able to participate in the

community experience. These task boxes will give our students an additional component to master useful vocational skills.

\$6,000	FMS, MHS	Wacom tablets; 6-12 Math Teachers
---------	----------	-----------------------------------

Throughout the course of the pandemic, it has become increasingly clear how often mathematics teachers need to improvise to show a new example, talk through their thinking while writing out work, and annotate different components of an example. Being able to accomplish this task on a laptop vs. a whiteboard has been an ongoing challenge for teachers and students. The Wacom tablets will provide mathematics teachers with the ability to write out mathematical equations, expressions, diagrams, graphs, etc. It will eliminate the struggle of working to do this with a mouse or trackpad and will instead allow teachers to write as they would have done normally on a whiteboard or piece of paper. It will help to increase productivity, clarity, and engagement in mathematics lessons, especially at the highest levels of mathematics. This grant will provide 30 Wacom Intuos Tablets. These tablets will continue to enhance mathematics instruction even after all are back in school.

\$32,000	K-12 schools	Cultural Arts
	MHS - \$5,000	
	FMS - \$4,000	
	AV, AH, HC, NP, SX, TJ, WD - \$3,000	
	LLC - \$2,000	

These grants are for cultural arts programs and Artist-in-Residence experiences.

\$450.00	Sussex	Cultural Arts Mural Project
----------	--------	-----------------------------

Along with the cultural arts grant for an artist-in-residence, an additional grant is being given to cover the cost of all the materials needed to successfully complete the mural that is being designed.

\$73,800.00	K-8 students	Community School Summer Plus or Summer Music Academy
-------------	--------------	---

This grant is being funded by the Presbyterian Church of Morristown. The grant money is to be spent over the next several years until expended, for eligible students to attend Summer Plus (\$1,500.00 per student) and Summer Music Academy (\$500.00 per student). Each K-5 and the middle school's administration and guidance counselors will recommend students and work with families each year to select award recipients. There will be a preference for students and families that are participating in or have participated in the Morris After-school Program (MAP) tutoring program at the Presbyterian Church in Morristown. There is no cap to the number of students who can attend each year.
