

# FAST PM: Screening to Intervention Report

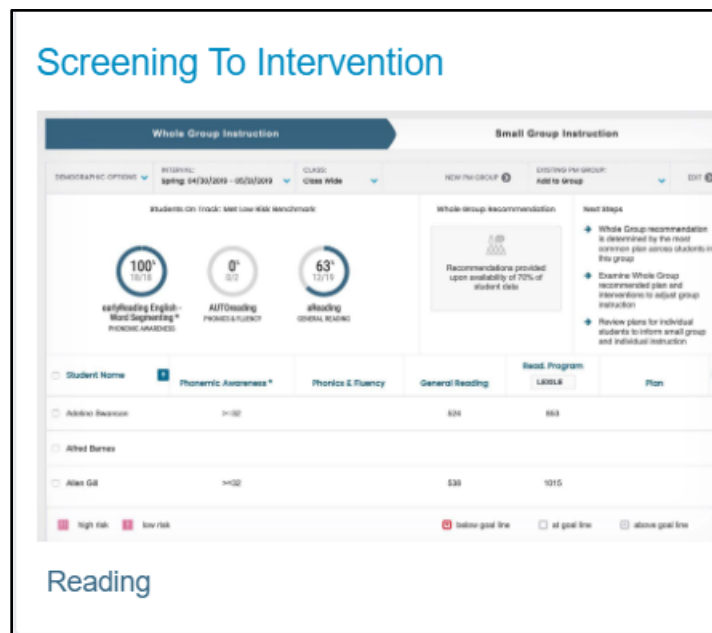

From the Teacher view (for the Specialist view, see below):

After logging in to FAST site:

- Select the “Reporting” tab.

- From all the choices of reports, select the Screening to Intervention Report.

- Select the assessment you want to look at, grade and classroom and which assessment term you want. Click on “Generate Report” at the bottom.

The screenshot shows a form titled "Screening To Intervention" with a close button (X) in the top right corner. The form is divided into three main sections:

- 1. Select Assessment:** A dark blue header with a light gray selection area below it containing the radio button and text "Reading". A red arrow points to this selection.
- 2. Select Grade or Class:** A dark blue header. A red arrow points to this section.
- 3. Select Interval:** A dark blue header with a light gray selection area below it containing three radio buttons labeled "Fall", "Winter", and "Spring". The "Fall" option is selected. A red arrow points to this selection.

At the bottom right of the form are two buttons: a light gray "Cancel" button and a blue "Generate Report" button. A large red arrow points down to the "Generate Report" button.

This report will help answer the following questions: What are instructions needs for the class and small group? Is the class on track by strategy? What are intervention and Progress Monitoring recommendations?

From the *Specialist* permission set, locate the specific teacher/classroom that you wish to view from the “View As” menu shown below. Continue with the process as outlined above.
