

PALS

Individual Student Report

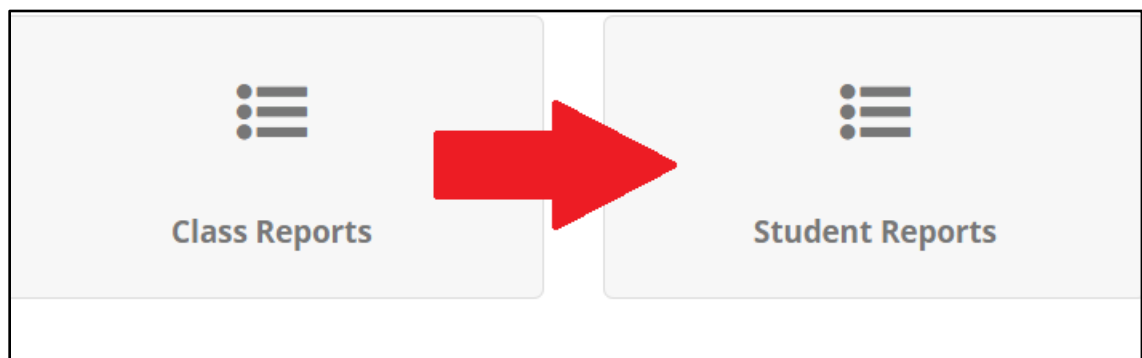

After logging in to the PALS site*:

This report will provide you with an individual student report. This can be printed either individually or as a class (one report after the other). This process also works for PALS Espanol results. Please look at column headers for the correct language.

- On the Teacher Home page, select the “Reports” button.

- Select “Student Reports” from the Report menu.

* Note: the website is palsk8.com

- Select “Student Summary (view all)” to see the entire class, as individual student reports connected “end to end”. Or select “Student Summary” to view individual reports.

The screenshot shows a web interface titled "PALS Student Reports" with a copy icon in the top right corner. Below the title is a list of four report types, each with a "Select Student" dropdown menu to its right. A large red arrow points to the "Student Summary (view all)" option.

PALS Student Reports	
Student Portfolio	Select Student ▼
Student Summary	Select Student ▼
Student Summary (view all)	
Student Summary of Comments/Observations	Select Student ▼

- Student results can also be printed from the “Student Summary (view all)” for sharing with families.
