All grade 1-8 students have access to Math Facts. Math Facts is a game-based program designed to improve fact fluency. It allows students to practice addition, subtraction, multiplication and division while guiding their character through puzzles and battles. Students can switch to Spanish by using the escape key.

Before You Begin

To enable the following features, you must be logged in as the student. During the student session, press ESC to access the options button.

Turn on Friendly Mode

This disables intense effects when students answer incorrectly

1. Select **Options** on pause screen
2. Select box next to **Friendly Mode**
3. Select **Apply Changes**

Turn on Spanish Language Support

1. Select **Options** on pause screen
2. Select **Español**
3. Select **Apply Changes**
