Student Academic Achievement

Student Academic Achievement Summary

Southmost Elementary provides data-driven instruction. Teachers and administration are continuously revisiting the data and determining the areas in need of improvement. Teachers utilize the following data: progress monitoring, student grades, weekly fluency scores, percentages of students on an RTI plan, TPRI/TEJAS LEE beginning, middle, and end of year, end of unit benchmarks, and practice state assessment exams. Each week, both teachers and administrators meet to discuss students' progress, curriculum and instruction, and to prescribe individual intervention plans for students not mastering the TEKS. Interventions are noted through the students Response to Intervention (RTI) plan. To help support the instructional program, State Compensatory Funds support one full time Dean of Instruction whose focus on providing support in curriculum and instruction for At-Risk students.

School Processes & Programs

School Processes & Programs Summary

Staff Quality, Recruitment, and Retention

Southmost Elementary utilizes a hiring committee composed of administrators and teachers to make hiring determinations. A record of interview questions and responses is kept on file for each interviewee. The campus hiring committee recommends highly qualified professionals through the district's hiring criteria. In addition, administrators conduct walk-throughs weekly to observe and assess the quality of teaching in each classroom. Administrators provide constructive feedback timely and all information is posted on Eduphoria in which teachers can access. If needed, administrators meet with teachers to provide further feedback in which goals are set and instructional procedures are discussed. The T-TESS timelines are followed throughout the school year. Teacher T-TESS performance records are kept by the school principal. Administrators also provide observations and evaluations to paraprofessional staff. Novice teachers are provided a grade-level mentor and meet regularly with the dean of instruction for curricular supports. All teachers are provided with ongoing professional development opportunities.

Curriculum, Instruction, and Assessment

Southmost Elementary teachers and administration ensure alignment of curriculum, instruction, and assessments. The faculty follows the district curriculum frameworks and scope/sequence to ensure students are adequately prepared. Teachers utilize the Texas Essential Knowledge and Skill (TEKS) as their guide, and supplement the curriculum with resources aligned to the state guidelines and assessments. Administrators provide teachers with instructional resources and professional development. Planning for instruction and intervention occurs through vertical and horizontal alignment. Collaboration is encouraged so that teachers learn from one another.

At Southmost Elementary School all teachers and instructional paraprofessionals are highly qualified. The campus administration, C&I Specialists and other BISD identities/departments provide PD to support learning in the classroom. Teachers are Bilingual certified, SIOP trained and have the GT Core hours. Every year, teachers are asked to have 6 hours of on-going Bilingual/SIOP and GT training and 12 hours of on-going technology. PreKinder and Kinder teachers are required a minimum of 30 hours of staff development as part of the high-quality Pre-Kinder component. All staff members are also provided with a two-day PD requirements (back to school inservice) with topics that include RtI, 504 and Dyslexia requirements, Employee Code of Ethics, David's Law, Conflict Resolution, SPED updates, and mandatory Emergency Operations Plan. The District RTI Support Team focuses on sustainability of the RTI Process. Southmost administration ensures that high quality instruction is delivered to all students and provides support by making appropriate recommendations for successful implementations of strategies & RTI interventions.

Technology

Technology improves student performance when the application directly supports the curriculum objectives and goals being assessed. Technology is most effective when it is integrated with the core curriculum content. Technology improves student performance when the function supports student ability and prior experience, and provides feedback to the student and teacher about student performance or progress with the application and when the application is incorporated into the instructional day. In addition, the use of technology provides opportunities for students to design and implement projects that extend the core curriculum being assessed by the State of Texas Assessment of Academic Readiness (STAAR). Our campus needs more capital outlay items in order to keep up with the ever expanding educational technology components and in order for our students to reach Masters Performance status. These items include video document cameras, projectors, iPads, iPods, Google Cardboard goggles, and laptops. Our teachers and students are moving to teaching and learning using a variety of technology items alongside learning all of the vocabulary and concepts as required by the Technology TEKS and will need the above resources to do so. In addition, students need to be provided additional learning opportunities to learn rigorous math and science content through the use of computers, software, and websites.

Perceptions

Perceptions Summary

School Culture and Climate

Southmost Elementary faculty and staff collaborate to ensure that students are being provided with a safe, healthy, and disciplined environment conducive to student learning. Administrators and teachers meet on a weekly basis to discuss matters related to providing a positive school culture and climate. All members of the school community are consistently instructed on procedures and operations. A Title I partially funded, full time school nurse is always available to provide and assist medical treatment for students and staff. In addition, the SBDM representatives bring issues and concerns to the monthly meetings. Campus long range plans, policies and procedures, and safety issues are communicated to both parents and community members to assist the campus in providing a positive culture and climate. Parents are strongly encouraged to get involved in volunteering opportunities that will assist their child's education. Issues are reviewed and discussed through consistent dialogue and both administrators and teachers create a plan to improve issues that affect School Culture and Climate. Furthermore, administrators, faculty, and staff consistently provide opportunities for professional collegian interaction to mold professional learning communities, positive working relationships, team building, and motivation.

Family and Community Involvement

Southmost Elementary is committed to involving parents and community members to be involved in our students education. Parental involvement is critical to the success of their child's education. Community involvement allows students to be exposed to learning opportunities as well. In order to review needs in family and community involvement, parental and community involvement surveys are passed out yearly and the data is analyzed by administrators, the district, and teachers. This allows the SBDM committee to discuss opportunities to meet the needs in these areas and further improve these areas. Title I funds allow the funding of a parent liaison. The role of the parent liaison is very important as it is the individual who transfers information to and from the campus to parents and communities. The parent liaison is responsible for implementing all Title I parental involvement requirements at the campus level that includes weekly meetings and to provide opportunities for parents to volunteer and participate in campus educational activities. In addition, Title I funds assist in providing mileage reimbursements. The parent liaison compiles data on parental participation attendance and meeting agendas for the SBDM committee. With that information, the SBDM determines campus needs. In order to increase parental involvement attendance rates, parent and community member volunteer opportunities are available throughout the school year.

Note: This policy addresses bullying of District students. For purposes of this policy, the term bullying includes cyber-bullying.

For provisions regarding discrimination and harassment involving District students, see FFH. Note that FFI shall be used in conjunction with FFH for certain prohibited conduct. For reporting requirements related to child abuse and neglect, see FFG.

Bullying Prohibited	The District prohibits bullying, including cyberbullying, as defined by state law. Retaliation against anyone involved in the complaint process is a violation of District policy and is prohibited.
Examples	Bullying of a student could occur by physical contact or through electronic means and may include hazing, threats, taunting, teasing, confinement, assault, demands for money, destruction of property, theft of valued possessions, name calling, rumor spreading, or ostracism.
Retaliation	The District prohibits retaliation by a student or District employee against any person who in good faith makes a report of bullying, serves as a witness, or participates in an investigation.
Examples	Examples of retaliation may include threats, rumor spreading, ostracism, assault, destruction of property, unjustified punishments, or unwarranted grade reductions. Unlawful retaliation does not include petty slights or annoyances.
False Claim	A student who intentionally makes a false claim, offers false statements, or refuses to cooperate with a District investigation regarding bullying shall be subject to appropriate disciplinary action.
Timely Reporting	Reports of bullying shall be made as soon as possible after the alleged act or knowledge of the alleged act. A failure to immediately report may impair the District's ability to investigate and address the prohibited conduct.
Reporting Procedures	To obtain assistance and intervention, any student who believes that he or she has experienced bullying or believes that another student has experienced bullying should immediately report the alleged acts to a teacher, school counselor, principal, or other District employee. The Superintendent shall develop procedures allowing a student to anonymously report an alleged incident of bullying.
Student Report	
Employee Report	Any District employee who suspects or receives notice that a student or group of students has or may have experienced bullying shall immediately notify the principal or designee.

Report Format	A report may be made orally or in writing. The principal or designee shall reduce any oral reports to written form.
Notice of Report	When an allegation of bullying is reported, the principal or designee shall notify a parent of the alleged victim on or before the third business day after the incident is reported. The principal or designee shall also notify a parent of the student alleged to have engaged in the conduct within a reasonable amount of time after the incident is reported.
Prohibited Conduct	The principal or designee shall determine whether the allegations in the report, if proven, would constitute prohibited conduct as defined by policy FFH, including dating violence and harassment or discrimination on the basis of race, color, religion, sex, gender, national origin, or disability. If so, the District shall proceed under policy FFH. If the allegations could constitute both prohibited conduct and bullying, the investigation under FFH shall include a determination on each type of conduct.
Investigation of Report	The principal or designee shall conduct an appropriate investigation based on the allegations in the report. The principal or designee shall promptly take interim action calculated to prevent bullying during the course of an investigation, if appropriate.
Concluding the Investigation	<p>Absent extenuating circumstances, the investigation should be completed within ten District business days from the date of the initial report alleging bullying; however, the principal or designee shall take additional time if necessary to complete a thorough investigation.</p> <p>The principal or designee shall prepare a final, written report of the investigation. The report shall include a determination of whether bullying occurred, and if so, whether the victim used reasonable self-defense. A copy of the report shall be sent to the Superintendent or designee.</p>
Notice to Parents	If an incident of bullying is confirmed, the principal or designee shall promptly notify the parents of the victim and of the student who engaged in bullying.
District Action	If the results of an investigation indicate that bullying occurred, the District shall promptly respond by taking appropriate disciplinary action in accordance with the District's Student Code of Conduct and may take corrective action reasonably calculated to address the conduct. The District may notify law enforcement in certain circumstances.
<i>Discipline</i>	A student who is a victim of bullying and who used reasonable self-defense in response to the bullying shall not be subject to disciplinary action.

	<p>The discipline of a student with a disability is subject to applicable state and federal law in addition to the Student Code of Conduct.</p>
<i>Corrective Action</i>	<p>Examples of corrective action may include a training program for the individuals involved in the complaint, a comprehensive education program for the school community, follow-up inquiries to determine whether any new incidents or any instances of retaliation have occurred, involving parents and students in efforts to identify problems and improve the school climate, increasing staff monitoring of areas where bullying has occurred, and reaffirming the District's policy against bullying.</p>
<i>Transfers</i>	<p>The principal or designee shall refer to FDB for transfer provisions.</p>
<i>Counseling</i>	<p>The principal or designee shall notify the victim, the student who engaged in bullying, and any students who witnessed the bullying of available counseling options.</p>
Improper Conduct	<p>If the investigation reveals improper conduct that did not rise to the level of prohibited conduct or bullying, the District may take action in accordance with the Student Code of Conduct or any other appropriate corrective action.</p>
Confidentiality	<p>To the greatest extent possible, the District shall respect the privacy of the complainant, persons against whom a report is filed, and witnesses. Limited disclosures may be necessary in order to conduct a thorough investigation.</p>
Appeal	<p>A student who is dissatisfied with the outcome of the investigation may appeal through FNG(LOCAL), beginning at the appropriate level.</p>
Records Retention	<p>Retention of records shall be in accordance with CPC(LOCAL).</p>
Access to Policy and Procedures	<p>This policy and any accompanying procedures shall be distributed annually in the employee and student handbooks. Copies of the policy and procedures shall be posted on the District's website, to the extent practicable, and shall be readily available at each campus and the District's administrative offices.</p>
