

Paper Bag Pinata

By: *somewhatsimple.com*

Paper Bag Pinata Supplies

- paper lunch sacks, 1 per child
- magazine/ newspaper pages
- tissue paper
- scissors
- glue or tape
- yarn or twine
- hole punch
- candy
- Stapler(optional)

How To Make A Paper Bag Pinata

- Fill the paper bag with as much candy as you'd like – I usually do a handful or 2. Don't do it too full or it will be too heavy to hang.
- Crinkle the magazine papers to fill the bag the rest of the way.
- Fold over the top of the bag and secure with a piece of tape or staple shut.
- Cut the tissue paper into strips that are long enough to wrap around the paper bag.
- Cut fringe along a long the edges of the tissue paper strips by cutting slits half way up your tissue paper, every inch or so.
- Using glue or tape, secure a piece of fringed tissue paper around the bag. The tissue paper should slightly hang over the bottom of the bag.
- Repeat with another strip of fringed tissue paper, overlapping the previous strip just slightly. Continue until your entire bag is covered.
- Punch two holes at the top, one on each end.
- Cut a piece of yarn a few feet long and thread it through one hole on your pinata, securing it with a knot. Secure the other side of the yarn to the other side of the bag.
- Cut several more 1-inch strips of tissue paper, about 4- 6 inches long. Tape them to the bottom of the pinata.

Hang and have fun!!!
