Raphael Rittenhouse
Superintendent

rrittenhouse@gulllakecs.org

Dear Gull Lake Community Schools Families,

After school on Tuesday, I went to the main campus and athletic complex to catch some of the activities taking place. When I got there, I was impressed to see several hundred athletes from multiple schools competing in their chosen events. Many of our staff, coaches and mentors were there organizing and cheering on our Gull Lake student athletes.

After the shutdown last March, our students did not have access to these positive outlets, and we all began to realize just how much meaning these activities bring to our lives. Upon seeing our athletic complex bustling with kids and community members, I remembered just how much I had been missing it. Greeting students and families, striking up conversations with visiting competitors and their families, simply amazing...

As we head into the weekend, my wish for you is that you can find your way to one of the many community events that are springing back up after our long dormancy.

I promise, it'll do you some good.

District Highlight: The GL Transportation Department recently received a 100% Inspection Rating from the Michigan State Police. All District school buses were found to be free of mechanical defects. Congratulations to Travis Hall, Head Mechanic and Mike Davis, Mechanic for your dedication to keeping students safe and a job well done!

Best regards,
Raphael Rittenhouse/Superintendent
