Good afternoon DCS Family,

Governor Cooper and Dr. Mandy Cohen spoke today addressing the new CDC guidance that was released yesterday. While mandatory mask use has been lifted in many settings, only for those who are vaccinated, NC is still requiring masks in schools. Therefore, staff and students will still be required to wear masks everyday while in school buildings, since a large population of school age North Carolinians are not vaccinated, and many are not eligible to become vaccinated. NC is also requiring all those who are not vaccinated to continue to wear masks in all public settings.

If you are looking for vaccination information, COVID-19 vaccinations are now offered by appointment at the Davie County Health and Human Services Department. Call **(336) 753-6779** to schedule. More information is available at the links below.

Social distancing requirements and mass gathering restrictions have been lifted as well. The Davie County Early College and Davie County High School will be making announcements soon as to how this new guidance affects graduation ceremonies. We are excited to be able to explore options for additional guests at these milestone events for our seniors and their families.

Please see these resources as we continue to navigate through the pandemic.
