

Geography Vision Statement

At Stockton Primary School we strive to provide our children with the opportunities to become global citizens, deepening their interest and wonder in exploring their own place in the world. We believe it is important to provide 'Living Geography' concerned with children's lives, their futures and their world. Through our curriculum our children will develop a sense of their world at the local, national and global scales understanding the interconnections between how people and the environment interact. Fieldwork is an essential part of this. Pupils learn to think critically, think spatially, use maps, visual images and new technologies, including geographical information systems to analyse and present information. They will have an adept understanding of their responsibilities within their own society whilst also having a coherent insight into sustainability of a dynamically changing world.
