

Danny McSweeney
Class of 2024

I would like to be a member of our Class Council because I want to find new ways to bring our class together. Starting high school in the middle of a pandemic has not been easy for a lot of us. I know personally, it's been a challenge for me. The restrictions were necessary, but they made it difficult for anything to feel normal. I have learned by example from my older brothers that the Daniel Hand experience can be a great one, filled with school spirit, involvement, relationships and pride. I believe it's more important than ever to have a plan for our remaining time at Hand, filled with all the experiences we had hoped for.

I have been involved each trimester in activities like soccer, Unified sports and volleyball, but I want to do more. I'm confident I can bring different groups of people together for a common goal and represent the interests of all students that want to be heard. If chosen for this position, I promise to work hard to make next year an amazing one for the Class of 2024.

Thank you!
