

Norah Stotz
Class of 2024

Hi there! I had a great time being a class officer this year and I'm honestly very proud of the work we did. For example, I acted as the group's graphic designer and helped plan fundraisers for our prom. I've had a lot of positive experiences with leadership roles and community service, including receiving the Citizenship Award last year. I've been a part of the Excel Club for the past three years and Student Council for the past two. I believe I am one of the best people to represent our grade because of my dedication and motivation to work for our school community. I'm a great listener and I'd love to hear the things that are important to you. I would be honored to be reelected as a class officer. The class of 2024 deserves great things (especially after this year) and I want to help you get them.
